TRIUMPH

TRIUMPH PRODUCT SPECIFICATIONS

GUEST FRAME CONSTRUCTION

- All joints are double doweled and securely glued for maximum joint stability
- Features a metal seat frame for added strength
- Non-marring nylon glides

SEAT CONSTRUCTION

- Blow molded polyethylene seat or solid molded plywood panels that are covered with high grade polyurethane foam

BACK CONSTRUCTION

- Solid molded plywood panels are covered with 1½" of high grade polyurethane foam

ARMS

- Arms are made of kiln dried exterior northern hard maple and are attached to the seat with bolts and to the back with a fastener
- Arms on the 89X-EWECC and 89X-MWECC have a protective polyurethane arm cap

ARMS (UPHOLSTERED)

- Arms are made of fiberboard covered with high density polyurethane foam

CONTROL MECHANISM/LIFT

- The standard knee tilt mechanism features a heavy-duty adjustable tension spring for a variety of body sizes and minimal rise of front seat edge; this allows user's feet to remain on the floor when chair is in reclining position
- The combination gas lift/tilt lock lever allows dual function with simple in/out movement for lockout and up/down movement for height adjustment

BASE AND CASTERS

- Nylon base features standard black 5-prong fiberglass reinforced nylon to ensure long life
- Wood base features a standard 5-prong, rigid steel understructure to ensure a long life
- Caster posts fit directly into steel sleeves, greatly reducing caster socket failure
- Decorative hardwood caps complement the chair design
- Black, hard double wheel casters, which work on multiple surfaces, are standard
- Black, soft double wheel casters are available for use on hard floors; upcharge applies to this option

FINISH

- Wood models feature a catalyzed top coat which resists denting, peeling and reactions to chemicals
- Can be cleaned with a damp cloth
- When specifying Brighton, Natural, and Sonoma finish, variation in color is acceptable due to the nature of wood characteristics

WOOD SPECIES

- Hard maple

SURFACE MATERIALS

See the Kimball Hospitality Surface Materials Reference Guide at kimballhospitality.com for a complete overview of our materials program, including:

- Characteristics of wood
- Special wood finishes
- Customer specified laminate (CSL)
- Customer specified paint (CSP)
- Fabric application and colorways
- Customer's own material (COM) process overview
- Alliance program

ALLIANCE FABRIC PROGRAM

Kimball Hospitality has analyzed each model to most accurately reflect the COM/COL yardage requirements shown on page 674.

The yardage requirement for each model is based on 54" wide fabric and cutting the fabric up the roll.

If repeat is larger than 18", contact Customer Service to confirm the correct amount of yardage required. When ordering 10 or more chairs in the same COM, yardage requirements may be reduced.

Contact Customer Service.

PRICE GRADES A-R

See Surface Materials at www.kimballhospitality.com for a wide variety of graded-in fabrics from Arc-Com, Carnegie, CF Stinson, Designtex, Maharam, Mayer, Momentum, and Ultrafabrics.

FABRIC SAMPLES
