FlexiSMART

FlexiSMART is an optional offered at the time of purchase of the ticket at www.jetsmart.com, in the optional section, and allows the customer to change their itinerary (change of date, time, and / or route), for one only once, without paying the penalty or fine for applicable change in accordance with the title "Changes" of these Particular Regulations, but paying the corresponding rate difference, if it exists.

The optional FlexiSMART applies to the entire reservation and to all passengers under it. The value of the optional FlexiSMART will be informed during the purchase process, detailing the final price and conditions before making your purchase.

The value paid by the optional FlexiSMART does not support return or refund, except in cases where JetSMART is obliged to return the ticket, in which case it will also reimburse what was paid by the optional FlexiSMART. The non-use of the right to change the itinerary provided by the FlexiSMART option will not grant any right to return or refund any of the price paid for said option.

The optional FlexiSMART does not allow changes other than those indicated above (change of date, time, and / or route), and only once. Any additional change or other type of change will be governed by the provisions under the heading "Changes" of these Particular Regulations.

The exercise of the right to change granted by the optional FlexiSMART will be subject to flight and seat availability on the new itinerary chosen.

The changes are per passenger and per section and can be made up to one hour before the departure time of the flight through the Contact Center. Changes at the airport will not be allowed, nor changes after the flight. The other conditions applicable to the changes are detailed in the title "Changes" of these Particular Regulations.

Set your price

Set your Price is an option that JetSMART may offer to the customer during the purchase process of their tickets at www.jetsmart.com after they have selected their flights and chosen the optional services pack, and that allows the customer to freeze the final price of their reservation and keep it available for a period of 24 or 48 hours, as the client prefers, paying the value corresponding to the selected option.

Set your Price, therefore, allows the customer to make the purchase of their reservation within the selected hold period while maintaining the final price and availability of the same, thus avoiding the risk of a price increase and ensuring availability on selected flights, within that hold period.

The selection of the optional service Set your Price will apply to all passengers and legs of the reservation.

The value of the optional service Set your Price is for each passenger and for each leg of the reservation, which will be informed during the purchase process, giving details of the final price and conditions of the same before making the purchase of the optional service.

The value of the optional service Set your Price is not refundable or reusable for another booking, nor will it be discounted from the booking price at the time of purchase and full payment.

Setting the Price allows you to keep only the price of your reservation which is on hold. The values of the optional services that were available on the date of the reservation but were not selected and included in the reservation will not be considered on hold. For further clarification of the above, if the customer has selected the Light Flying Pack (whose price is included in the value of the ticket), the price of any optional services available on that date on www.jetsmart.com will not be understood to be on hold, just the final price of the Light Flying Pack reservation. In the event that the customer has selected a SMART Pack or a FULL Pack, and contracted the option Set your Price, the final price of the complete Pack will be put on hold, including the respective optional services included in each of them, but the price of any other additional option not included in the corresponding Packs, which was available at www.jetsmart.com, will not be put on hold.

The Set Your Price option is not offered on all JetSMART flights, and the company reserves the right to offer or not offer this option during the purchase process of its flights at www.jetsmart.com. Set your Price is not available through the contact center, only for purchases at www.jetsmart.com.

Set your Price will only be available on flights determined by JetSMART, and provided that the quote is made at least seven (7) calendar days prior to the first flight of the reservation. For the purchase of the Set your Price option, the customer will only enter their data and will not have to enter the list of all the passengers in the reservation, this will only have to be done at the time of purchasing their tickets and when paying the total amount of the reservation.

The customer who has purchased the Set your Price option, must purchase their tickets and pay the full amount of the reservation within the selected hold period, i.e. within 24 hours or 48 hours from the time of the purchase of the option, as the case may be. The purchase and payment of the reservation whose price has been put on hold must be made in the

section "Manage your trip" at www.jetsmart.com within the corresponding hold period, by entering your name and surname or e-mail, and reservation code.

In the event that the customer does not pay the total price of the reservation within the selected hold period, this option will expire, and the right to hold or freeze the price and availability of the reservation will expire without any right to return or refund the amount paid for the option "Set your Price" to the customer. The customer may not extend or prolong the period during which the price and/or availability of the flights are put on hold, and therefore, once the validity of the option has expired without the purchase and full payment of the reservation, the customer will have to quote their flights again, subject to the values and availability informed on www.jetsmart.com on the date of the new quote.

We will send a reminder to the customer before the expiration of the selected price hold period, so that the purchase and payment of their reservation can be planned and made before the expiration date. The reminder will be informative and will be sent by email to the email address provided by the customer at the time of purchase of the optional service, being the customer responsible for any error that the email address entered at the time of registration may contain. Notwithstanding the foregoing, it will be the client's responsibility to make the purchase and payment of their reservation before the expiration of the reported period, regardless of the reminder that JetSMART may send as part of its service commitment. Consequently, in the event that for any reason the client does not receive a reminder from JetSMART, this will not generate a claim or liability for the company.

The optional Set Your Price does not ensure that the flights quoted on www.jetsmart.com cannot be lowered in value even during the hold period, and JetSMART reserves the right to carry out any commercial action or promotion in relation to such flights, in accordance with the law. Should an event occur in which the frozen price is higher than the price published during the hold period, the customer may choose not to use the frozen price with the option and make a new quote and purchase their tickets at the then available price on www.jetsmart.com subject to availability on the flights, the foregoing without any right of return or refund to the customer of the price paid for the unused Set your Price option.

The option Set your Price does not admit refunds or changes of any kind, this even if the optional FlexiSMART has been included in the quotation, which will only apply to the reservation once it has been purchased and paid in full.

The right granted by the option Set your Price is personal and non-transferable, to the customer who made the purchase of the optional and who must be included in the reservation, and upon completion of payment of the reservation within the hold period, the customer must remain included in the reservation and may not change the total number of passengers, or flights, destinations and / or selected sections, according to the quote for which the option Set your Price was contracted. Once the reservation has been purchased and paid in full, before the expiration of the hold period, the tickets and optional services purchased will be governed by the general conditions and particular regulations, without

any right or benefit for the passenger resulting from the option "Set your Price" used in its purchase.
