

## Quality standards for the golf course beyond the greens

Start date: 1 January 2020

Project duration: 18 months

The objectives of this project are to:

- Develop a coherent and consistent set of real-world standards for areas of the golf course beyond the green, including teeing areas, fairways and green aprons, bunkers, first cut of rough.
- Validate the standards for golf course provision with golf industry personal from a cross section of golf clubs.
- Produce guidelines on how clubs can be maintained in the context of challenges including climate change, resource constraints (such as water shortages) and regulation.

This project will be delivered by University Centre Myerscough.
