

Keeping Medicare Affordable in Ohio

Every day, the [Medicare Improvements for Patients and Providers Act](#) (MIPPA) helps people with Medicare afford their prescriptions, premiums, and doctor visits.

Who MIPPA Helps in Ohio

526,564 Medicare beneficiaries connected to benefits

705,127 Medicare beneficiaries living at or below \$22,500
(150% of the federal poverty level)

Xiang and Bi's Story

Xiang and Bi, a retired couple who are both 66, had a combined retirement income of \$500 a month after their Medicare premium. They were struggling to meet their daily expenses and afford prescriptions. Due to their medical conditions, they could not work and were worried about their living situation. A benefits counselor helped them apply for the Medicare Savings Program, Medicare Low-Income Subsidy, and other programs. They were enrolled in all, enabling them to cover all their bills.

What MIPPA Does

Connects eligible individuals to benefits like the Medicare Savings Program and Medicare Part D Low-Income Subsidy, which help pay for prescription drugs, premiums, and copays

Promotes preventive health services and screenings

Keeps older adults healthy and out of hospitals

Potential Medicare Savings through MIPPA

One of the main components of MIPPA is to connect eligible Medicare Beneficiaries to programs to help them afford prescription drugs through Medicare Part D. Research shows that having prescription drug coverage through Medicare Part D could reduce hospitalization rates by 7%.¹ With an average Medicare hospital stay costing \$14,700,² connecting individuals to prescription drug coverage could create significant health care savings for both the patient and the government.

How MIPPA is Delivered in Ohio
