

# EAL's offer in sustainability and net-zero energy

EAL understands that net-zero transition and sustainability is one of the biggest trends impacting engineering, manufacturing, and building services engineering. We collaborate with subject matter experts to design and continually update qualifications that meet the evolving needs of these industries.

We offer an increasing range of qualifications and apprenticeship support addressing sustainability skills and green technologies, to ensure engineers and employers have the right skills, recognised to the right standards, at the right time to seize the opportunities created by the net-zero transition.

Qualification number	Title	GLH
<b>Sustainability specific</b>		
610/4198/1	EAL Level 2 Award in Sustainable Engineering	30
610/6260/1	EAL Level 3 Award in Sustainability Engineering	45
<b>Offshore wind power / renewable power</b>		
601/5801/3	EAL Level 3 Diploma in Engineering Technologies	525
501/0544/9	EAL Level 3 NVQ Diploma in Engineering Maintenance	303
610/5457/4	EAL Level 4 Diploma in Power Engineering	120
<b>Net-zero technologies / manufacturing</b>		
610/5794/0	EAL Level 2 Award in Introduction to Battery Manufacturing and Working with Batteries	21
610/3908/1	EAL Level 3 Technical Specialist in the Installation of Electric Vehicle Charging Equipment (Award)	10
603/3929/9	EAL Level 3 Award in the Requirements for the Installation of Electric Vehicle Charging Points	7
610/2091/6	EAL Level 3 Award in the Design, Installation and Commissioning of Electrical Energy Storage Systems	23
600/5175/9	EAL Level 3 Award in the Installation of Small-Scale Solar Photovoltaic Systems	50
600/5253/3	EAL Level 3 Award in the Installation and Maintenance of Heat Pump Systems (Non-refrigerant Circuits)	80
600/0665/1	EAL Level 3 Award in the Fundamental Principles and Requirements of Environmental Technology Systems	15
	New Air Source Heat Pump Award in 2026
