Section A: Faculty section

1. General provisions

Article 1.1 Applicability of the Regulations

1. These Regulations apply to anyone enrolled in the programme, irrespective of the academic year in which the student was first enrolled in the programme.
2. These Regulations enter into force on 1 September 2022.
3. An amendment to the Teaching and Examination Regulations is only permitted to concern an academic year already in progress if this does not demonstrably damage the interests of students.

Article 1.2 Definitions

The following definitions are used in these Regulations (*in alphabetical order*) :

- | | |
|---------------------------|---|
| a. academic year: | the period beginning on 1 September and ending on 31 August of the following calendar year; |
| b. CvB: | the Executive Board of Vrije Universiteit Amsterdam; |
| c. EC (European Credit): | a course credit with a workload of 28 hours of study; |
| d. examination: | the final examination of the Master's programme; |
| e. FGV: | Faculty joint assembly – assembly of the faculty student council and faculty staff council; |
| f. interim examination: | an assessment of the student's knowledge, understanding and skills relating to a unit of education. The assessment is expressed in terms of a final mark. An interim examination may consist of one or more partial examinations. A resit always covers the same material as the original interim examination. A written examination can consist of (a combination of) open questions, multiple choice questions, a paper, an essay or written assignment. An oral examination can consist of (a combination of) open questions, a debate or a verbal presentation; |
| g. unit of education: | a (study) unit or course of the programme within the meaning of the law |
| h. OLC: | programme committee; |
| i. period: | a part of a semester; |
| j. practical exercise: | the participation in a practical training activity or other educational learning activity, aimed at acquiring certain (academic) skills. Examples of practical exercises are: <ul style="list-style-type: none">o researching and writing a thesis or dissertation;o carrying out a research assignment;o taking part in fieldwork or an excursion;o participating in and completing an internship; |
| k. pre-Master's enrollee: | person enrolled in a pre-Master's programme, who is not a student from a legal perspective; |
| l. programme: | the totality and cohesion of the unit of education, teaching activities/methods, contact hours, testing and examination methods and recommended literature; |
| m. SAP/SLM: | the student information system (<i>Student Lifecycle Management</i>); |
| n. semester: | the first (September - January) or second half (February - August) of an academic year; |
| o. specialization: | optional route of study within a degree programme indicating a deepening of the interdisciplinary or multidisciplinary context of the programme; |
| p. student | 'studying'; |

- q. student statute: sets out the rights and responsibilities of students on the one hand, and of Vrije Universiteit Amsterdam on the other hand, including those derived from the law and those derived from university regulations. The Executive Board (CvB) officially confirms the student statute once its completeness has been approved by the University Student Council (USC);
- r. study guide: the guide for the study programme that provides further details of the courses, provisions and other information specific to that programme. The study guide is available online at:
<https://www.vu.nl/en/study-guide/>;
- s. study monitor (*studiemonitor*): dashboard for students and academic advisers with data of the student and that provides insight into the student's study progress;
- t. subject: see '*unit of education*';
- u. track: a study pathway within a broader Bachelor's or Master's degree programme, such as a fully English-language study pathway within a Dutch-language Bachelor's or Master's degree;
- v. thesis: a unit comprising research into the literature and/or contributing to scientific research, always resulting in a written report;
- w. unit of education: a unit of study of the programme within the meaning of the WHW;
- x. university: Vrije Universiteit Amsterdam;
- y. WHW: the Dutch Higher Education and Research Act (*Wet op het Hoger Onderwijs en Wetenschappelijk Onderzoek*);
- z. workload: the workload of the unit of study to which an interim examination applies, expressed in terms of credits = EC credits (ECTS = European Credit and Transfer Accumulation System). The workload for 1 year (1,680 hours) is 60 EC credits.

The other terms have the meanings ascribed to them by the WHW.

2. Study programme structure

Article 2.1 Structure of academic year and educational components

1. The study programme will be offered in a year divided into two semesters.
2. Every semester consists of three consecutive periods. The first two periods each consist of eight weeks, and the final period consists of four weeks.
3. An educational component comprises 6 EC or a multiple thereof.
4. By way of exception to paragraph 3, the Executive Board may in special cases and on request of the Faculty Board, stipulate that a unit of study comprises 3 EC or a multiple thereof.

