

Keeping Medicare Affordable in Pennsylvania

Every day, the [Medicare Improvements for Patients and Providers Act](#) (MIPPA) helps people with Medicare afford their prescriptions, premiums, and doctor visits.

Who MIPPA Helps in Pennsylvania

199,579 Medicare beneficiaries connected to benefits

806,689 Medicare beneficiaries living at or below \$22,500
(150% of the federal poverty level)

Betty's Story

Betty, 73, was spending \$144 a month on Medicare premiums, which made it difficult to afford daily expenses, including health care for her heart disease, arthritis, and osteoporosis. She was also caring for her son who lost his job due to a health issue. A benefits counselor helped Betty apply for the Medicare Savings Program, which put that \$144 back into her monthly Social Security check. Betty also discovered she was eligible for a Property Tax Rent Rebate to help with housing costs and \$223 a month in food benefits. Now Betty and her son have the resources they need to rebuild their financial security.

What MIPPA Does

Connects eligible individuals to benefits like the Medicare Savings Program and Medicare Part D Low-Income Subsidy, which help pay for prescription drugs, premiums, and copays

Promotes preventive health services and screenings

Keeps older adults healthy and out of hospitals

Potential Medicare Savings through MIPPA

One of the main components of MIPPA is to connect eligible Medicare Beneficiaries to programs to help them afford prescription drugs through Medicare Part D. Research shows that having prescription drug coverage through Medicare Part D could reduce hospitalization rates by 7%.¹ With an average Medicare hospital stay costing \$14,700,² connecting individuals to prescription drug coverage could create significant health care savings for both the patient and the government.

How MIPPA is Delivered in Pennsylvania
