2. These Regulations enter into force on 1 September 2022.
3. An amendment to the Teaching and Examination Regulations is only permitted to concern an academic year already in progress if this does not demonstrably damage the interests of students.

The Executive Board (CvB) officially confirms the student statute once its completeness has been approved by the University Student Council (USC);

## 2. Study programme structure

### Article 2.1 Structure of academic year and educational components

1. The study programme will be offered in a year divided into two semesters.
2. Every semester consists of three consecutive periods. The first two periods each consist of eight weeks, and the final period consists of four weeks.
3. An educational component comprises 6 EC or a multiple thereof.
4. By way of exception to paragraph 3, the Executive Board may in special cases and on request of the Faculty Board, stipulate that a unit of study comprises 3 EC or a multiple thereof.

## 3. Assessment and Examination

### Article 3.1 Signing up for education and interim examinations

1. Every student must sign up to participate in the educational components of the programme, the examinations and resits. The procedure for signing up is described in an annex to the Student Charter.
2. Signing up may only take place in the designated periods.

### Article 3.2 Type of examination

1. At the examiner's request, the Examination Board may permit a different form of interim examination than is stipulated in the study guide.

### Article 3.3 Oral interim examinations

1. An oral assessment is public unless the Examination Board determines otherwise. 'Public' in this context refers to the four eyes principle which states that an oral examination must always be done with two examiners. For further rules and regulations concerning oral examinations, see the Rules and Guidelines of the Examination Board FSS, article 11 'Oral examination'.

### Article 3.4 Determining and announcing results

1. The examiner determines the result of a written interim examination as soon as possible, but at the latest within ten working days. The marking deadline for the first submission opportunity for theses is also ten working days. The marking deadline for the second submission opportunity for theses is no longer than twenty working days. The examiner will then immediately ensure that the marks are registered and also ensures that the student is immediately notified of the mark, taking due account of the applicable confidentiality standards.
2. The examiner determines the result (i.e. mark) of an oral examination as soon as possible, but at the latest within two working days after the examination has finished and informs the student accordingly. The fourth clause of the first paragraph applies.
3. In the case of assessments other than oral or written examinations, the Examination Board determines in advance how and by what deadline the student will be informed of the results.

### Article 3.5 Examination opportunities

1. a. Per academic year, two opportunities to take examinations will be offered for each unit of education.  
b. By way of exception to a., the options for retaking practical exercises, internships and theses are detailed in the faculty regulations master's thesis or relevant internship manual, teaching regulations or graduation regulations.
2. The most recent mark will apply in the event of a resit. A resit is allowed for both passed and failed units of study. The master's thesis, internship and practical exercise are excluded from the arrangement that a resit is allowed for both passed and failed units of study.
3. The resit for a (partial) interim examination must not take place within ten working days of the announcement of the result of the (partial) examination being resat.
4. The student who has passed all but one of the examinations necessary to meet the degree requirements and who is unable to sit that examination in the next semester, may submit a motivated request to the Examination Board asking for the opportunity to take this examination at an earlier date; the examiner can decide that this extra examination is a different assessment type than the regular examination opportunity. The student must have successfully participated in all the examination opportunities offered in the current academic year for the subject in question, unless participation was not possible for compelling reasons.
5. If a unit of education is no longer offered in the academic year following its termination, at least one opportunity will be provided to sit the interim examination(s) or parts thereof and a transitional arrangement will be included in the programme-specific section for the subsequent period.

### Article 3.6 Marks

1. Partial marks are given on a scale from 1 to 10 with no more than one figure after the decimal point.
2. A final mark between 5 and 6 will be rounded to the nearest whole number: up to 5.50, rounded down; higher than 5.50, rounded up. All other final marks will be expressed in whole or half marks.
3. To pass a given course or unit, a final mark of 6 or higher is required.
4. The Examination Board can allow to use symbols rather than numbers, for example; v(oldaan), g(oed), n(iet)v(ol)d(aan), etc.)