3. Assessment and Examination

Article 3.1 Signing up for education and interim examinations

1. Every student must sign up to participate in the educational components of the programme, the examinations and resits. The procedure for signing up is described in an annex to the Student Charter.
2. Signing up may only take place in the designated periods.

Article 3.2 Type of examination

1. At the examiner's request, the Examination Board may permit a different form of interim examination than is stipulated in the study guide.

Article 3.3 Oral interim examinations

1. An oral assessment is public unless the Examination Board determines otherwise. 'Public' in this context refers to the four eyes principle which states that an oral examination must always be done with two examiners. For further rules and regulations concerning oral examinations, see the Rules and Guidelines of the Examination Board FSS, article 11 'Oral examination'.

Article 3.4 Determining and announcing results

1. The examiner determines the result of a written interim examination as soon as possible, but at the latest within ten working days. The marking deadline for the first submission opportunity for theses is also ten working days. The marking deadline for the second submission opportunity for theses is no longer than twenty working days. The examiner will then immediately ensure that the marks are registered and also ensures that the student is immediately notified of the mark, taking due account of the applicable confidentiality standards.
2. The examiner determines the result (i.e. mark) of an oral examination as soon as possible, but at the latest within two working days after the examination has finished and informs the student accordingly. The fourth clause of the first paragraph applies.
3. In the case of assessments other than oral or written examinations, the Examination Board determines in advance how and by what deadline the student will be informed of the results.

Article 3.5 Examination opportunities

1. a. Per academic year, two opportunities to take examinations will be offered for each unit of education.
b. By way of exception to a., the options for retaking practical exercises, internships and theses are detailed in the faculty regulations master's thesis or relevant internship manual, teaching regulations or graduation regulations.
2. The most recent mark will apply in the event of a resit. A resit is allowed for both passed and failed units of study. The master's thesis, internship and practical exercise are excluded from the arrangement that a resit is allowed for both passed and failed units of study.
3. The resit for a (partial) interim examination must not take place within ten working days of the announcement of the result of the (partial) examination being resat.
4. The student who has passed all but one of the examinations necessary to meet the degree requirements and who is unable to sit that examination in the next semester, may submit a motivated request to the Examination Board asking for the opportunity to take this examination at an earlier date; the examiner can decide that this extra examination is a different assessment type than the regular examination opportunity. The student must have successfully participated in all the examination opportunities offered in the current academic year for the subject in question, unless participation was not possible for compelling reasons.
5. If a unit of education is no longer offered in the academic year following its termination, at least one opportunity will be provided to sit the interim examination(s) or parts thereof and a transitional arrangement will be included in the programme-specific section for the subsequent period.

Article 3.6 Marks

1. Partial marks are given on a scale from 1 to 10 with no more than one figure after the decimal point.
2. A final mark between 5 and 6 will be rounded to the nearest whole number: up to 5.50, rounded down; higher than 5.50, rounded up. All other final marks will be expressed in whole or half marks.
3. To pass a given course or unit, a final mark of 6 or higher is required.
4. The Examination Board can allow to use symbols rather than numbers, for example; v(oldaan), g(oed), n(iet)v(ol)d(aan), etc.)

Article 3.7 Exemption

1. At the written request of the student, the Examination Board may exempt the student from taking one or more examination components, if they:

- a. have either passed a course component of an academic (university) or higher professional education programme that is equivalent in terms of content and level;
 - b. or have demonstrated through their work and/or professional experience that they have sufficient knowledge and skills with regard to the relevant unit of education.
2. The Master's thesis is excluded from this exemption possibility.

Article 3.8 Validity period for results

1. The validity period of interim examinations passed and exemption from interim examinations is unlimited, unless otherwise specified in Section B1.
2. The validity period of a partial examination is limited to the academic year in which it was sat or until the end of the unit of study concerned, as stipulated for the relevant unit of study in Section B1.

Article 3.9 Right of inspection and post-examination discussion

1. Within twenty working days after the announcement of the results of a written interim examination, but at least ten working days before the resit opportunity for that interim examination, the student can submit a request to inspect their assessed work, the questions and assignments set in it, as well as the standards applied for marking. The place and time referred to in the previous clause will be announced at the interim examination or Canvas in all cases.
2. If a collective post-examination discussion has been organized, individual post-examination discussions will be held only if the student has attended the collective discussion or if the student was unable to attend the collective discussion through no fault of their own.
3. Students who meet the requirements stipulated in paragraph 2 can submit a request for an individual post-examination discussion to the relevant examiner. The discussion shall take place at a time and location to be determined by the examiner within the regular timetable, on campus or online.

