# VALLEN VENDING SOLUTIONS

Introducing the world's most revolutionary vending machine system: from SecuraStock. It will give you more capability, flexibility and security, while using 50% less power usage than standard vending machines. Securastock has efficient 15-second transaction times and a dispensing cost that is 50-70% lower, per SKU. This machine is the most cost effective, efficient vending machine model in Canada. And, it's exclusive to Vallen.

## THE ITEMS YOU USE

All Vallen vending machines can dispense more than 5,000 national brand name industrial and safety supplies including:

### INDUSTRIAL PRODUCTS

- Hand tools
- Cutting tools
- Batteries
- Knives
- Scrapers

### SAFETY PRODUCTS

- Safety glasses
- Gloves
- Vests
- Flashlights
- Fall Arrest

### JANITORIAL PRODUCTS

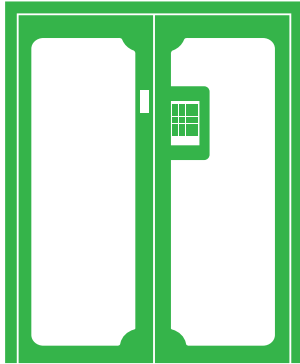

- Cleaning chemicals
- Paper Products

Please see [vallen.ca](http://vallen.ca) for a listing of available products.

# THE SECURASTOCK FAMILY

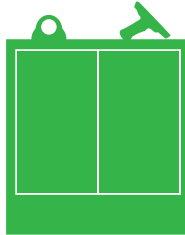

## SECURASTOCK

The original Securastock vending machine.

## SECURACRIB

For installation in your storerooms and cribs.

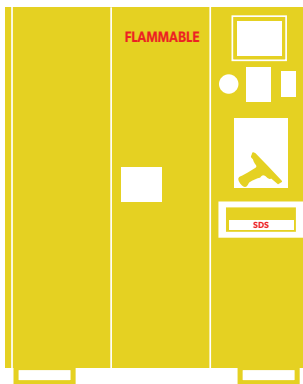

## SECURATRACK

Ideal for areas where inventory tracking is important and security is not critical, such as manned storerooms and point-of-use free issue products.

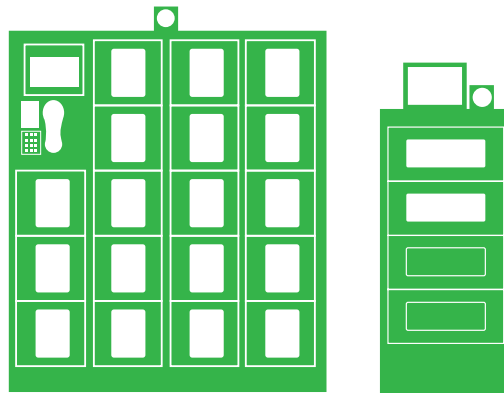

## SECURACHEM

Flammable storage cabinet with a built-in inventory control system.

## SECURALOCKER AND SECURATOWER

Track and secure your most valuable inventory by adding Securalocker or Securatower to a Securastock unit.

# SECURASTOCK

Enjoy inventory control throughout your plant or worksite by installing SecuraStock machines at key point-of-use locations. Features include controlled access entry, four cameras, DVR with cloud storage of data, and the ability to hold up to 200 SKUs and thousands of individual pieces.

- Reliability is no problem with no motors and a 3 year warranty on all parts
- Easy to refill and reconfigure - no vendable packaging required or fixed locations for products
- Accommodate a wide variety of products - from gloves to batteries to replacement parts
- All items can be returned - eliminates hoarding and waste
- Asset tracking - check in/check out, FOD, calibration and expiry date tracking
- Tool charging and return
- On-demand restock ordering
- Report tracking to job, equipment or cost centre
- Portable with backup power
- Lowest dispensing cost per SKU - 50-70% lower than other machines
- Holds the capacity of up to 3 traditional coil machines
- Dimensions: 72" high x 60" wide x 27" deep, 500 lbs

# SECURATRACK

Put this low-cost inventory control system to work for you. SecuraTrack is ideal for areas where inventory tracking is important and security is not critical, such as manned storerooms and point-of-use free issue products. Track up to 15,000 SKUs and thousands of individual pieces.

- Reliability is not an issue as each unit has its own backup power and a three-year warranty on all parts
- Can handle a wide range of products to meet the needs of your jobsite
- All items can be returned - eliminates hoarding and waste
- Allows easy returns for immediate reuse, issuing automatic electronic transaction notifications for your records
- Convenient asset tracking of check in/check out, FOD, calibration and expiry dates - letting you generate reports by job, equipment or cost centre
- Dimensions: 15" high x 15" wide x 50" deep, 50 lbs

# SECURACRIB

Get complete control of your inventory issues by installing SecuraCrib systems in your storerooms and cribs. SecuraCrib offers controlled access entry, up to 32 motion-sensing vandal-proof cameras, DVR with local and cloud storage of data, and the ability to track unlimited SKUs and individual pieces.

- Reliability is not an issue as each unit has its own backup power and a three-year warranty on all parts
- Can handle a wide range of products to meet the needs of your jobsite
- Motion-sensing technology monitors and records all activity and provides security
- Allows easy returns for immediate reuse, issuing automatic electronic transaction notifications for your records
- Convenient asset tracking of check in/check out, FOD, calibration and expiry dates - letting you generate reports by job, equipment or cost centre
- Dimensions: 30" high x 36" wide x 14" deep, 150 lbs

# SECURACHEM

Control your inventory costs and keep your site safe and secure with the world's only flammable product storage cabinet with a built-in inventory control system. SecuraChem sorts, organizes and labels your flammable and hazardous products, and will even prompts your workers to return these goods back into storage. System includes controlled access entry, four cameras, DVR with cloud storage of data, and the ability to track over 100 SKUs depending on the product size and quantity stocked.

- Reliability is not an issue as each unit has its own backup power and a three-year warranty on all parts
- Motion-sensing technology monitors and records all activity and provides security
- Accommodates most chemicals and solvents needed on your jobsite
- Corrosion-proof bins and shelf dividers keep products organized, and spill containment shelves and self-closing doors keep things safe and secure
- Easy to refill and reconfigure, with the ability to dispense products in singles or in bulk
- Allows easy returns for immediate reuse, issuing automatic electronic transaction notifications for your records
- Convenient asset tracking of check in/check out and expiry dates, letting you generate reports by job, equipment or cost centre
- Access information on any transaction from anywhere in the world
- Outside Dimensions: 72" high x 62" wide x 22" deep, Storage Dimensions: 60" high x 41" wide x 18" deep, Weight: 850 lbs
- Meets all NFPA and OSHA standards, and is LEED and SMART certified

# SECURALOCKER & SECURATOWER

Track and secure your most valuable inventory. Add SECURALOCKER and/or SECURATOWER to SECURASTOCK, SECURATRACK, OR SECURACRIB for an even more powerful automated inventory control.

- Up to 100 flexible SKU storage positions and holds over 1,000 items
- Automatic ordering and new order spot buys and requests
- Line of sight access to all materials
- Lowest dispensing cost per SKU: Up to 50% cheaper than other machines
- Multi-item check-out/check-in
- Accommodates tools & other durable items
- Store & dispense in bulk or packaged
- Access to each locker is restricted by individual user, or department; Motion sensing camera & real-time video recording
- Unlimited on-demand reporting
- Seamless ERP & web system integration
