Appendix 2 Evaluation of teaching within the Faculty of Humanities

Course and curriculum evaluations aim to improve the quality of education. The VU draws up questionnaires for this purpose with a number of key questions, which are always asked. In addition, the faculty has the option of adding its own questions to the lists.

Within the Faculty of Humanities, questionnaires are distributed digitally. In this way, the anonymity of students is guaranteed and the Plan-Do-Check-Act (PDCA) cycle - which serves educational improvement - can be run properly.

When the results of the evaluation are ready, the course coordinator is notified. The course coordinator formulates a response to the results of the evaluation and can also report to the students what they are going to change about the course for the next academic year based on the results. Students will have access to a selection of the evaluation results (provided there were at least five respondents) and the course coordinator's response.

The evaluation reports will be available no later than two weeks after the close of the feedback period for the course coordinator. The evaluation results are available to all lecturers of the course, the staff members of the program committee, the program director, and the evaluation coordinator. The program committees present an analysis of the evaluations in their annual report.

Courses to be evaluated

The following criteria are used to designate a module as requiring evaluation:

- Each course is evaluated (at least) once every three years, this means that one third of all courses are covered anyway. This is spread over periods and years so that not all students of one year level are asked to fill in questionnaires each time;
- all newly developed courses / new curriculum;
- courses taught by new teachers;
- all less well evaluated courses from the previous year based on criteria as defined in the Annual Evaluation Plan;
- all courses from university minors offered by faculty;
- courses addressed in the annual plan of the assessment chamber;
- courses put forward at the request of the programme committees;
- courses, with more than 8 students enrolled, that were identified as requiring evaluation in the previous year, but for which there are no evaluation results.

Curriculum Evaluations

The basic principle is that a curriculum is evaluated at least before the start of a midterm review or visitation and after every (thorough) curriculum change. The questionnaires are distributed digitally. The program director may add additional questions to this questionnaire. The period in which the questionnaire is distributed is determined in consultation with the programme director. In addition to the programme committee, the results of curriculum evaluations may be discussed with the work field advisory board.

Other forms of evaluation

Besides digital evaluation, there are other ways to evaluate education. The chapter on Educational Evaluations in the VU's Handbook on Educational Quality provides an overview of qualitative forms of educational evaluation, such as panel discussions, peer review, and quick inventories of strengths and suggestions. These forms of evaluation are encouraged within the faculty.

National Student Survey (NSE)

The Vrije Universiteit participates in the National Student Survey (*Nationale Studenten Enquete*), which is conducted each spring. The NSE can provide useful information about how students experience their program. The annual reports of the programmes reflect on the results of the NSE.

Appendix 4 Honours programme Faculty of Humanities

The Honours Programme is an excellence programme. It consists of 30 additional credits, to be obtained in the second and third year. Of the 30 EC, at least 12 and at most 18 are obtained in the faculty. The remaining credits are obtained from interdepartmental honours courses.

Content and offering in the faculty part

The faculty part comprises in any case:

- Humanities Research Project (12 EC)

In this project the students work individually or in small groups on an ongoing research project after a joint start. Its implementation is defined in consultation with the faculty Honours coordinator, the project coordinator and the researcher(s) involved. The project ends with a joint conclusion (e.g. symposium or publication).

If the student obtains 18 EC in the faculty, they choose a supplementary individual research module (6 EC) in addition to the research project, from the following options:

- Preparing a literature discussion
- Attending a conference and writing a conference discussion
- Archive visit + report
- Contributing to the organization of a conference/graduate seminar + report
- Other contribution to ongoing research

The choice of detailed implementation of one of these options always takes place in consultation with the faculty Honours coordinator and a researcher from the student's own programme.

Interdepartmental Honours Courses

Of the total of 30 EC, 12-18 EC must be obtained by taking interdepartmental courses at the VU, UvA or AUC. You can find the courses here: <https://vu.nl/en/education/more-about/interdepartmental-courses>.

Application

Students can apply by submitting the registration form available on the Honours programme website together with a cover letter and a grade list.
