

GENERAL DISTRIBUTION Providers receive a minimum 2% of patient revenue	\$50 B	Phase I: Medicare Providers (<i>providers that bill FFS Medicare</i>) received an automatic payment based on their share of total Medicare FFS revenues in 2019. Providers with cost reports on file (generally hospitals) received an automatic second payment that —when combined with the first payment—would bring their total payment to at least 2% of net patient revenue. All other providers (those that received a first payment but did not automatically receive a second payment) were required to apply by June 3.
	\$18 B	Phase II: Medicaid, CHIP, dental, and assisted living facility providers that did not receive <i>any</i> Phase I payment <u>plus</u> providers that did not receive their full 2% of patient revenue payment in Phase I
	\$20 B	Phase III: Previously-eligible Phase I and Phase II providers <u>plus</u> newly-eligible providers including certain behavioral health providers (e.g., addiction counseling centers) and providers that began practicing between January 1 and March 31, 2020. Providers that have not yet received their full 2% of patient revenue payment via the General Distribution may receive it in Phase III <u>and</u> providers may receive an add-on payment based on an assessment of their revenue losses and expenses attributable to COVID-19.
TARGETED DISTRIBUTIONS These are additive to General Distribution payments	\$22 B	High-Impact Distribution (<i>hospitals in “hot spots,” determined based on number of COVID-19 inpatient admissions in January-June</i>)
	\$14.7 B	Safety Net Hospitals Distribution (<i>hospitals that meet certain patient percentage, uncompensated care, and profitability measures; acute care facilities; and free-standing children’s hospitals</i>)
	\$11.3 B	Rural Distribution (<i>hospitals in rural/small metropolitan areas or with rural Medicare designations, health centers located in rural areas</i>)
	~\$9.9 B	Skilled Nursing and Long-Term Care Facilities Distributions (<i>CMS-certified facilities with 6+ beds</i>)
	\$0.5 B	Tribal Hospitals, Clinics, Urban Health Centers Distribution
COVID-19 UNINSURED PROGRAM Only distribution that pays for services provided	TBD*	Claims for Treating Uninsured COVID-19 Patients (<i>this HRSA program also covers testing, but those claims are not funded by the Provider Relief Fund</i>) <i>Not subject to September 2020 PRF reporting guidance.</i>
