

Gescan is Western Canada's largest privately owned electrical distributor providing business owners and contractors with industry-leading products, services and solutions for more than 65 years.

We pride ourselves on our superior customer service offering local expertise, inventory on-hand across our extensive branch network, and a seamless shopping experience – over the counter, by phone or online.

As a proud member of Sonepar, the world's largest business-to-business electrical distributor, we leverage our multi-channel distribution network and powerful logistics to optimize our supply chain and deliver the industry's most innovative solutions.

Smart solutions for today's connected world

Gescan partners with top manufacturers who are at the forefront of rapidly developing technology. We provide leading-edge products and systems required for high performance residential, commercial and industrial markets.

Markets we serve

From smart homes to data centres, our specialists are ready to assist you in designing, supplying and building high-performance, sustainable networks.

Troy Bowen
DataCom
Manager

Troy Bowen brings over three decades of expertise in communications and infrastructure design to Gescan. His journey has spanned roles from contractor to client-side work and extensive engineering consulting. Notably, as the lead IT designer for major projects in Calgary, including the recycling plant, international airport terminal and Calgary Cancer Centre, Troy has made a lasting impact. With a proven track record in large commercial and residential projects across Canada, he now oversees Gescan's DataCom division, specializing in communication, design, and infrastructure. Troy's passion for technology and commitment to mentorship position him as a driving force in advancing our capabilities and establishing a strong presence in the dynamic field of communications.

Sati Sidhu
DataCom
Specialist

Sati brings a decade of experience to our DataCom division and supports our branches in providing end-to-end data communication, CCTV, audio video, UPS systems and security solutions for all our customers' low voltage needs. Sati began his career as a Low-Voltage Technician, receiving hands-on experience in network installation, Lutron Radio Ra2, solar panel and CCTV installations and set up. Sati transitioned into an Inside Sales position at a global distributor of security products and now offers start-to-finish project expertise, including specifications, quoting the right materials for installs and fast delivery of inventory.

Casey Koniuck
DataCom
Specialist

Casey is our specialist for Saskatchewan and Manitoba, offering day-to-day and project support on all things communications. Harnessing 30+ years of datacom experience, with specialized knowledge in fibre optics, structured cabling and UPS systems. Casey is your go-to when it comes to ensuring the most complete, efficient and cost-effective solution for your project.