### Article 3.7 Exemption

1. At the written request of the student, the Examination Board may exempt the student from taking one or more examination components, if they:

- a. have either passed a course component of an academic (university) or higher professional education programme that is equivalent in terms of content and level;
  - b. or have demonstrated through their work and/or professional experience that they have sufficient knowledge and skills with regard to the relevant unit of education.
2. The Master's thesis is excluded from this exemption possibility.

#### Article 3.8 Validity period for results

1. The validity period of interim examinations passed and exemption from interim examinations is unlimited, unless otherwise specified in Section B1.
2. The validity period of a partial examination is limited to the academic year in which it was sat or until the end of the unit of study concerned, as stipulated for the relevant unit of study in Section B1.

#### Article 3.9 Right of inspection and post-examination discussion

1. Within twenty working days after the announcement of the results of a written interim examination, but at least ten working days before the resit opportunity for that interim examination, the student can submit a request to inspect their assessed work, the questions and assignments set in it, as well as the standards applied for marking. The place and time referred to in the previous clause will be announced at the interim examination or Canvas in all cases.
2. If a collective post-examination discussion has been organized, individual post-examination discussions will be held only if the student has attended the collective discussion or if the student was unable to attend the collective discussion through no fault of their own.
3. Students who meet the requirements stipulated in paragraph 2 can submit a request for an individual post-examination discussion to the relevant examiner. The discussion shall take place at a time and location to be determined by the examiner within the regular timetable, on campus or online.

## 4. Academic student counselling and study progress

#### Article 4.1 Administration of study progress and academic student counselling

1. The faculty board is responsible for the correct registration of the students' study results. After the assessment of a unit of education has been registered, every student has the right to inspect the result for that component and also has a list of the results achieved at his or her disposal in VU.nl Dashboard.
2. Enrolled students are eligible for academic student counselling. Academic student counselling is in any case provided by
  - a. the Student General Counselling Service;
  - b. Student psychologists;
  - c. Faculty academic advisors.

#### Article 4.2 Facilities for students with a disability

1. A student with a disability can, at the moment of submission to VUweb, or at a later instance, submit a request to qualify for one or more special facilities with regard to teaching, practical training and interim examinations. These facilities will accommodate the student's individual disability as much as possible, but may not alter the quality or degree of difficulty of a unit of study or an examination. In all cases, the student must fulfil the exit qualifications for the study programme.
2. The request referred to in the first paragraph must be accompanied by a statement from a doctor or psychologist. If possible, an estimate should be given of the potential impact on the student's study progress. In case of a chronic disability a single (one time) request suffices.
3. Students who have been diagnosed with dyslexia must provide a statement from a BIG, NIP or NVO registered professional who is qualified to conduct psychological evaluation.
4. The faculty board, or the responsible person on behalf of the faculty board, decides on teaching facilities and facilities regarding logistics. The Examination Board will decide on requests for facilities with regard to examinations.

5. In the event of a positive decision in response to a request as referred to in paragraph 1, the student can make an appointment with the study adviser to discuss the details of the provisions.
6. A request for one or more facilities can be refused if it would place a disproportionate burden on the organization or the resources of the faculty or university were it upheld. Any such refusal will be substantiated.
7. If the disability justifies an extension of the interim examination time, the responsible person on behalf of the Examination Board will register in SAP this entitlement to an extension. If a disability justifies other measures to be taken, the academic adviser can take the necessary measures. The student can consult the study monitor to check which facilities have been granted to them.
8. The decision as referred to in paragraph 5 may specify a limited validity of the facilities granted.

## 5. Hardship clause

### Article 5.1 Hardship clause

In instances not regulated by the Teaching and Examination Regulations or in the event of demonstrable extreme unreasonableness and unfairness, the faculty board responsible for the study programme will decide, unless the matter concerned is the responsibility of the Examination Board.

