THE COUNTRY

BlueOrange Studio/Shutterstock.com

Scattered across 2 million square kilometres of the South Pacific, the Cook Islands may have a modest landmass of just 241 square kilometres, but they make up with exceptional brilliance.

Named after the famous explorer Captain Cook, these islands are a hidden gem, offering everything from sandy beaches fringed with coconut palms to lush, mountainous interiors teeming with exotic tropical birds. Yet, it's not only the breathtaking landscapes that entice visitors; the world-class game fishing, diving, and snorkelling draw enthusiasts from around the globe. Be warned, though—many who come for a visit end up staying for a lifetime.

BARS & NIGHTLIFE

A highlight of the Cook Islands is sipping cocktails at a bar fronting the west as the sun slowly slips below the horizon—there is truly no better way to say farewell to a very special day in paradise.

The later nightlife of the Cook Islands is steadily growing with Friday night remaining the main night out for both tourists and locals alike. Most bars on Rarotonga remain open till 2am. Do not expect the same late night on Saturday as the Cook Islanders are a Christian community and usually close all drinking establishments at the stroke of midnight. Furthermore, many of the resorts have their own bars and restaurants at which non-guests are welcome.

These nights can end up pretty wild with plenty of dancing, singing, and the making of new friends.

Island Nights

Island Nights, which are often included in the weekly entertainment at many resorts, are not to be missed for their mix of plentiful tantalising local fare. A feast of seafood, meats, and vegetables is followed by traditional entertainment where locals adorned in colourful costumes proudly display their authentic Cook Island culture through drumming, singing and dancing. The evening entertainment is usually completed with a Ura Piani (invitation dance), where visitors are given the chance to match the hip-shaking of the locals.

SHOPPING

ChameleonsEye/Shutterstock.com

One of the best things about shopping in the Cook Islands is the variety of traditional arts and crafts. Passed down over generations, these are much sought over. Basketwork, Rito hats, shell jewellery, carvings and musical instruments head the list. Unfortunately, as with most other countries across the globe, cheap imports do filtrate, so be mindful.

Ara Tapu Road

Along the coastal Ara Tapu Road on Rarotonga, you'll discover a range of specialty shops offering jewellery, including the renowned black pearls, as well as handicrafts and local clothing. The Cook Islands' colourful stamps are highly prized by collectors and philatelists, with the best place to purchase them being the Philatelic Bureau, conveniently located next to the Post Office in Avarua. For diving and snorkelling gear, visit Mana Court in downtown Avarua, where you'll

find a selection of equipment for your underwater adventures.

Smaller Islands

Aside from Rarotonga, other islands in the Cook Islands generally offer only basic supplies.

However, each island features its own unique

crafts and arts, making for an exciting and varied shopping experience. Do keep in mind that most shops are closed on Sundays.

A top tip: Visit Mike Tavioni's sculpture gallery in Atupa, where you might see this talented artist at work. His impressive sculptures are also featured at the Punanga Nui Marketplace and the National Cultural Centre.

Best Time to Visit

The best time to visit the Cook Islands is during the dry season, which runs from May to October.

This period offers pleasantly warm

temperatures, low humidity, and minimal rainfall, making it perfect for enjoying outdoor adventures and beachside relaxation. For those interested in local culture, plan your visit for November when the Cook Islands' annual Vaka Eiva Festival, a vibrant celebration of canoe racing and Polynesian culture, takes place.

Rarotonga International Airport (RAR)

Rarotonga International Airport, situated on the island of Rarotonga, serves as the gateway to this tropical paradise.

Located approximately 7 kilometres from Avarua, the island's main town, the drive to the city takes roughly 10 to 15 minutes. The airport is well-integrated into the island's transport network, with a range of

options for travellers including shuttle buses, taxis, and rental cars.

Taxi

The Cook Islands Taxi Association (CITA) comprises private taxi companies collaborating to improve service quality and provide reliable

24-hour transportation, 7 days a week. Taxis are commonly hailed by the roadside rather than pre-booked, and fares are negotiated in advance as metered taxis are not used.

Keep in mind that ride-sharing apps are not available on the islands. So, relying on local taxis or renting a scooter might be your best bet for getting around.

Public Transport

The round-the-island bus service in Rarotonga is a popular and convenient option for getting around the island. Operating along the coast road in

both directions, the service starts in Avarua but allows passengers to flag down the bus at various points along the route. Managed by Cook's Island Bus Passenger Transport Limited, the service is known for its affordability and flexibility, picking up and dropping off passengers upon request.

medications are typically available, but for less frequently prescribed ones, you may need to order them. This process involves waiting for them to be shipped to the island, which can be subject to delays depending on the air services and shipping schedules.

To avoid any inconvenience, it's a good idea to bring any essential medications you may need with you. If you have specific health needs or require certain medications, plan ahead and arrange for them well before your trip.
