

Keeping Medicare Affordable in Virginia

Every day, the [Medicare Improvements for Patients and Providers Act](#) (MIPPA) helps people with Medicare afford their prescriptions, premiums, and doctor visits.

Who MIPPA Helps in Virginia

90,366 Medicare beneficiaries connected to benefits

479,898 Medicare beneficiaries living at or below \$22,500
(150% of the federal poverty level)

Mr. C's Story

Mr. C is deaf and needed person-centered assistance to apply for benefits. A benefits counselor used texts and emails to help him complete applications for Medicaid, food benefits, the Medicare Savings Program, and the Medicare Low-Income Subsidy. Now, he has the resources he needs to afford his daily expenses.

What MIPPA Does

Connects eligible individuals to benefits like the Medicare Savings Program and Medicare Part D Low-Income Subsidy, which help pay for prescription drugs, premiums, and copays

Promotes preventive health services and screenings

Keeps older adults healthy and out of hospitals

Potential Medicare Savings through MIPPA

One of the main components of MIPPA is to connect eligible Medicare Beneficiaries to programs to help them afford prescription drugs through Medicare Part D. Research shows that having prescription drug coverage through Medicare Part D could reduce hospitalization rates by 7%.¹ With an average Medicare hospital stay costing \$14,700,² connecting individuals to prescription drug coverage could create significant health care savings for both the patient and the government.

How MIPPA is Delivered in Virginia

- 1 [State Health Insurance Assistance Program](#)
- 22 [Area Agencies on Aging](#)
- 11 **Benefits Enrollment Centers**
 - [Arlington County Aging and Disability Services](#)
 - [ENDependence Center of Northern Virginia \(or ECVN\)](#)
 - [Korean Community Service Center of Greater Washington](#)
