

# COMMITTED TO A SUSTAINABLE LIFESTYLE

## CUSTOMISATION

---

Broad menu with several different types of options

Menu is highly customizable

Menu can become 100% vegetarian and 90% vegan

## PLANT-BASED

Vegan menu items available

## CONTROLLED FOOD WASTE

---

0% Food waste – partner with local organisations to distribute excess food and ingredients

## BIO - DEGRADABLE AND RECYCLABLE PACKAGING

---

All packaging recyclable – compostable or biodegradable. Use paper, not plastic for delivery

Cutlery, straws & lids only served on request

Smoothie cups – made from 100% recycled plastic + 80% recycled lid

Paper or biodegradable straws

## RESPONSIBLE SOURCING

---

Ethical sourcing practices with emphasis on free range protein, sustainably sourced fish, organic coffee and supporting smaller growers

Direct relationship with suppliers = traceability & quality

All suppliers are HACCP or ISO22000 certified

## REDUCING OUR CARBON FOOTPRINT

---

Committed to sourcing locally – 100% of fresh produce and 80% of long life groceries are sourced locally and the balance is sourced ethically

Minimise electrical consumption on site – due to sustainable cooking equipment and induction cookers

## TRANSPARENCY

---

Tracking key produce back to source

Ensuring human rights standards are met and local environments and species are protected
