

WOMACK INDUSTRIES, INC.

Rockville 301-881-5181

"Since 1943"

M.D.A. License #78

Maryland Poison Control Center #: 1-800-222-1222

Womack Emergency #: 301-758-7853

Dear Customer:

Maryland Department of Agriculture 15.05.01.16 requires that we provide you with certain information regarding the pesticides we apply. This information includes the common name of the pesticide as well as any safety, precautionary and environmental hazard information taken from the product label.

The following is a list of pesticides that we may apply on your property as well as the label information described above. Each time we apply a pesticide, you will be given the name of that pesticide. Refer to this document for the appropriate safety information. Please be sure to keep this document for future reference. If you have any questions or concerns please contact us.

COMMON NAME: permethrin (Dragnet, Tengard)

Practical Treatment: If swallowed, call a physician or poison control center. Do not induce vomiting because of aspiration hazard. If inhaled, remove to fresh air. If discomfort or breathing difficulty occurs, obtain medical assistance. If on skin, wash with plenty of soap and water.

Precautionary Statement: Harmful if swallowed, inhaled, or absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid breathing spray mist or vapor particles. Wash with soap and water after handling. Remove contaminated clothing. For emergency assistance call 1- (800) 331-3148.

Environmental Hazard: This product is highly toxic to bees exposed to direct treatment or residues on crops or weeds. Do not apply this product or allow it to drift to crops or weeds on which bees are actively foraging. This product is extremely toxic to birds, fish, and wildlife.

COMMON NAME: Imidacloprid (Premise 75)

Practical Treatment: If swallowed, call a physician or poison control center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger, or if available, by administering syrup of ipecac. Administer 1 tablespoon (15 ml) of syrup of ipecac followed by 1 or 2 glasses of water. If vomiting does not occur within 20 minutes, repeat the dose once. Do not induce vomiting or give anything by mouth to an unconscious person. If on skin: Wash thoroughly with soap and water. Get medical attention if irritation occurs. If in eyes: Hold eyelids open and flush with plenty of water.

Precautionary Statement: Hazards to Humans and Domestic animals. Caution: Harmful if swallowed, inhaled, or absorbed through skin. Causes eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing dust or vapor. Wash thoroughly after-handling. Keep children and pets away from treated area only.

Environmental Hazard: This product is highly toxic to aquatic invertebrates. Do not apply directly to water, to areas where surface water is present onto intertidal areas below the mean water mark. Apply product only as specified on the label.

COMMON NAME: methoprene (Precor)

Practical Treatment: If in eyes flush with plenty of water. If swallowed, call a physician. DO NOT INDUCE VOMITING. If on skin, wash with soap and water, remove contaminated clothing and wash before use.

Precautionary Statement: Hazardous to Humans and Domestic Animals. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing.

Environmental Hazard: See above

COMMON NAME: Chlorfenapyr (Phantom)

Practical Treatment: If swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or physician. Do not give anything by mouth to an unconscious person. Call poison control center or doctor immediately for treatment advice. If on skin or clothing take off contaminated clothing and rinse skin immediately with plenty of water for 15-20 minutes. If inhaled move person to fresh air. If a person is not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth -to-mouth, if possible. Call a poison control center or physician for treatment advice. If in eyes hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

Precautionary Statement: Harmful if swallowed, inhaled or absorbed through skin. Causes moderate eye irritation. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove contaminated clothing and wash clothing before reuse.

Environmental Hazard: This pesticide is toxic to aquatic organisms, birds, and wildlife. Do not apply directly to water or areas where surface water is present or intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or when disposing of equipment wash waters or rinsate.

COMMON NAME: (S)-Hydroprene (Gentrol)

Practical Treatment: Call a poison control center or physician immediately for treatment advice. If swallowed, do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing eye. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

Precautionary Statement: Hazard to Humans and Domestic Animals. Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling. Keep out of the reach of children.

COMMON NAME: Deltamethrin (Suspend SC)

Practical Treatment: If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Precautionary Statement: Hazard to Humans and Domestic Animals. Harmful if inhaled. Avoid breathing vapor or spray mist. Contact with product may result in transient tingling and reddening of the skin. Remove contaminated clothing and wash before reuse.

Environmental Hazard: This product is extremely toxic to fish and invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Use with care when applying in areas adjacent to any body of water. Do not contaminate water when cleaning equipment or when disposing of equipment wash water. Do not apply or allow it to drift to crops or weeds on which weeds are actively foraging.

COMMON NAME: fipronil (Termidor)

Practical Treatment: If swallowed, call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. If inhaled: Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

Precautionary Statement: Hazard to Humans and Domestic Animals. Harmful if swallowed, absorbed through skin or inhaled. Do not get in eyes, on skin or on clothing. Do not breathe spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

Environmental Hazard: This pesticide is toxic to birds, fish, and aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Care must be taken to avoid runoff. Do not contaminate water by cleaning equipment or disposal of wastes. Do not contaminate water when disposing of equipment washwaters.

