

2025 YCC Work Plan

2025 - YCC Advancing Action

- 2024 kicked off a number of major initiatives and 2025 focuses on advancing and accelerating that work.
- YCC Ordinance provides the purview and key goals of the Commission to help guide its work.
- A Work Plan is a roadmap to achieve goals, and Workstreams lay out tasks/activities to achieve the common goal.
- Draft Work Plan offers some suggested pathways and doesn't limit additional actions throughout the year.

YCC Roles & Responsibilities

Per County Ordinance, the YCC duties are:

- Providing recommendations to the Board of Supervisors (Board), Chief Sustainability Office (CSO), and County departments on new or existing County initiatives related to climate mitigation and adaptation.
- Providing input on the OurCounty Annual Report, near term priorities, and funding strategies.
- Providing recommendations on existing or proposed climate-related legislation, policies, or initiatives, especially regarding its impact on youth.
- Publishing Annual Report on YCC activities and achievements.
- Working with other County Commissions, boards, and committees.
- Conducting outreach and communications to youth under 18.

Workstream I

Workstream I: Advise on the development and outreach for County climate and youth-related plans, initiatives, and legislation, particularly the OurCounty refresh.

Purpose

Provide youth perspective on current and future climate action planning and priorities.

Actions

Lead

Provide input to the CSO on the OurCounty refresh.

YCC

Advise and support community engagement on OurCounty refresh to ensure youth voices are heard and incorporated.

YCC

Stay apprised of and provide input on other OurCounty-related initiatives, including the Community Forest Management Plan, Heat Action Plan, Water Plan, and others

YCC

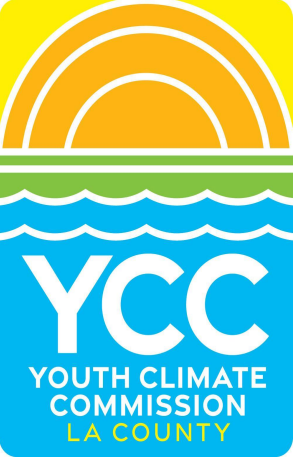

Provide recommendations, as needed, to the Board on climate-related State and Federal legislation.

YCC

Provide regular updates to YCC on OurCounty progress and other important climate-related issues.

CSO

Workstream II

Workstream II: Consistent engagement with youth and development of District-specific actions based on priorities.

Purpose

Build youth capacity by informing young people about the YCC and County climate work while also continuously creating opportunities for youth input on priorities and concerns.

Actions

Lead

Host or co-host with a community partner 3 District Coalition meetings in each District to seek youth input on priorities and share YCC work.

YCC

Table a minimum of 3 events per District with a particular focus on youth attended events.

YCC

Maintain District-specific Instagram promoting YCC and other climate news.

YCC

Host or support at least 3 youth-focused countywide events on climate-related topics and youth capacity building, including the Regional Youth Summit and Generation Earth.

YCC

Support outreach activities by connecting Commissioners to opportunities, helping to secure venues, providing support materials, offering technical assistance, and more.

CSO

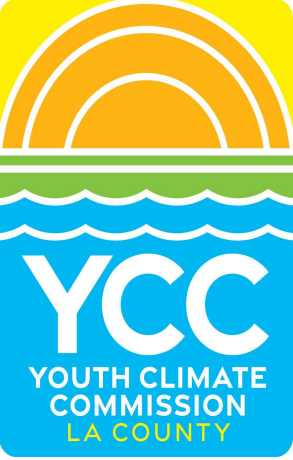

Maintain YCC Instagram with at least 5 posts/year and publication of quarterly YCC newsletter.

CSO

Provide Commissioner training and technical assistance to support community building work.

CSO

Workstream III

Workstream III: Communicate with Board, County departments, and public on YCC priorities and progress.

Purpose

Keep Board and departments apprised of youth perspective so they can be inputted into County decision-making and ensure transparency and accountability with the public.

Actions

Commissioners report back to the Commission and Board Offices on district-specific feedback from youth.

Take action on top priorities from LA County Youth Priorities Survey.

Publish public Annual Report (October 2025) and submit to Board.

Invite key departments and organizations to present on important and developing climate-related work for YCC feedback, input, and insights.
