Low-Income Californians Connected to Benefits in 2022-2023

Thanks to federal funding that supports efforts to find and enroll low-income people on Medicare into benefits they are eligible for, 551,137 low-income older and disabled Californians received assistance that can help them to afford their prescription drugs and doctor visits.

This federal funding supports California's:

- State Health Insurance Assistance Program (SHIP)
- 41 Area Agencies on Aging (AAAs)
- 9 Benefits Enrollment Centers (BECs)

These organizations help older adults making less than \$22,000 a year apply for:

- Medicare Part D Low-Income Subsidy (LIS/Extra Help)
- Medicare Savings Programs (MSPs)

Funding also supports BenefitsCheckUp®, a free online screening and enrollment tool.

Californians in Need Found Help...

Thanks to previous federal funding, in 2022-2023:

- **370,137** Medicare beneficiaries and their caregivers in California received help with access to low-income benefits
- **181,000** Californians used BenefitsCheckUp® to connect with benefits online

... But Far Too Many Are Still Missing Out

- **2.4 million** Medicare beneficiaries in California are living at or below 150% of the federal poverty level and need help affording health care

Estimate taken from SHIP Tracking and Reporting System (STARS)

Mary Ann's Story

As a disabled senior citizen who lives below the poverty level and has only Social Security upon which to live and pay rent, I myself am a participant in the Extra Help program. It enables me to both get to appointments and to afford the medications and health aids prescribed for me. Without this coverage, I could afford neither.
