

Gescan is Western Canada's largest privately owned electrical distributor providing business owners and contractors with industry-leading products, services and solutions for more than 65 years.

We pride ourselves on our superior customer service offering local expertise, inventory on-hand across our extensive branch network, and a seamless shopping experience – over the counter, by phone or online.

As a proud member of Sonepar, the world's largest business-to-business electrical distributor, we leverage our multi-channel distribution network and powerful logistics to optimize our supply chain and deliver the industry's most innovative solutions.

Services, solutions and the largest selection of SKUs

Offering an industry-leading portfolio of residential, commercial and industrial lighting products and controls, we help electrical professionals across industries with the supply, design and implementation of smart, cost-effective lighting systems. With a large selection of available SKUs and dedicated experts always on hand, you can rely on us to ensure your project gets to market on time and within budget.

Specializing in lighting systems

With expertise in light level documentation and energy consumption estimates, our specialists work closely with you to supply, design and implement cost-effective and innovative lighting solutions. With access to a wide selection of in-stock inventory, we bring more choice, higher quality and competitive prices to every project.

Product categories

LIGHTING

Selectable. Scalable. Always in stock.

Offering Wi-Fi enabled, CCT selectable, lumen selectable and voltage sensing LED fixtures in a variety of key categories, our multi-selectable products allow you to replace dozens of SKUs using a single product. From thin recessed, dimmable strips, vapour tight and designer troffers to wall packs, high-bays, panels and more, we have over 20,000 lighting fixtures available in stock.

CONTROLS

Smart lighting is smart for business.

From simple home to complex commercial solutions, we offer smart, wire or wireless and touch-free lighting control products that can be used by themselves or as part of a larger system. From plug-ins to switches and sensors, our premier partners provide cutting-edge technology to ensure you get the accuracy and reliability you need for your next job.

Commercial LED Driver Replacement Program

Easily replace drivers on fixtures coming up on warranty.

At Gescan, we will program the driver for you to meet the original LED fixture specifications. The replacement driver will maintain the same light output as the previous version and is a cost-effective alternative to replacing the entire fixture. We offer drivers for downlight, linear troffer and outdoor/industrial fixtures.
