<tr>
<td>Initial Coverage Period (ICP)</td>
<td>Costs of covered drugs are shared: 25% by beneficiary, 75% by plan.</td>
<td>Up to $1,032.50* (maximum an individual would pay if in plan with no deductible)</td>
<td>$3,097.50</td>
<td>$4,130 (Amount spent during ICP, including applicable deductible, before Coverage Gap begins)</td>
</tr>
</tbody>
</table>
| Former Coverage Gap (“donut hole”) | While the Part D coverage gap (“donut hole”) officially closed in 2020, that does not mean beneficiaries don’t have to share a portion of costs after the ICP:  
- The beneficiary will continue to pay 25% for both generic drugs and brand-name drugs, plus a small portion of the pharmacy dispensing fee (approx. $1-$3).  
- The plan pays 75% of the cost of generic drugs and 5% for brand-name drugs.  
- The drug manufacturer provides a 70% discount on brand-name drugs. |  |  |  |
|                              | **Note about True Out-of-Pocket (TrOOP) costs:**  
The total amount spent in this period (up to $5,183.75) includes:  
- The drug costs paid by the beneficiary, and  
- The 70% discount on brand-name drugs provided by the drug manufacturer.  
Payments made by the plan during this period (75% on generics, 5% on brand-name drugs) do **not** count toward TrOOP. |  |  |  |
| Catastrophic Benefit Period  | When an enrollee’s total out-of-pocket spending reaches $6,550, they hit the catastrophic benefits period, and costs of covered drugs are shared. Beneficiary pays reduced copay/coinsurance; plan pays the difference. | Greater of:  
5% coinsurance **OR** $3.70 copay for generic, $9.20 copay for brand or non-preferred | Any remaining portion of the negotiated drug price | Beneficiary will remain in the Catastrophic Benefit Period through December 31, 2021.  
Part D benefit will reset on January 1, 2022, starting again with a deductible. |

*Most Part D plans are **not** standard plans. This means calculating TrOOP costs during the initial deductible and ICP varies by plan.
