

Gescan is Western Canada's largest privately owned electrical distributor providing business owners and contractors with industry-leading products, services and solutions for more than 65 years.

We pride ourselves on our superior customer service offering local expertise, inventory on-hand across our extensive branch network, and a seamless shopping experience — over the counter, by phone or online.

As a proud member of Sonepar, the world's largest business-to-business electrical distributor, we leverage our multi-channel distribution network and powerful logistics to optimize our supply chain and deliver the industry's most innovative solutions.

Keep power flowing with our full suite of power distribution products, services & solutions

Ensure highly consistent, efficient and reliable power distribution with our expertly coordinated products, systems and services.

Our comprehensive power distribution and electrical installation technology portfolio covers every requirement – from switchboards and panels to meter centres and circuit breakers – our team of distribution experts help you future-proof designs and tender projects faster.

Powerful products for challenging environments

When it comes to availability, ease of installation and fewer service calls, our industry-leading manufacturers offer technology you can trust.

Our products and systems are engineered and manufactured to meet the most demanding conditions with a focus on safety and efficiency.

- ✔ Transformers
- ✔ Switchgears
- ✔ Motor Control Centres
- ✔ Transfer Switches
- ✔ Switchboards
- ✔ Meter Centres
- ✔ Panelboards
- ✔ Safety Switches
- ✔ Loadcentres
- ✔ Phase, CT & Power Monitoring
- ✔ Circuit Breakers
- ✔ Disconnects
- ✔ Enclosed Controls
- ✔ Fuses
- ✔ Variable Frequency Drives
- ✔ Surge & OVP
- ✔ Capacitor Banks
- ✔ Heat trace Controls
- ✔ Grounding
- ✔ Cables & Raceway
- ✔ Uninterruptible Power Supplies

Power up your projects with expertly coordinated power distribution solutions

Our comprehensive field services support the entire life cycle of electrical distribution equipment. Bringing extensive industry experience and a hands-on, in-field approach, our specialists diagnose problems, identify ways to improve performance and transform concepts into flexible, practical solutions to keep power systems safe, reliable and up-to-date.

Our experts deliver exceptional design innovation and comprehensive solutions with seamless integration. From planning, design, estimating, procurement, scheduling and progression through to construction completion, our specialists have considerable experience in the oil sands, oil and gas, petrochemical, heavy industrial, commercial and residential sectors.

DISTRIBUTION SUPPLY

- ✔ Design-Build Assist (>25KV)
- ✔ Project Quotation & Admin
- ✔ Site Visit & Assessments
- ✔ In/Outdoor Unit Substation
- ✔ Unit Sub Retrofit Building
- ✔ Upgrades 15KV-25KV
- ✔ Transformers
(Dry, Auto, Isolation, Oil, Pad Mount & Unitized)

ENGINEERING SERVICES

- ✔ Coordination Studies
- ✔ Short Circuit Studies
- ✔ Device Evaluation
- ✔ Arc Flash Studies
- ✔ Z32 Testing
- ✔ Ground Grid Testing

POWER QUALITY MANAGEMENT

- ✔ Capacitor Banks
- ✔ TVSS Surge Protection
- ✔ Harmonic Filtering
- ✔ Energy Monitoring
- ✔ EV Charging Stations

Meet our team

Serving the residential, commercial, institutional, industrial and OEM markets, our specialists are ready to assist you in designing, supplying and building high-performance systems.

Kelly Last
Distribution
Manager

Kelly leads our team of distribution specialists who all have the formal training and technical abilities to redesign distributions, quote large commercial and industrial projects from start to finish, and provide tenders for contractors.

With more than 35 years of industry experience, Kelly uses his expertise to develop customer-centric solutions — staying actively involved throughout the entire process to ensure our customers get what they need, when they need it.

Wes Noon
Distribution Specialist
Mid-West region

Wes helps determine the most efficient and cost-effective solutions and tender projects faster by providing distribution, pricing and design-build assistance for your distribution project needs. With over 25 years of experience in construction and as an electrical contractor, Wes has extensive field, design, applications and hands-on installation experience with all major electrical manufacturers' equipment. Decades of experience in the electrical industry allows Wes to troubleshoot and solve the most complex issues quickly.

Amjad Mahmood
Distribution Specialist
BC

Professional Engineer (P.Eng) Amjad provides technical support to the Gescan sales team, project group and end users, works with vendors to prepare technical proposals, review electrical drawings and technical specifications, manages large-scale commercial and residential distribution projects, and collaborates with electrical contractors and consultants to make design modifications. Amjad's more than 12 years of experience as a project sales engineer, and transparent approach helps him develop the most accurate and complete distribution solutions while anticipating and avoiding potential project pitfalls.

Brent Ashton
Distribution
Specialist

Brent has over 20 years of experience in the electrical manufacturing and distribution industry. He's built his career through a range of roles, excelling in sales, operations and product training. Brent's focus has always been on delivering value, whether through direct customer engagement, guiding teams or sharing his product expertise. His well-rounded background makes him a valuable resource to our team.
