

Solo System Cleaning & Maintenance

INSTRUCTION GUIDE

CLEAN & MAINTAIN YOUR SOLO SYSTEM

Your Sunlighten Solo deserves all the TLC you can give it. We've provided these instructions to help you keep your personal sauna clean and running well. Follow these instructions carefully and you'll enjoy your wellness oasis for years to come.

Domes

- Leave domes on for 10-15 minutes after use to kill any bacteria
- Always keep domes extended when the heaters are active; do not collapse the domes when they are hot
- To keep the upper dome clean, use a towel or the Solo curtain on the front edge when you need to move the dome to get in or out

Pad

- Leave pad on for 10-15 minutes after use to kill any bacteria
- Sauna Cleaner (available at <https://shop-us.sunlighten.com/>) can be used to clean any pad stains
- For deep seated stains, create a paste of baking soda and water. Let it set for a couple of hours, then wipe it off to help lift the stains.
