

# CABLE MANAGEMENT SOLUTIONS

**PULL AHEAD WITH CONFIDENCE**

**Simplify Your Cable Pulls**

Reduce labour costs, improve on-site health and safety and simplify jobsite cable management by utilizing Electrozad's tailored solutions. Regardless of your project size, Electrozad's team of experts are here to support you every step of the way.

# PREFAB TWISTED CABLE

FASTER WIRE PULLS - "ONE AND IT'S DONE!"

SonePLEX is an assembly of 3 or 4 single conductors twisted together to create a uniform construction. This solution allows contractors to pull like a single cable without the potential jamming that occurs with traditional parallel pulls. SonePLEX features no-lube Insulation (#6 AWG and larger) and is available with numbered, striped or coloured conductors for quick and easy phase identification. Request to have pulling heads installed for even better efficiency!

## Labour Savings & Ease of Installation

Streamlined setup with pre-installed pulling heads, eliminating the need for additional tooling.

## Reduced Site Management

Fewer reels mean less storage, waste and setup time.

## Minimized Waste & Cleanup

Efficient design reduces excess material and simplifies cleanup.

Ask for **Pulling Heads**  
for Even **FASTER PULLS.**

## INSTALLATION:

Available with **PRE-INSTALLED PULLING HEADS**

### CONDUIT

Eliminates jamming for easier pulls  
into the raceway.

### CABLE TRAY

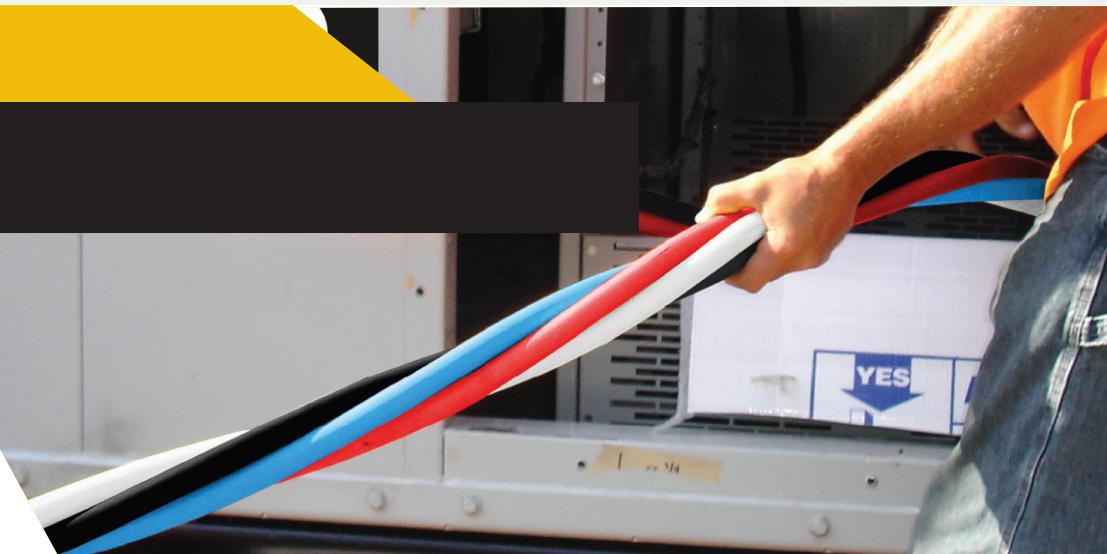

Simple, orderly installation into cable  
tray with fewer tie-downs required.

### DIRECT BURIAL

SonePLEX is available in direct burial  
rated RWU90.

## TESTIMONIALS

"We had other contractors on site that stopped what they were doing to watch our install with envy."

"...pulling 1700 feet of 250MCM with 4 x45 degree bends has never been easier."

"Using SonePLEX combined with their SPIN REEL allowed us to deploy 2 electricians elsewhere on site"

## APPLICATIONS

Heavy Commercial  
Data Centers  
Roadway  
Universities  
Wastewater Treatment

Industrial  
Automotive  
Food & Beverage  
Pulp & Paper  
Refineries

Utility  
Direct Burial  
Overhead Distribution  
Secondary Distribution

# TOOLS & EQUIPMENT

## FASTER, SAFER, SMARTER.

Cable Pulling Equipment that sets the industry standard. Revolutionized tools that are faster, safer and smarter than ever before.

# MAXIS® 6K CABLE PULLER

SETS UP IN LESS THAN 2 MINUTES TO QUICKLY ADAPT  
FROM UNDERGROUND TO OVERHEAD PULLS.

**FAST SETUP AND OPERATION**

**HIGH SPEED**

**LIGHTWEIGHT**

**HIGH CAPACITY 6,000 LBS.  
PULLING FORCE**

## FEATURES & BENEFITS

- One person, 2-minute setup and operate
- 2 Pulling speeds: 12 fpm on low (at no load) and 44 fpm on high (at no load)
- Quickly adapts from underground to overhead pulls
- No need to bolt to the ground on most pulls
- 6,000 lbs. peak pulling force
- Versatile, can adapt to virtually any wire pull
- Can be anchored to most trucks' standard 2" receiver hitch
- Able to pull up to 9 ft. of wire out of the conduit
- Includes 5 conduit adapters 2" through 4", 5" and 6" sold separately
- Includes Puller Cart with tool bag (total weight 35 lbs.)

