Dear USGA,

I am old(ish) approaching 70. I have what is known as an "essential tremor". I have a serious twitch that is getting worse.

You have taken away my long putter and now you want to take away the 47.5 driver that allows me to hit a 200 yard drive.

Really.. people like me are the ones who are hurt by your regulations , not the pros!

Sincerely,

Bill

To whom it may concern,
I am in agreement with these reasonable proposals. As a 67 year old golfer and with 54 years of golf experience under my belt, I will gladly shorten my driver shaft from its current 48 inches to 46 inches and play by these proposed rules. And, as a retired golf course superintendent, I applaud your efforts as distance reduction/limitation is crucial to golf's long-term sustainability.

Respectfully yours,
William A. Johnson CGCS Retired
