

CONEXPLO 22: AspenTech On-Demand Presentations

STAND 23

TOPIC	PRESENTER
New AspenTech: A Corporate Overview	Gerardo González
Upstream Optimization: Calibrating Subsurface Models for Reliable Concept Production Design and Forecasting	Felipe Mota
Geomodeling and Engineering Solutions for Carbon Storage Studies	María González Felipe Mota
AspenTech Petrophysical Solutions — What's New and Roadmap	Héctor Busnego
Formation Evaluation in Unconventional Reservoirs Using AspenTech Geolog: Source Rock Analysis and Offset Modeling	Héctor Busnego
Simplified Geophysical Product Generation Using Advanced 3D Seismic Interpretation: What's New in Paradigm 22	Bruno de Ribet
Integrated Production Management: From Field Design to Daily Production Monitoring	Gabriela Chaves
Integrating Subsurface Data with Facility Digital Twins	Manuel Nieto
