GANGING BRACKETS

- Lounge models have pre-drilled holes in the base to accept the ganging bracket and small mating piece
- Once brackets are installed, units slide together for a secure connection
- To disconnect, lift up and pull outward on the unit with the smaller, mating pieces
- Assembly instructions available at: kimballhospitality.com

IMPORTANT: Applying upholsteries with horizontal or vertical patterns and stripes on corner units and the backs of units that will be used in a ganging application is discouraged

IMPORTANT: Fabrics reflect light differently when viewed at various angles, creating a natural phenomenon called "flip." Flip is visible on all fabrics and is not considered a defect; it is more easily recognized on fabrics with a nap or shimmer and more apparent on crescent or corner units
