

Fires Spread Quickly—Protect Your People, Property, and Planet

 **Justrite®**

EAGLE®
Justrite Safety Group

The National Fire Protection Association (NFPA) estimates that 37,000 manufacturing and Industrial fires occur annually, and the direct and indirect costs of commercial business fires in the USA amount to \$15.9 billion annually.

Justrite and Eagle cabinets are designed for long-lasting performance, surpassing our competitors in both durability and safety compliance, making our brands the top choice three times more often.

Why Choose a Justrite or Eagle Safety Cabinet?

Implement proven safety measures with Justrite and Eagle cabinets to securely store hazardous chemicals. Our durable cabinets set us apart with trusted quality and safety compliance, ensuring peace of mind for you and your team.

SAFETY AND COMPLIANCE

Approvals and Compliance

Complies with OSHA, NFPA, IFC, Fire tested and FM Approved. Every cabinet goes through a 30-point quality checklist before shipping.

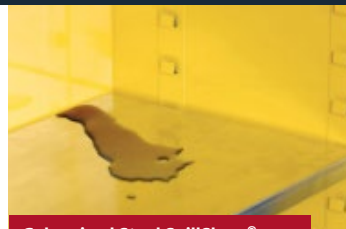

Fire Tested

Designed to maintain an internal temperature below 325°F (liquid flammable autoignition temperature) when exposed to a 10-minute fire test.

Built-in Safety

All cabinets include a built-in grounding connector for optional grounding to eliminate the chance of an electrostatic discharge while handling flammable fluids.

Galvanized Steel SpillSlope® Shelves

Patented SpillSlope shelves are slightly sloped to direct spills to the back and bottom.

DURABILITY

Rugged Cabinet Construction

Sturdy 18-gauge (1-mm) double-wall steel with 1.5 inches of insulating air space, provides greater protection in a fire since air gaps are reduced.

Corrosion Resistance

Durable, UV and chemical-resistant powder-coat paint inside and out protects against corrosion.

Fully Welded Construction

Durable fully welded construction (not riveted) ensures that the cabinet remains square and compliant throughout its lifespan.

Enclosed Sequencer

Cabinets with self-closing doors feature a patented, concealed sequencer that limits wear.

PRODUCTIVITY AND EASE OF USE

Convenience

Allows flammables to be kept at the point of use for better productivity.

Easy to Use

The U-Loc™ handle requires no manual rotation to engage the mandatory 3-point latch.

Adjustability

Shelves are adjustable on 3" centers and meet the ANSI standard of 350lb loads.

Concealed Locking

Patented concealed self-locking mechanism that doesn't get damaged during use or transport.

VERSATILITY

Wide Variety

Justrite and Eagle offer over 300 safety cabinet models ranging from 4 to 115 gallons to meet various safety, compliance, and storage needs.

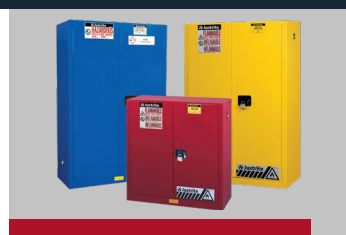

Customization

Galvanized shelving with adjustability to customize your needs.

Self-Leveling Feet

Adjustable self-leveling feet for stabilization on uneven surfaces.

Color-Coded

Cabinets are available in different colors to segregate by chemical type and use.

What to Look for When Choosing a Safety Cabinet

Considerations

Justrite and Eagle Benefits

What types of compliance should I look for in a flammable safety cabinet?

Safety compliance is our number 1 priority and our cabinets meet or exceed regulatory requirements:

- FM approved.
- OSHA, NFPA and IFC compliant.
- Maintains an internal temperature below 325°F (liquid flammable autoignition temperature) when exposed to a 10-minute fire test.
- 30-point quality check before shipping.

What safety features should I look for in a cabinet?

Justrite and Eagle cabinet safety features include:

- Dual-flame arrestors for vapor ventilation.
- Grounding protection to eliminate the chance of an electrostatic discharge.
- Sloped shelves to divert spills toward the back and bottom.
- MIG-welded sumps for leak resistance.
- Scratch and chemical-resistant heavy-duty reflective labels, easily identifiable by fire departments in smoke or fire conditions (Justrite cabinets only).

Should I choose a manual or self-close door in a flammable safety cabinet?

Our cabinets offer both manual and self-close door options:

- Different states and municipalities may require self-close doors, please check your local regulations.
- New states are mandating self-close doors each year.

What should I consider when choosing a cabinet that will endure heavy use and needs to last for several years?

Justrite and Eagle cabinets are engineered with the following:

- High-quality steel made in the USA with tight tolerances to prevent air gaps and lasts 3X longer than overseas steel.
- Galvanneal is used on outdoor cabinets - making them 16 times more corrosion-resistant.
- Fully welded cabinets last longer than riveted cabinets.
- Chemical-resistant powder-coat paint for longevity.

What if I need to store different types of flammables?

We have over 300 safety cabinets:

- Color-coded cabinets that are available to segregate by chemical type and use.
- Models ranging from 4 to 115 gallons (15 to 435 liters) to meet various safety, compliance, and storage.

Where Our Cabinets Are Needed

Flammable/Outdoor/
Drum Cabinets

Battery
Cabinet

Paint Storage
Cabinets

Corrosive
Cabinets

Hazmat
Cabinets

Pesticide
Cabinets

Emergency
Preparedness Cabinets

Cabinet Color-Code

CONSTRUCTION

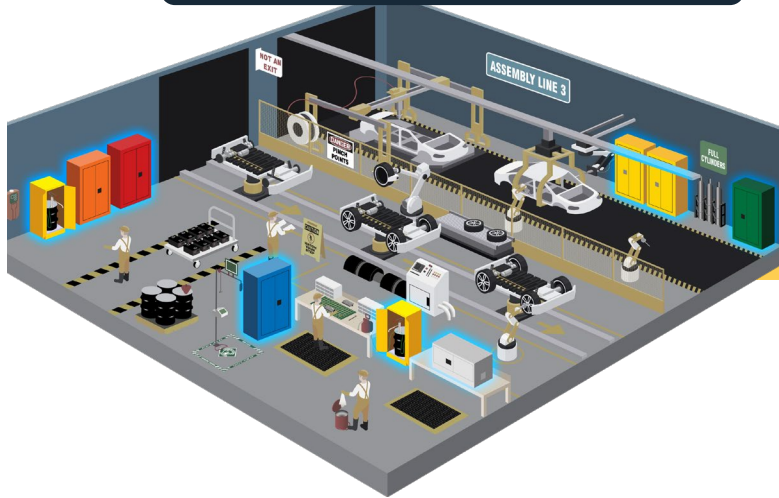

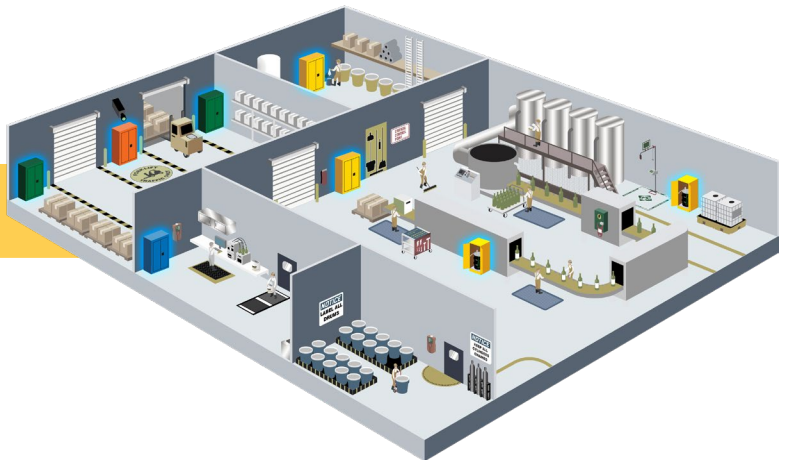

- Prevent accidents
- Ensures Compliance
- Protect property and assets

FOOD AND BEVERAGE

- Reduce fire risk
- Improve indoor air quality – Improperly stored flammables liquids can release harmful VOC's (Volatile Organic Compounds) in the air – our air vents allow for plumbed ventilation if needed

GENERAL MANUFACTURING

- Enhance fire protection – Self-closing cabinets
- Reduced spills and leaks – Two-inch leak-proof sump holds leaks and meets EPA requirements
- Regulations and safety standards – Many states have updated codes on cabinets

PHARMACEUTICALS/LABS

- Biggest breadth and depth offering for your lab, including Under Fumehood cabinets, Chemcor® lined cabinets, and Hazardous Material cabinets.

**JUSTRITE AND EAGLE CABINETS ARE NEEDED IN MOST INDUSTRIES.

Justrite and Eagle Cabinets

Offer Exceptional Value, Total Cost of Ownership, and Savings

SAFELY MADE IN THE USA™ 

Productivity and Efficiency

Increased Productivity:

- Up to **55% boost in productivity** by having products readily available at the point of use, reduced replacement and disposal tasks during the lifetime of the cabinet.

Cost-Effectiveness

Lifetime Cost Savings:

- Up to **66% lower lifetime total cost of ownership** compared to competitors.

Extended Lifespan:

- Up to **3 times the longevity** of competing cabinets due to the 10 year warranty.

Safety and Compliance

Regulatory Adherence:

- Justrite and Eagle cabinets comply with or exceed all safety rules and regulations.

Financial Protection:

- Proper use of these cabinets can save thousands, 16K for a single fine and 160K or more in damages.

Protect workers, reduce fire risks, and improve productivity by storing flammable fuels and chemicals in OSHA- and NFPA-compliant safety cabinets