MODEL #	STOCK #	DESCRIPTION	LENGTH	WIDTH	DEPTH	WEIGHT
M6K-M	57648501	MAXIS® 6K (with motor) - includes conduit adaptors 2" - 4" and PC100	45"	21"	20"	194.5 lbs

# MAXISJAX® REEL STANDS

QUICKLY SET UP AND LIFT REELS OF WIRE SAFELY AND EFFICIENTLY WITHOUT THE HASSLE OF CONVENTIONAL REEL STANDS.

- Easy to store and transport
- Breaks down into a compact storeable tool
- Jaw clamps onto axle so that wire reels won't come off or fall over
- Multiple steel rollers make it easy for one person to roll off heavy wire
- Max lever allows one person to lift wire reels off the ground with minimal effort
- Each pair lifts wire reels up to 3,000 lbs.
- Uses either a 1-1/2" to 2" rigid pipe for an axle. Works on reels up to 48" tall

**HIGHLY  
COMPACT  
DESIGN**

**STEEL  
ROLLER**

**LIFTS WIRE  
REELS  
OFF THE  
GROUND**

MODEL #	STOCK #	DESCRIPTION	LENGTH	WIDTH	DEPTH	WEIGHT
MJ707	56824501	Maxisjax® - 3,000 lbs. Reel Stands (pair)	37"	7"	9.5"	54 lbs.

# ROLLING A FRAME PORTABLE REEL BUCK

The Portable Reel Buck is your go-to for swiftly setting up reels up to 54 inches in diameter. Designed for ease of use, it maneuvers effortlessly across job sites using integrated handles and a spool that doubles as a wheel. Built from durable steel tubing, it boasts a 1,000 lb. weight capacity, ensuring reliability in rugged conditions. Collapsible for quick loading and adjustable to fit various reel sizes, it's the versatile choice for efficient operations.

PATENT PENDING

- LOAD CAPACITY: 1,000 LBS.
- ACCOMMODATES REELS UP TO 54" DIAMETER
- HEAVY-DUTY STEEL FRAME
- EASY SETUP AND BREAKDOWN FOR TRANSPORTATION

-  **REDUCED SET-UP TIME**
-  **PULL FROM A SINGLE REEL**
-  **SAVE TIME & MATERIAL COSTS**

# MULTI CHAMBER REELS

## PRODUCT HIGHLIGHTS

- Multiple chambers for loading cable legs.
- Simplified process with a single reel and returnable feature.
- Efficient cable pulls and setup with fewer jackstands.

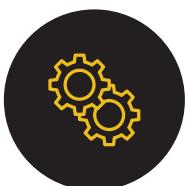

**34" (4 COMPARTMENTS)**  
**48" (4 COMPARTMENTS)**

## ADVANTAGES

### REDUCED SET-UP TIME

Separate chambers allow for easy pulls and swift setup.

### PULL FROM A SINGLE REEL

No more searching for multiple reels or matching tags.

### SAVE TIME & MATERIAL COSTS

Only one jackstand required; fewer reels on site.

# SPIN REELS

## ADVANTAGES

### ELIMINATES NEED FOR A-FRAMES

Just "Chock and Pull".

### EASIER MANEUVERING ON-SITE

Enhances mobility and efficiency.

### SAFETY

No lifting reels on an A-Frame.

### REDUCED STORAGE REQUIREMENTS

Saves valuable space when used in conjunction with our SonePLEX or paralleled cables.

### VERSATILE APPLICATION

Suitable for more than just building wire.

# RELY ON OUR PRODUCT SPECIALISTS

## EXPERT TECHNICAL SUPPORT

Call us to discuss your specific application, product requirements or job site limitation concerns. Our team of wire and cable experts will assist you with identifying the best product to suit your application and environment, while at the same time introduce you to Electrozad's handling and/or tooling solutions making your installation faster, easier and safer.

## MAJOR PROJECTS SOLUTIONS

At Electrozad, our Major Projects Group works hand-in-hand with your team to ensure flawless execution. We know that timely deliveries and precise packaging are vital to your success. That's why we offer tailored handling and tooling solutions to help you navigate any jobsite challenges. Our mission is simple: to make your project faster, easier and safer.

### EARLY INVOLVEMENT

We will work with you early into your bid to help guide you with the best products and services to suit your application needs and jobsite limitations.

### EFFICIENT PROJECT MANAGEMENT

At project commencement we will manage and monitor all timelines to ensure an effective deployment that gets material on site when you need and how you need it. We understand "too early" can be just as detrimental as "too late."

### TECHNICAL DATA OR TEST REPORTS

Our team of product specialists will work with our manufacturing partners to collect any test reports, specifications and or engineering support that you require as your project progresses.

### ENHANCE YOUR JOBSITE EFFICIENCY

By utilizing our in-house services such as: preinstalled pulling heads or easy to maneuver SPIN reels.

### WIDE BREADTH OF PRODUCT

Benefit from the vast product offering we carry in stock backed by Best In Class Vendors. Allowing us the opportunity to be your single source vendor for all your electrical needs.
