

Embroidery

- Embroidery is the craft of decorating fabric or other materials using a needle & thread/Yarn
- Embroidery can be used on all kinds of materials

Recommended Logo Placement

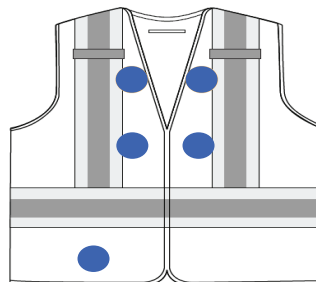

Screen Printing

- Screen printing is a technique where ink is pushed through a stenciled mesh sheet onto a fabric
- Works great on cotton blends, polyesters, canvas and denim

Recommended Logo Placement

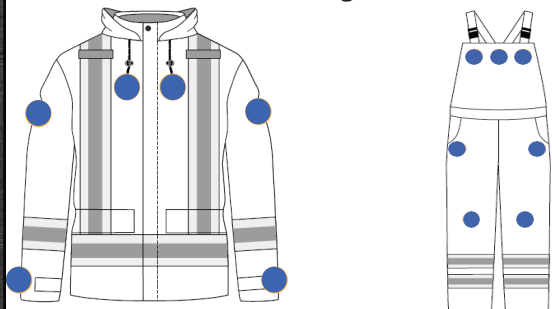

Heat Transfer

- Heat Transfer uses the heat press to transfer an image to an object or garment
- Ideal for all waterproof & treated fabrics and reflective prints

Recommended Logo Placement

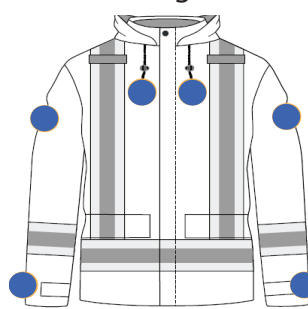

Patches and Labels

- Patches can be laser cut out and finished with an embroidered or merrowed edge

Recommended Logo Placement

- A velcro, adhesive or iron-on backing can be applied, in addition to being directly sewn on