COMMON NAME: Lambda -cyhalothrin (Demand CS)

Practical Treatment: If on skin or clothing take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes and call a poison control center or doctor for treatment advice. If in eyes hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. If swallowed, call a poison control center or doctor immediately for treatment advice. Do not give any liquid to the person. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. If inhaled, move the person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Precautionary Statement: Hazards to Humans and Domestic Animals. Harmful if absorbed through the skin. Prolonged or frequently repeated skin contact may cause allergic skin reactions in some individuals. Avoid contact with skin, eyes, or clothing. Avoid breathing spray mist or vapor. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

Environmental Hazard: This product is extremely toxic to fish. Do not contaminate the water when cleaning equipment or disposing of equipment washwater. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. When making applications, care should be used to avoid household pets, particularly fish, and reptile pets.

COMMON NAME: Tau-fluvalinate (Mavrik Perimeter)

Practical Treatment: If swallowed, call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If on skin or clothing, take off contaminated clothing. Rinse skin off immediately with plenty of water for 15-20 minutes. Call a poison control center for treatment advice. If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, and then continue rinsing eyes. Call a poison control center for treatment advice.

Precautionary Statement: Hazard to Humans and Domestic Animals. Harmful if swallowed, absorbed through skin, or inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Avoid breathing spray mist or vapor. Wear long-sleeved shirt, long pants, shoes, socks, and chemical resistant gloves.

Environment Hazard: This product is toxic to fish and aquatic organisms. This product is toxic to honey bees if bees are exposed to direct application. However, dried residues of this product are non-toxic to honey bees. Treat during non-foraging periods to minimize adverse effects. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Use with care when applying in areas adjacent to any body of water. Drift and runoff from treated areas may be hazardous to fish and aquatic organisms in adjacent aquatic sites. Do not apply when weather conditions favor drift from the target area. Do not contaminate water when cleaning equipment or disposing of equipment wash waters.

COMMON NAME: Etofenprox (Zenprox EC)

Practical Treatment: If swallowed call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. If in eyes hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

Precautionary Statement: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Repeated exposure to entofenprox can cause skin irritation.

AEROSOLS

COMMON NAME: Pyrethrin (Whitmire P.I., Whitmire Pro Control Fogger, Enforcer 2 hour fogger, ULD BP Insecticide Micro-Gen, Other)

Practical Treatment: If inhaled: Remove to fresh air. Apply artificial respiration if indicated. If on skin: Remove contaminated clothing and wash affected skin areas with soap and water. If in eyes, flush with plenty of water. If irritation persists, call a physician. Harmful if inhaled or absorbed through skin. Avoid breathing vapors and skin contact. Stay out of rooms being treated for 2 hours, when fogging.

Environmental Hazard: Product is toxic to fish. Do not apply directly to water or to areas where surface water is present. Birds should be removed from premises. Whitmire Micro-Gen Phone Number is 1-800-777-8570.

COMMON NAME: boric acid (Whitmire Perma Dust)

Practical Treatment: If swallowed: Call a physician or Poison Control Center immediately. If inhaled: remove victim to fresh air. Apply artificial respiration if indicated. If on skin, remove contaminated clothing and wash affected areas with soap and water. If in eyes, flush eyes with plenty of water. Get medical attention immediately.

Precautionary Statement: May cause eye damage. Harmful if swallowed, inhaled, or absorbed through skin. Do not get in eyes or on clothing.

COMMON NAME: Tetramethrin (Whitmire Wasp Freeze, CB Stinger Insect Spray)

Practical Treatment: If swallowed call a physician or Poison Control Center immediately. Do not induce vomiting because of aspiration hazard. If inhaled, remove victim to fresh air. If in eyes, flush with plenty of water, get medical attention. If on skin or clothing, remove contaminated clothing, wash skin with soap and water. Get medical attention if irritation persists.

Precautionary Statement: Harmful if swallowed, inhaled, or absorbed through skin. Avoid breathing spray vapors or mist. Provide adequate ventilation of area being treated.

Environmental Hazard: This product is toxic to birds and fish.

COMMON NAME: Pyrethrin (Zenprox Aerosol)

Practical Treatment: If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If swallowed, immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Note to Physician: Vomiting may cause aspiration pneumonia.

Precautionary Statement: Hazards to Humans and Domestic Animals. Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.
Environmental Hazard: This product is extremely toxic to aquatic organisms including fish and aquatic invertebrates. Do not contaminate water when disposing of equipment, wash-water, or rinsate.

GRANULES

COMMON NAME: Naphalene & Sulfur (Snake-A-Way) Dr. T's Nature Products Pelham, Georgia

Precautionary Statement: Hazard to Humans and Domestic Animals. Avoid contact with skin. Avoid breathing vapors. Avoid contact with food and feed.

Environmental Hazards: Do not apply to water or wetlands.

COMMON NAME: Orthoboric Acid (In Tice Ant Granules)

Practical Treatment: If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on skin: take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product label with you when calling a poison control center or doctor or when going for treatment. In case of emergency, for additional information call 1-800-858-7378.

