Renewables

One Distribution Partner.
One Coordinated Rooftop Solution.

Gescan Renewables brings together the products, expertise and manufacturer partnerships contractors need for complete rooftop solar solutions from mounting and roof penetration to electrical connectivity and project support.

One source. One PO. One point of contact.

Everything you need for a complete rooftop solution

MOUNTING & RACKING

- Roof-mounted systems
- Engineered racking solutions
- Residential installation applications

ROOF PENETRATION & JUNCTION BOXES

- Code-compliant roof penetrations
- PV junction boxes
- Weather-resistant designs

MODULES & INVERTERS

- High-performance solar modules
- Inverter solutions
- Residential solar solutions
- Trusted manufacturers

PROJECT SUPPORT

- Product selection assistance
- BOM development
- Quotation support
- Project consultation

Trusted rooftop solution partners

Kinetic
SOLAR RACKING AND MOUNTING

Canadian-Engineered Mounting Solutions

- Canadian-engineered systems
- Fast, efficient installation
- Durable, weather-resistant construction
- Roof mounting and structural solutions

Roof Tech®

PV Junction Boes & Roof Penetration Solutions

- Watertight flashed design
- UL1741-certified and NEMA Type 3R rated
- Enhance roof protection
- Faster, cleaner installations
- Long-term system reliability

SOLADECK

Leak-Proof Solar Mounting Systems

- Integrated waterproof technology
- Faster, simpler installations
- Reduced components on-site
- Reliable, code-compliant performance

Why Gescan Renewables

- **Trusted Distributor**
- **Renewable Energy Expertise**
- **Technical Project Assistance**
- **Inventory & Sourcing Support**
- **Leading Manufacturer Partnerships**

Bring us the project early

The Gescan Renewables team can help identify the right products, develop a bill of materials, coordinate manufacturer resources, and support your project from quote to completion.
