<td>$480 (Amount spent on deductible, before ICP begins)</td>
</tr>
</tbody>
</table>
| **Initial Coverage Period (ICP)** | Costs of covered drugs are shared: 25% by beneficiary, 75% by plan. | Up to $1,107.50*  
*maximum an individual would pay if in plan with no deductible | $3,322.50 | $4,430 (Amount spent during ICP, including applicable deductible, before Coverage Gap begins) |

### Former Coverage Gap ("donut hole")

While the Part D coverage gap ("donut hole") officially closed in 2020, that does not mean beneficiaries don’t have to share a portion of costs after the ICP:
- The beneficiary will continue to pay 25% for both generic drugs and brand-name drugs, plus a small portion of the pharmacy dispensing fee (approx. $1-$3).
- The plan pays 75% of the cost of generic drugs and 5% for brand-name drugs.
- The drug manufacturer provides a 70% discount on brand-name drugs.

**Note about True Out-of-Pocket (TrOOP) costs:**
The total amount spent in this period (up to $5,582.50) includes:
- The drug costs paid by the beneficiary, and
- The 70% discount on brand-name drugs provided by the drug manufacturer.

Payments made by the plan during this period (75% on generics, 5% on brand-name drugs) do not count toward TrOOP.

### Catastrophic Benefit Period

When an enrollee’s total out-of-pocket spending reaches $7,050, they hit the catastrophic benefits period, and costs of covered drugs are shared. Beneficiary pays reduced copay/coinsurance; plan pays the difference.

Greater of:
- 5% coinsurance OR $3.95 copay for generic, $9.85 copay for brand or non-preferred

Any remaining portion of the negotiated drug price

Beneficiary will remain in the Catastrophic Benefit Period through December 31, 2022.

Part D benefit will reset on January 1, 2023, starting again with a deductible.

---

*Most Part D plans are not standard plans. This means calculating TrOOP costs during the initial deductible and ICP varies by plan.*
