

Keeping Medicare Affordable in Idaho

Every day, the [Medicare Improvements for Patients and Providers Act](#) (MIPPA) helps people with Medicare afford their prescriptions, premiums, and doctor visits.

Who MIPPA Helps in Idaho

20,144 Medicare beneficiaries connected to benefits

96,375 Medicare beneficiaries living at or below \$22,500
(150% of the federal poverty level)

Jim's Story

Jim had uncontrolled diabetes and ongoing medical issues. When he went to pick up his prescription, the pharmacist said it would cost \$300 a month under his new Medicare plan. He couldn't afford it, stopped taking his medication, and his health declined. He even canceled appointments with his provider because he didn't want to pay for an appointment just to be told he needed medication. A benefits counselor helped Jim work with his provider, a different pharmacy, and financial assistance to get his prescription cost down to \$11 a month. Jim broke down crying and said he could pay for that.

What MIPPA Does

Connects eligible individuals to benefits like the Medicare Savings Program and Medicare Part D Low-Income Subsidy, which help pay for prescription drugs, premiums, and copays

Promotes preventive health services and screenings

Keeps older adults healthy and out of hospitals

Potential Medicare Savings through MIPPA

One of the main components of MIPPA is to connect eligible Medicare Beneficiaries to programs to help them afford prescription drugs through Medicare Part D. Research shows that having prescription drug coverage through Medicare Part D could reduce hospitalization rates by 7%.¹ With an average Medicare hospital stay costing \$14,700,² connecting individuals to prescription drug coverage could create significant health care savings for both the patient and the government.

How MIPPA is Delivered in Idaho

- 1 [State Health Insurance Assistance Program](#)
- 6 [Area Agencies on Aging](#)
- 1 [Benefits Enrollment Center](#)
Community Health Clinics, Inc. Terry Reilly Health Services
