WELDING SOLUTIONS FOR A SAFER & FASTER PROCESS

SPY™ AUTO-DARKENING WELDING HELMET

Experience ultimate versatility
and a superior view

NEW

- ▶ Large 12.2 square inch viewing area with wide variety of shade options for versatility to perform a variety of welding tasks
- ▶ TrueColor technology broadens viewable color range for better view of the weld pool
- ▶ Ratchet headgear with integrated foam pad allows for maximum all-day comfort

 **WALTER**
Achieve Greatness™

**Please contact your local authorized WALTER distributor for more details.

WIRE BRUSHES

BRASS BRUSHES

PRODUCT FAMILY: 13K

BRASS STRINGER BEAD

For spark-free brushing in hazardous environments where cleaning is needed without removing the base material.

SCRATCH BRUSHES

PRODUCT FAMILY: 13S

CARBON STEEL, STAINLESS, AND BRASS

For comfortable and efficient brushing in wide variety of applications. The best value for hand brushes in the industry today.

WIRE CUP - ANGLE GRINDERS

PRODUCT FAMILY: 13D/13E/13F/13G

CRIMPED

For surface cleaning, brushing and finishing of large flat surfaces.

KNOT-TWISTED

For flat surface brushing and cleaning, rust and scale removal, weld and edge cleaning.

KNOT-TWISTED & CRIMPED WITH RING

Safety supporting ring controls flaring to extend brush life. Once worn down to the ring, it can be removed to expose more wire for extra brush life.

SAUCER-CUP - ANGLE GRINDERS

PRODUCT FAMILY: 13H

KNOT-TWISTED

For weld cleaning and deburring in hard to reach places such as inside corners, edges and contours.

CRIMPED

For cleaning wider root passes and rough surfaces. Can clean on both sides of a weld at the same time.

MOUNTED WIRE - 1/4" SHAFT DIE GRINDERS

PRODUCT FAMILY: 13C

CRIMPED: For cleaning hard to reach areas such as pipe interiors and confined spaces.

KNOT-TWISTED: For heavy-duty applications such as removal of rust, corrosion and gasket.

OTHER BRUSHES

13B WIRE WHEEL BRUSHES:

For bench and pedestal grinders.

13M LINEAR CRIMPED:

For use with the LINE-MATE III™ system

PRO TIP:

WALTER uses a simple color-coding system to identify brush materials. Orange-hub brushes are made with oil-hardened carbon steel wires, while blue-hub brushes are made with 304 stainless steel wires. This makes identifying the proper brush easier in the shop to avoid contamination.

PRODUCT FAMILY: 13J/13K/13L

KNOT-TWISTED

For cleaning wider root passes as well as removing scale, spatter and corrosion.

STRINGER BEAD

For extra narrow cleaning, root passes on pipes, brushing in narrow grooves, etc.

ALLSTEEL™

PRODUCT FAMILY: 09C & 13W

Wire brushes designed to provide value and deliver consistent and reliable surface cleaning performance on a variety of metals. Available in a variety of shapes and sizes.

HEAD AND FACE PROTECTION

ARCONE®

SPY™

Item no.: 3500V-1600

- Large 12.2 square-inch viewing area with wide variety of shade options
- Perfect for students and industrial welders alike seeking performance and advanced features

NEW

On all auto-darkening lenses

Grind mode

True Color Technology

Wide Dark Shade Range

ORBIT™

Item no.: BFFVX3-1800

- 24-square-inch viewing with 3 lenses
- Three high-definition auto-darkening lenses provide optimal peripheral vision

On all auto-darkening lenses

Best-in-class optical clarity and sensitivity

Wide Dark Shade Range

HD Technology

Grind mode

Solar-powered with battery back-up

VISION®

Item no.: BFFVX-1500

- 17.05-square-inch viewing area improves weld pool vision as well as peripheral view of surroundings
- Unparalleled optical clarity and sensitivity
- X-TIG mode for welding when views are obstructed

On all auto-darkening lenses

Best-in-class optical clarity and sensitivity

Wide Dark Shade Range

HD Technology

Patented cover plate quick-change system

Solar-powered with battery back-up

BROWGUARD

Item no.: BG1

HAWK WELDING HELMET

Item no.: S240-10-0300

SUPER SINGLES® VARIABLE

- Variable shade options
- Grind mode

WHY USE WALTER ANTI-SPATTER SOLUTIONS?

As a company who is consistently looking to increase your productivity while reducing your costs, WALTER has developed a safer and healthier line of anti-spatter solutions to prevent spatter from adhering to work surfaces. Our anti-spatter solutions are non-toxic, non-flammable and biodegradable.

Without E-WELD™ or SPATTER BLOCK™

With E-WELD™ or SPATTER BLOCK™

E-WELD 3™

Dual purpose high-temperature anti-spatter and cleaning solution

E-WELD 3 is a high performance anti-spatter solution that both cleans the workpiece and protects it from high velocity spatter, eliminating an extra step in the welding process while avoiding costly rework. E-WELD 3 is often the preferred solution for use on stainless steel.

- FOR HIGH HEAT APPLICATIONS
- CAN BE USED AS A DEGREASER
