Subject: Made in America and Traceability of Materials

Dear Customer,

In accordance with the Infrastructure Investment and Jobs Act, and the Build America, Buy America Act. WL Plastics Corporation manufactures polyethylene pipe in manufacturing plants in the United States of America. WL Plastics Corporation sources all raw materials from suppliers that manufacture High Density Polyethylene (HDPE) and Medium Density Polyethylene (MDPE) in the United States of America. Suppliers are monitored and raw materials are quality controlled by WL Plastics to ensure high quality material is provided by these United States based suppliers. All WL Plastics polyethylene pipe products are marked to identify the manufacturing location. Pipe that is manufactured in the United States of America ("Made in America") has one of the following identification markings on the pipe:

"WL Plastics TX" – 1110 Old Wise Rd, Bowie, TX 76230 -Pipe manufactured at WL Plastics, Bowie, TX USA
