Introduction to the Teaching and Examination Regulations model (OER) for Bachelor's degree programmes

General information

Since the introduction of the Dutch Higher Education and Research Act (*Wet op het Hoger Onderwijs en Wetenschappelijk Onderzoek*, WHW) in 1993, it has been compulsory for institutions to record the broad outlines of the teaching programme and examination methods for each study programme in the Teaching and Examination Regulations (Article 7.13, paragraph 1, of the WHW). Article 7.13, paragraph 2, of the WHW lists the applicable procedures that must, as a minimum, be regulated in the Teaching and Examination Regulations. The WHW also includes a number of separate obligations relating to the inclusion of regulations in the Teaching and Examination Regulations.

Components of Teaching and Examination Regulations model

This Teaching and Examination Regulations model of the Vrije Universiteit consists of a part A, part B1 and part B2. Part A is the faculty section of the document that contains provisions that apply to all of a faculty's study programmes. The training-specific provisions have been included in both B sections and have been divided as follows:

- Part B1: programme specific section – general provisions
- Part B2: programme specific section – content of programme

This division supports the participation procedure. This is due to the fact that Programme Committees (OLC's) are fully responsible for participation as described under part B2; the Faculty Joint Assembly (FGV) has no involvement. The FGV has right of approval with regard to the Articles in parts A and B1, and the Programme Committees have the right to prior consultation (advice). VU-wide policy does not require participation on a faculty level; participation has already been guaranteed in the development and decision-making parts of the process of establishing the policy concerned.

Although the various parts go together and form the Teaching and Examination Regulations of a degree programme or group of programmes, they can be amended separately. The Faculty Board ultimately determines the content of all Sections of the Teaching and Examination Regulations for the faculty degree programmes.

Type of stipulations (Sections) included

- Articles based on the Higher Education and Research Act - Article 7.13, paragraph 2 or other Articles of the Act - that must be included in the Teaching and Examination Regulations. Per Article, if applicable, an indication has been given regarding which subject of Article 7.13, paragraph 2, is referred to and whether or not participation applies and if so, under whose authority. The addition "paragraph 2" is not mentioned for reasons of clarity; where written "7.13 a" it is actually meant: "WHW Article 7.13, paragraph 2, subsection a".
- This is in regard to Articles based on Article 7.13, paragraph 2 of the Higher Education and Research Act - or other Articles of the Act - that must be included in the Teaching and Examination Regulations but that have already been laid down in VU-wide policy. If applicable, participation has already been organized by the university's central participation body. The Faculty Board is not at liberty to depart from these procedures. The same holds for the Programme Committee and the Faculty Joint Assembly. Appendix II refers to the existing VU policy (or guidelines for the Faculty Board, from Article 9.5 of the Higher Education and Research Act). If a Faculty Board wishes to depart from existing VU policy, then a written request should be submitted to the Executive Board.
- Articles (or parts thereof) that do not apply to all programmes must be indicated using square brackets: [Optional].

- The other Articles include topics for which compulsory inclusion in the Teaching and Examination Regulations has not been stipulated and that also have not been adopted as guidelines. These may concern subjects that are regulated in the Higher Education and Research Act, but for which no explicit reference has been made that stipulates compulsory inclusion in the Teaching and Examination Regulations. These are Articles which have been included because they are intended to provide clear and complete information or because of a VU or UvA regulation which stipulates compulsory inclusion. It is recommended that these Articles be included in the Teaching and Examination Regulations in accordance with the model. This means that a large part of the text from part A can be copied in its entirety for inclusion in the creation of the faculty part A.

If necessary, additional Articles can be added in part B to reflect aspects specific to a particular degree programme. Depending on participation rights, additional Articles may be included in parts B1 and B2. Any additional Articles should, wherever possible, be placed at the end of the chapter and given a higher number. If an Article is placed between existing Articles, then this should be given an interim number by adding a letter to the number (for example, Article 1.1a). If a faculty or programme does not make use of a particular article or paragraph in this model, the article or paragraph number should not be removed, but should be marked with "NA" (not applicable). This method promotes transparency and improves quality assurance if a specific subject is regulated under the same Article number in every Teaching and Examination Regulations. If you have any doubts about participation rights, please contact Administrative and Legal Affairs.

Scope of application of these regulations

These regulations apply to the programmes, courses and examinations of the Bachelor's degree programmes of the relevant faculty of the Vrije Universiteit Amsterdam. These regulations may also apply to the joint programmes and educational units, as referred to in Article 7.3c of the WHW, which are provided in entirety or in part by the faculty.

The faculty carries out the publication of the Teaching and Examination Regulations and inclusion in the online study guide.

In all cases, the student must fulfil the exit qualifications for the study programme.	Advice OLC; approval FGV (7.13 m)
2. The request referred to in the first paragraph must be accompanied by a statement from a doctor or psychologist. If possible, an estimate should be given of the potential impact on the student's study progress. In case of a chronic disability a single (one time) request suffices.	Advice OLC; approval FGV (7.13 m)

7. If the disability justifies an extension of the interim examination time, the responsible person on behalf of the Examination Board will register in SAP this entitlement to an extension. If a disability justifies other measures to be taken, the academic advisor can take the necessary measures. The student can consult the study monitor to check which facilities have been granted to him/her.	Advice OLC; approval FGV (7.13 m)