4. Academic student counselling and study progress

Article 4.1 Administration of study progress and academic student counselling

1. The faculty board is responsible for the correct registration of the students' study results. After the assessment of a unit of education has been registered, every student has the right to inspect the result for that component and also has a list of the results achieved at his or her disposal in VU.nl Dashboard.
2. Enrolled students are eligible for academic student counselling. Academic student counselling is in any case provided by
 - a. the Student General Counselling Service;
 - b. Student psychologists;
 - c. Faculty academic advisors.

Article 4.2 Facilities for students with a disability

1. A student with a disability can, at the moment of submission to VUweb, or at a later instance, submit a request to qualify for one or more special facilities with regard to teaching, practical training and interim examinations. These facilities will accommodate the student's individual disability as much as possible, but may not alter the quality or degree of difficulty of a unit of study or an examination. In all cases, the student must fulfil the exit qualifications for the study programme.
2. The request referred to in the first paragraph must be accompanied by a statement from a doctor or psychologist. If possible, an estimate should be given of the potential impact on the student's study progress. In case of a chronic disability a single (one time) request suffices.
3. Students who have been diagnosed with dyslexia must provide a statement from a BIG, NIP or NVO registered professional who is qualified to conduct psychological evaluation.
4. The faculty board, or the responsible person on behalf of the faculty board, decides on teaching facilities and facilities regarding logistics. The Examination Board will decide on requests for facilities with regard to examinations.

5. In the event of a positive decision in response to a request as referred to in paragraph 1, the student can make an appointment with the study adviser to discuss the details of the provisions.
6. A request for one or more facilities can be refused if it would place a disproportionate burden on the organization or the resources of the faculty or university were it upheld. Any such refusal will be substantiated.
7. If the disability justifies an extension of the interim examination time, the responsible person on behalf of the Examination Board will register in SAP this entitlement to an extension. If a disability justifies other measures to be taken, the academic adviser can take the necessary measures. The student can consult the study monitor to check which facilities have been granted to them.
8. The decision as referred to in paragraph 5 may specify a limited validity of the facilities granted.

5. Hardship clause

Article 5.1 Hardship clause

In instances not regulated by the Teaching and Examination Regulations or in the event of demonstrable extreme unreasonableness and unfairness, the faculty board responsible for the study programme will decide, unless the matter concerned is the responsibility of the Examination Board.

Section B1: Programme specific – general provisions

6. General programme information and characteristics

Article 6.1 Study programme information

1. The programme Political Science, CROHO number 60203, is offered on a full-time basis.

Article 6.2 Teaching formats used and modes of assessment

1. The degree programme uses predominantly the following teaching formats:
 - lectures;
 - tutorials;
 - seminars;
 - individual supervision;
 - formative online assessments.
2. The degree programme uses predominantly the following modes of assessment:
 - (individual or group) assignments;
 - presentations;
 - participation;
 - thesis.

7. Further admission requirements

Article 7.1 Intake date(s)

The programme starts on 1 September.

Article 7.2 Admission requirements

1. Admission to the Master's programme is possible for an applicant who has obtained a Bachelor's degree obtained at an institution of academic higher education, which demonstrates the following knowledge, understanding and skills:
 - a. knowledge of and skills in the field of quantitative and qualitative methods and techniques of social scientific research (at least 12 EC);
 - b. knowledge of and understanding of the field of political science (at least 12 EC).
2. Applicants with a Bachelor's degree obtained at an institution outside the Netherlands may be asked for additional methods to prove that they meet the admission requirements.

Section B2: Programme specific – content of programme

9. Programme objectives, specializations, exit qualifications and language

Article 9.1 Workload

1. The programme has a workload of 60 EC.

Article 9.2 Tracks and/or specializations

The programme has the following specializations:

- Democracy, Power and Inequality;
- International Relations, Security and Global Order;
- Global Environmental Governance, Sustainability and Climate Change.