Precautionary Statement: Hazards to Humans and Domestic Animals: Caution: Harmful if absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Personal Protective Equipment (PPE): Applicators and handlers must wear: Long-sleeved shirt and long pants, chemical resistant or waterproof gloves, and shoes plus socks.

Environmental Hazard: Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters or rinsate.

COMMON NAME: Bifenthrin (Talstar Granular Insecticide)

Practical Treatment: If on skin or clothing take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. You may also contact 1-800-331-3148 for Emergency Assistance.

Precautionary Statement: Hazards to Humans and Domestic Animals. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing.

Environmental Hazard: This pesticide is extremely toxic to fish and aquatic invertebrates. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Drift and run-off from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment wash waters or rinsate.

RODENTICIDES

COMMON NAME: bromadiolone (Resolv Soft Bait)

Practical Treatment: If swallowed call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. If in eyes: hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice. If on skin or clothing: Take off contaminated clothing. Rinse skin with plenty of cool water for 15-20 minutes. If inhaled: move person to fresh air. If person is not breathing, call an ambulance, and then give them artificial respiration, preferably mouth-to-mouth, if possible. **Treatment for pet poisoning:** If animal eats bait, call veterinarian at once.

Precautionary Statement: Hazard to Humans and Domestic Animals. Harmful if swallowed, absorbed through the skin, or if inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Avoid breathing dust. Keep away from children, domestic animals, and pets. All handlers (including applicators) must wear long-sleeved shirt, long pants, shoes, socks, and waterproof gloves.

Environmental Hazard: This product is extremely toxic to mammals and birds. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash water or rinsate.

COMMON NAME: Bromadiolone (Contra Rodenticide)

Practical Treatment: If swallowed, call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

Precautionary Statement: Hazard to Humans and Domestic Animals. Harmful if swallowed or absorbed through the skin. Keep away from children, domestic animals and pets. Do not get in eyes, on skin or on clothing. Wash thoroughly with soap and water after handling. Wear gloves if bait is handled.

Environmental Hazard: This product is toxic to fish, birds, and other wildlife. Predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten bait. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark.

COMMON NAME: Diphacinone (Ditrac Tracking Powder)

Practical Treatment: If swallowed call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. If on skin, rinse skin with water for 15-20 minutes. Remove contaminated clothing. Get medical attention. **Note to physician or veterinarian:** If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K1 intramuscularly or orally as indicated in bishydroxycoumarin overdoses. Repeat as necessary based on monitoring of prothrombin times.

Precautionary Statement: Hazard to Humans and Domestic Animals. May be fatal if swallowed or absorbed through the skin. Do not get in eyes, on skin, or on clothing. Wear protective clothing and rubber gloves. Wash arms and face with soap and water after mixing or handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash before reuse.

Environmental Hazard: This product is toxic to fish, birds, and other wildlife. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark.

COMMON NAME: Brodifacoum (Final All-Weather Blox)

Practical Treatment: If swallowed, call a poison control center, physician, or 1-877-854-2494 immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. If on skin, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or physician for treatment advice. If in eyes, hold eye open and rinse slowly with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center, physician, or 1-877-854-2494 immediately for treatment advice.

Precautionary Statement: Hazards to Humans and Domestic Animals. Harmful if swallowed. Causes moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes or on clothing. All handlers (including applicators) must wear shoes plus socks, and gloves. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

Environmental Hazard: This product is extremely toxic to mammals and birds. Dogs, cats, and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. This pesticide is toxic to fish. Do not apply directly to water, or to areas where surface water is present or intertidal

areas below the mean high water mark. Runoff may also be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinsate.

INSECT PEST BAITS

COMMON NAME: Orthoboric Acid (In Tice Ant Gel)

Practical Treatment: If swallowed, call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes, remove contact lenses, if present after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for advice. If on skin or clothing, rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center for advice. For additional information call 1-800-858-7378.

Precautionary Statement: Hazards to Humans and Domestic Animals. Harmful if swallowed. May cause eye irritation. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling.

COMMON NAME: fipronil (Maxforce FC Magnum Roach Killer Bait Gel)

Practical Treatment: If on skin or clothing take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

Precautionary Statement: Hazards to Humans and Domestic Animals. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, and chewing gum or using tobacco.

Physical and Chemical Hazards: Do not use this product in or on electrical equipment where a possibility of shock hazard exists.

COMMON NAME: Indoxacard (DuPont Advion Ant Gel or DuPont Advion Cockroach Gel Bait)

Practical Treatment: No specific intervention is indicated as the compound is not likely to be hazardous. Consult a physician if necessary.

Precautionary Statement: Hazard to Humans and Domestic Animals. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

Environmental Hazard: Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark.

Physical and Chemical Hazards: Do not use this product in or on electrical equipment where a possibility of shock hazard exists.

COMMON NAME: Bromethalin (Talpirid)

Practical Treatment: If swallowed, call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. If on skin, wash with plenty of soap and water.

Precautionary Statements: Hazards to Humans and Domestic Animals. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Prolonged or frequent repeated skin contact may cause allergic reactions in some individuals.

Environmental Hazard: This product is toxic to fish, birds, and other wildlife. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark.
