# About

En

Kontrast Grotesk Display & Grande are true display companions for Kontrast Grotesk, reinterpreting the features of Kontrast Grotesk into display sizes. There are many differences making the typeface works better in big sizes. These includes changes like – equal height of the uppercase and ascenders, tighter character spacing, no inktraps and narrower diacritic signs. Proportions are little different as well. Family have been extended from 5 to 12 weights (from super slim Hairline to Ultra Black).

Sk

Kontrast Grotesk Display a Grande sú titulkové písma k rodine Kontrast Grotesk (textové písmo). Interpretuje vizuál Kontrast Grotesku s množstvom nuansí pre lepšiu použiteľnosť písma pre veľké nadpisy. Je tu hneď niekoľko zmien, ktoré fungujú lepšie vo väčších veľkostiach. Sú to napríklad rovnaká výška Verzállok a horných doťažníc, užšie medzery medzi písmenami, odstránenie "inktraps" a užšia diakritika prispôbena pre titulkové písmo. Proporcie sú takisto jemne zmenené. Rodina písma sa zväčšila z pôvodných 5 na 12 rezov (od super tenkého Hairline po veľmi tmavý Ultra Black).