Article 9.3 Programme objective

The Master's programme in Political Science aims at enabling students to critically examine political issues at a high level of conceptual abstraction and to carry out in-depth academic theoretical and empirical research on a political topic in a globalizing context. For this purpose, the programme familiarizes them with a broad range of theories and approaches that serve both explanatory and critical aims. After completion of the programme, students are equipped to successfully carry out independent research work. While the programme has a strong academic orientation, it also prepares graduates to solve complex political questions within various professional fields, in government and public policy, and in profit and non-profit private organizations.

Article 9.4 Exit qualifications

1. Exit qualifications

A graduate of the study programme will

A. Have advanced knowledge and understanding of:

- the core debates in modern political science, especially those in general and comparative politics, international relations (including international security and global political economy), normative political theory and global environmental governance; and,
- social science methodology and its application in political science research.

A1. With regard to the field that is covered by their respective specialization, a graduate of the specialization will:

- have a thorough knowledge of the key issues, approaches and main theories;
- have an advanced understanding of a number of selected topics; and,
- have a thorough understanding of how the field is affected by the deepening interaction between national and international politics in the context of globalization.

B. Have mastered the following skills:

- to critically examine political issues at a high level of conceptual abstraction as well as translate them into terms understandable by a wider public;
- to apply qualitative and/or quantitative methods in political science research;
- to summarize, evaluate, and synthesize research results from political science and related fields and assess the policy relevance of these results;
- to carry out in-depth academic theoretical and empirical research on a topic within the areas of the student's chosen specialization,

- to produce a research-based thesis that shows intellectual rigor and proficiency in the field; and,
- to learn, collaborate and communicate in an intercultural context.

C. Have developed the following attitudes:

- intellectual integrity and a willingness to self-assess and take responsibility for their own learning process;
- a critical attitude towards advanced political science literature, in particular pertaining to the literature of the respective specialization;
- an open, reflexive and independent attitude towards prevailing views on politics and their societal context.

2. Language proficiency may be taken into account in the assessment of (interim) examinations.

Article 9.5 Language of instruction

1. The language of instruction is English.
2. The 'Gedragscode vreemde taal' (code of conduct foreign languages) applies.

10. Curriculum structure

Article 10.1 Composition of the programme

1. The programme comprises at least of a package of compulsory components and an individual research project and Master's thesis.
2. Educational components are categorized as specialized (400), research oriented (500) and highly specialized (600) level.

Article 10.2 Compulsory educational components

Explanatory notes:

Article 7.2 Admission requirements

Until 1 September 2022/1 February 2023, admission to the Master's programme by means of the 'exceptional admission provision' has been added to Article 7.2. This provision applies to Dutch and other EEA students who are pursuing a Bachelor's programme or a bridging/pre-Master's programme in the 2021-2022 academic year and who have not previously registered for the relevant Master's programme.

The exceptional admission provision gives universities of applied sciences and research universities the flexibility to deviate from the requirement that a Bachelor's programme must be completed prior to participation in a Master's programme, in the way that is best suited to the specific features of the Master's programme. Students must complete their Bachelor's programme or pre-Master's programme by 31 August 2023 at the latest. If the student does not meet this requirement, he or she will not be able to continue or complete the Master's programme.

With respect to each Master's programme, the Faculty Board will determine under what conditions the student is to be admitted to the Master's programme within the parameters of VU Amsterdam's 2022 exceptional admission provision, if the student does not yet hold a Bachelor's degree or has not yet completed a bridging/pre-Master's programme or in any other respect does not yet satisfy the admission requirements for the programme referred to in Article 7.2. These conditions are set out at the degree programme level in the addendum to the Teaching and Examination Regulations. In all cases, those conditions will indicate the minimum number of EC that must be obtained. Subsequently and where applicable, it will be specified whether the final project must be completed before the student can begin working on the final project for the Master's programme (a common requirement at Vrije Universiteit Amsterdam). Where applicable, additional substantive requirements may be specified with regard to the knowledge and skills that the student must have or educational units that the student must have completed before they can be admitted to the Master's programme.

Article 7.4 Bridging or pre-Master's programme

See the explanatory notes to Article 7.2, subject to the proviso that the bridging/pre-Master's programme must be completed within one year and that the HBO/university Bachelor's programme must be successfully completed before completing the bridging/pre-Master's programme.