### Article 11.2 Transitional provisions

By way of departure from the Teaching and Examination Regulations currently in force, the transitional provisions in Appendix II apply for students who started the programme under a previous set of Teaching and Examination Regulations.

## Appendix I Evaluation plan Master Culture, Organization and Management

The faculty discussed the method of evaluation. The response to the evaluation forms is not too high (although this does not seem to give a too biased picture) and the questionnaire gives a limited picture. The response on the evaluation forms is not too high (although this does not seem to give a too distorted picture) and the questionnaire gives a limited picture of the of the learning effect, the background, the details. After consultation with the programme coordinators, we want to

propose the following for the BCO and COM master:

1. We stick to the existing form of evaluation as we feel it gives a useful first indication. To limit the time required to complete the survey, we would like to use a short questionnaire with a number of key questions. In order to limit the time burden, we do want to work with a short questionnaire with a number of key questions, in combination with some open questions. Teachers can add specific questions.
2. OLC BCO / COM and OPD will meet to discuss the evaluations of master and premaster and to discuss the results. If an assessment is (clearly) below the faculty average, we gather additional information (OPD with the instructor concerned, OLC with students). If there is a need for additional information, OPD and OLC student members convene a focus group, possibly with the lecturer concerned. The OLC student members write a short summary with suggestions and send it to the teacher(s) concerned, cc to the OPD.
3. If a situation arises in which the above does not seem to work out, the OLC has the option of involving the FSR. FSR students have the advantage that they are outside the study programme (and outside the dependency relations within it) and have access to the portfolio holder education in the Faculty Board.
4. In the event of an unsatisfactory evaluation of a course, the OPD enters into discussion with the lecturer(s) concerned in order to develop ideas for improvement, support and/or intervision. The OPD presents these ideas to the OLC for information and advice.
5. A curriculum evaluation (where the response was 2% last time...) is not done digitally, but by means of a focus group in period 6. We do this on special request of the OLC/OPD, for example because there has been a curriculum change.
6. To investigate the connection to the labour market, OPD and OPC invite the field advisory board (with alumni). This could be in combination with an educational activity or a VASS return seminar where alumni are already attending.

## **Explanatory notes:**

### **Article 7.2 Admission requirements**

Until 1 September 2022/1 February 2023, admission to the Master's programme by means of the 'exceptional admission provision' has been added to Article 7.2. This provision applies to Dutch and other EEA students who are pursuing a Bachelor's programme or a bridging/pre-Master's programme in the 2020-2021 academic year and who have not previously registered for the relevant Master's programme.

The exceptional admission provision gives universities of applied sciences and research universities the flexibility to deviate from the requirement that a Bachelor's programme must be completed prior to participation in a Master's programme, in the way that is best suited to the specific features of the Master's programme. Students must complete their Bachelor's programme or pre-Master's programme by 31 August 2023 at the latest. If the student does not meet this requirement, he or she will not be able to continue or complete the Master's programme.

With respect to each Master's programme, the Faculty Board will determine under what conditions the student is to be admitted to the Master's programme within the parameters of VU Amsterdam's 2022 exceptional admission provision, if the student does not yet hold a Bachelor's degree or has not yet completed a bridging/pre-Master's programme or in any other respect does not yet satisfy the admission requirements for the programme referred to in Article 7.2. These conditions are set out at the degree programme level in the addendum to the Teaching and Examination Regulations. In all cases, those conditions will indicate the minimum number of EC that must be obtained. Subsequently and where applicable, it will be specified whether the final project must be completed before the student can begin working on the final project for the Master's programme (a common requirement at Vrije Universiteit Amsterdam). Where applicable, additional substantive requirements may be specified with regard to the knowledge and skills that the student must have or educational units that the student must have completed before they can be admitted to the Master's programme.

### **Article 7.4 Bridging or pre-Master's programme**

See the explanatory notes to Article 7.2, subject to the proviso that the bridging/pre-Master's programme must be completed within one year and that the HBO/university Bachelor's programme must be successfully completed before completing the bridging/pre-Master's programme.
