Pattern Information

Indicate which direction the fabric is to be applied.

Railroad means the design of the pattern runs vertically from selvage to selvage. When viewing fabric from one of the selvage edges, any figures will appear upright. Stripes run perpendicular to the selvage edges. Railroad fabrics allow tailoring of one-piece backs or seat cushions of sofas without seams.

Up the Roll(Non-Railroad) means the design of the pattern runs horizontally from selvage to selvage. When viewing fabric from the selvage edge, any figures will appear side-ways. Non-Railroad stripes run parallel with the selvage edges. Non-Railroad fabrics require seaming of fabric on one-piece backs and seat cushions greater than 54".

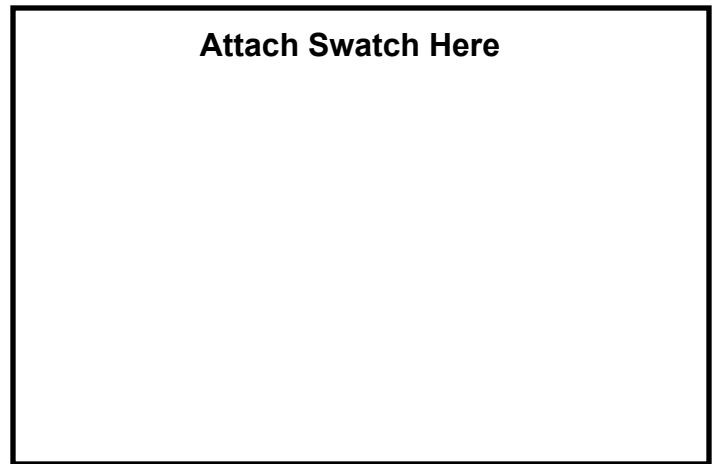

All fabric yardage listed in our price list is based on solid color 54" wide fabrics. Yardage requirements are greatly affected by size of repeat, as well as print or pattern. If a fabric has a repeat, or is less than 54" wide, customers should increase fabric requirements. Use the following chart as a guideline:
