St John's is known for its beautiful beaches, clear turquoise waters and tropical climate. The city is located near some of the most popular beaches on the island, including Dickenson Bay and Half Moon Bay. It is also home to a number of historical landmarks which represent the country's history and heritage. It comes as no surprise that St John's is one of the most popular tourist destinations in the Caribbean Sea given its combination of beautiful nature, history and vibrant nightlife.

THE CITY

Ron Kroetz/cc by-nd 2.0/flickr (image cropped)

St John's is the capital and largest city of Antigua and Barbuda. It is a port city located on the island of Antigua, and it's home to a third of the country's population as well as the seat of government. The islands were first colonized by Britain in 1632 and St John's still retains its look from more than three centuries of British rule. Nevertheless, tradition, climate and available materials in the area make the city's architecture unique.

Some of the best things about St John's include beaches with crystal-blue waters, lush vegetation, as well as the island's history and culture. The destination is popular amongst outdoor enthusiasts for its variety of activities such as snorkelling, diving, fishing and hiking. The city also hosts many festivals and events throughout the year, including the summer carnival, food and wine festivals, and the Antigua Sailing Week.

BEACHES

Andrew Coelho/unsplash

Antigua has a large number of tropical beaches, featuring a variety of different coloured sands, crystal clear waters and perfect weather. In fact, such is the abundance of beaches on the island that locals claim you could potentially visit a new one every day of the year. Overall, the island offers options for every beachgoer out there.

Dickenson Bay

Dickenson Bay on the northwestern coast of Antigua features one of the most developed beaches on the island with various hotels and restaurants. Its waters are shallow and peaceful, ideal for families with children.

One minor downside of Dickenson Bay comes from its level of development. When cruise ships arrive at the bay, the area becomes quite a busy place. This might not be your beach of choice if quiet is what you're looking for, but if you're up for socialising all day long — be sure to stop by.

Photo: Andrew Moore/cc by-sa 2.0/flickr(image cropped)

Fort James Beach

Fort James Beach is a stretch of soft, white sand on the Northwest coast of Antigua. Given its proximity to the capital and St John's cruise

terminal, the beach is popular amongst locals and tourists alike. People often gather there to play volleyball and cricket, but if beach sports aren't your cup of tea, there are also places nestled at both ends to sit back in the shade and enjoy a nice drink or a meal.

Even though Fort James Beach is a popular spot, this lengthy beach offers plenty of space for all its visitors as well as easy access to parking.

Photo: Roberto Faccenda/cc by-sa 3.0/wikimedia(image cropped)

Hawksbill Bay

Located on the west of an island, Hawksbill Bay hugs a peninsula that offers multiple beaches and a peaceful atmosphere. Out of the

four beaches, three are only accessible to resort guests and have a security entrance, while the fourth one, Eden Beach, is a quiet, clothing-optional beach with soft orange sand.

The beaches here offer breathtaking views of the Hawksbill Rock cliffs and are an excellent spot for snorkelling. Dive in and explore the diversity of the bay's sea life.

Photo: Balthazar Lelievre/unsplash

Seaforth Beach

Seaforth Beach is a secluded destination located on the Northwestern coast of Antigua. The beach is about a mile-long stretch

of fine-grained white sand and shimmering waters, situated on the edge of the village of Jennings, which is about 30 minutes away from St Johns. The beach is open to the public, however, it can be difficult to access given its remote location and the bumpy, rocky road to reach it. Save yourself some trouble and take a guided tour to get there.

Photo: Bernard Dupont/cc by-sa 2.0/flickr(image cropped)

Half Moon Bay

Named after its crescent shape, Half Moon Bay is a long stretch of pink and white sand located on the southeastern coast of the island, about 40 minutes

from the capital. Its azure waters and a living coral reef just offshore are perfect for swimming and snorkelling. In the middle, towards the south of the beach, the surf becomes a little choppy, which is great for wakeboarding and bodysurfing. Even though the beach is very popular with tourists and locals alike, you won't have a problem finding a quiet spot, even on the busiest days.

DO & SEE

Bogdan Pasca/unsplash

Contrary to what you might believe, St John's is not just a beach holiday destination. It is definitely a place to lie on the beach and watch the world go by, but that is far from being it.

St John's also offers a variety of options for culture vultures, hungry for museums and historical sites to get a good grasp of the city's culture and history. Moreover, the city caters for all those thrill seekers looking to have an adventurous holiday by engaging in water sports, hikes and other outdoor activities.

Last but not least, you can also enjoy its stunning cuisine and the excellent shopping options.

Museum of Antigua & Barbuda

The Antigua Museum is the best way to get to know more about the history of the island. Not only can you enjoy the exhibits on Antigua's historical and archaeological sites, but also also get a sense of what island life was like for its inhabitants back in the day.

Furthermore, learn how European influence hit the island and how the colonial past shaped the present times of this nation in the Caribbean.

Whether you're alone or with family, this journey through local history is worthwhile.

Betty's Hope

Established in 1650, Betty's Hope was the first sugar plantations on the island of Antigua. It is one of the most significant places to visit and to learn about the history of slavery in Antigua. During colonial times, many people of African descent worked on the large plantation under the control of European settlers. Despite its dark past, the plantation is still known for its high-quality products.

BARS & NIGHTLIFE

Ralph Kayden/unsplash

As a tourist destination, St John's is a great place for nightlife with a lot of hotspots for social meetups. Most of the fun takes place in the beach bars and nightclubs around the island. The busiest days in these venues tend to be Thursday, Friday and Saturday, although you can find other party options the rest of the week as well.

King's Casino

There are only two options when it comes to casinos in St John's, and King's casino is one of them. It is a small venue where you will feel right at home to either take part in their karaoke nights, try your luck at the tables, spin on the world's largest slot machine, or just have a drink.

Play along locals and other visitors a selection of table games such as Roulette, Blackjack and Poker, as well as regional favourites such as Spanish 21, Caribbean Stud and Blackjack Switch.

Public Transport

St John's has a transport system of privately owned buses that run from 5:30 am to 6 pm daily. All buses start from either the East Bus Station, near

the Antigua Recreation Grounds or the West Bus Station by Market Place. You can get around most of the island on these buses. However, there are some areas where the bus service is inconsistent.

If you wish to go from Antigua to Barbuda, the

other island in the country, the best way to do so is taking a high-speed ferry that takes about 90 minutes one way. Currently there are two ferry companies: The Barbuda Express and The Island Escape.
