

Gescan is Western Canada's largest privately owned electrical distributor providing business owners and contractors with industry-leading products, services and solutions for more than 65 years.

We pride ourselves on our superior customer service offering local expertise, inventory on-hand across our extensive branch network, and a seamless shopping experience — over the counter, by phone or online.

As a proud member of Sonepar, the world's largest business-to-business electrical distributor, we leverage our multi-channel distribution network and powerful logistics to optimize our supply chain and deliver the industry's most innovative solutions.

## Smart solutions for today's connected world

Gescan partners with top manufacturers who are at the forefront of rapidly developing technology. We provide leading-edge products and systems required for high performance residential, commercial and industrial markets.

## Markets we serve

From smart homes to data centres, our specialists are ready to assist you in designing, supplying and building high-performance, future-proof networks.

**JOHN SPECK**  
ICT Manager

A Registered Communications Distribution Designer and Certified Data Centre Design Consultant with 18 years' experience, John leads our team of Information Communications Technology specialists. Before joining Gescan, John began his career selling and specifying electronic enclosures and cooling systems before moving on to technical sales in various regional and national roles focused on enterprise networks and data centers. John has been the prime consultant for multiple data center projects across Western Canada, including the design and construction of a high-efficiency, high-density data centre in British Columbia that hosts the most powerful Super-Computer in Canada. The project was awarded the Vancouver VRCA Silver Award for construction excellence in 2017.

**SATI SIDHU**  
ICT Specialist, BC

Sati brings seven years of experience to our Information Communications Technology division and supports our branches in providing end-to-end data communication, CCTV, audio video, access control and security solutions for all our customers' low voltage needs. Sati began his career as a Low-Voltage Technician in 2015, receiving hands-on experience in network installation, Lutron Radio Ra2, solar panel and CCTV installations and set up. Sati transitioned into an Inside Sales position at a global distributor of security products and now offers start-to-finish project expertise, including specifications, quoting the right materials for installs and fast delivery of inventory.

**CASEY KONIUICK**  
ICT Specialist

Casey is instrumental in ensuring our branches are abundantly stocked with a diverse mix of products from the industry's leading suppliers of information communications technology. Harnessing 30+ years of industry experience, with specialized knowledge in fiber optics, Casey is your go-to when it comes to ensuring the most complete, efficient and cost-effective solution for your project.
