MARCH 28, 2025, 2025 | 9AM-10AM

MEETING SUMMARY

Introductions

- K. Nelson and Dr. David Hardy, HTF Co-Chairs, called the meeting to order, conducted introductions, and welcomed attendees the meeting.

Co-Chairs' Report:

- K. Nelson referred attendees to the packet for the meeting summary for the February 28, 2025 meeting.

PRESENTATION: Understanding Healthcare Access and Experiences in Skid Row, Los Angeles | Health Matters Inc | Key takeaways

- The presentation discussed healthcare access and experiences in Los Angeles, highlighting the use of street medicine and mobile health services, the need for food and housing assistance, and the importance of peer support models.
- Majority of respondents in Skid Row had health insurance, primarily Medi-Cal
- Street medicine and mobile health services were utilized by 80% of respondents, with high likelihood of using them again.
- Food assistance services and housing assistance are the most requested services by individuals.
- Street medicine and mobile health services are highly valued and helpful, but there are issues with continuity of care.
- Peer support and community health worker models have been successful in filling gaps in healthcare access.
- About four individuals out of the 200 disclosed that they are HIV positive.
- People who tested positive already knew their status and used the tests to check on their current condition.
- Majority of the 200 tests were done without compensation, indicating a strong desire for individuals to know their status.
- Limited new positives found in on-the-street HIV testing, further investigation needed
- Need to gather data from other street medicine programs to compare results and prevalence of HIV.

2025 Workplan/Deliverables

The HTF reviewed its 2025 workplan and prioritized developing a housing needs assessment among PLWH. Once the data collected is analyzed and finalized, the HTF will convene a housing summit composed of housing services policy and decision-makers in the County and present the findings and discuss pathways to housing services for PLWH. The HTF discussed presenting their findings from the Ryan White housing and legal services provider consultations at the May 8 Commission meeting.

- Plan for a summit in December to discuss findings and potential solutions.
- Gather input from a larger group, including the full commission, to inform the development of survey questions.

Tasks and Assignments:

- **Katja Nelson** will reach out to the Community Clinic Association to explore avenues for distributing the survey outside of the traditional Ryan White service providers route.
- **Dr. Hardy** will reach out to Brett Feldman and the USC street medicine team to gather data on their HIV testing and treatment program for homeless individuals.

Agenda Development for Next Meeting:

- Develop a draft of the housing needs assessment survey
- Presentation from USC street medicine team, if available.

Consultations with Local Ryan-White HIV/AIDS Program (RWHAP) Funded Housing and Legal Services Providers

Housing Task Force
(date)

LOS ANGELES COUNTY
COMMISSION ON HIV

HOUSING IS A HUMAN RIGHT

HOUSING SUPPORTS BETTER HEALTH

Securing **stable housing** can help people achieve **successful HIV outcomes**.

Background

The Commission on HIV formed the Housing Task Force to address the needs of people living with HIV (PLWH), with special emphasis on:

- Understanding how the local Ryan White system of HIV care can prevent and address housing as a critical piece of a person's care.
- Conducting assessments, community listening sessions, and consultations with subject matter experts to understand service delivery gaps, barriers, and opportunities for partnerships and improvements.
- Developing recommendations to agency partners and the County to attain and maintain safe and affordable housing for PLWH.

Background

- Conducted consultations with housing and legal services agencies to learn about the service needs of their clients
- Determine how a more integrated housing and legal service delivery process to prevent homelessness among Ryan White clients (or Ryan White eligible clients).
- The consultations were held during the regularly scheduled HTF meetings from September 2024 to January 2025.

Ryan White Housing and Legal Service Providers Insights

- All housing providers reported referring clients to legal services
- Work intensively with clients to prevent eviction.
- Eviction is the last resort
- Work with clients to address behavioral or financial difficulties to avoid eviction

Primary reasons for eviction:
missed rental payments
and
poor tenant behavior

Key Themes

Comprehensive support is provided by staff:

- Agencies employ resident services coordinators who interact with clients to ensure their health, safety, and well-being.
- Staff assist with referrals and conduct personal visits to build and maintain trust with clients.
- HFH funds intensive case management to address the acute health needs of clients.

Residential Care Facility for the Chronically Il (RCFCI) and Transitional Residential Care Facility (TRCF) clients demonstrate high need for ongoing support

- RCFCI and TRCF clients are often frail, elderly, and diagnosed with significant mental health conditions; some are not receiving mental health services by choice; and require ongoing attention and support with basic skills of life, home living, and health maintenance.
- For clients who seek mental health services, securing appointments is a significant challenge.

Key Themes

Inadequate funding is straining the capacity of agencies to operate at optimal levels.

- Building repairs and maintenance are not covered by funding sources.
- Agencies are further strained when payments/reimbursements are not paid on time.
- Reimbursement rates do not match the full cost of the services.

Housing workforce capacity is under extreme pressure and stress.

- The caseload and demand for housing are not sustainable with the current workforce capacity and landscape.
- Huge turnover rate, low wage, burnout, poor treatment of staff (by clients) are systemic issues that are not being addressed.
- Difficult to attract and retain highly skilled staff for the housing services sector.
- People with lived experience are needed, however, those with subsidized housing run the risk of losing their housing if they are employed.
- Trust is a core issue. Housing providers are not trusted and not treated as equal partners by the County.

Key Themes

Poor intra and inter-agency communication and coordination.

- Due to frequent staffing changes and turnover, maintaining communication and connection with referring agencies is a challenge. This often leads to applications having to get started again, lost applications and paperwork, and inability to contact clients/applicants.

The insane amount of paperwork required for applications is detrimental to both providers and clients.

- The length of time it takes to get people housed is unacceptable but providers are hampered and powerless because of documents required by HUD-funded programs.
- Paperwork burden is duplicative and retraumatizing to clients.

Other Issues

- **Need resources and support to house undocumented clients.**
- **Some eligible clients may not seek services due to stigma.**
- **Foster a sense of compassion and understanding for people who are homeless or at risk of becoming homeless.**
- **It is important to understand the difference between subsidized vs. affordable housing. Under subsidized housing, the tenant does not pay more than 30% of their income towards rent. “Affordable” housing is subject to rent increases.**

City of Los Angeles HOPWA Partners' Insights

- Federal program administered by the U.S. Department of Housing and Urban Development (HUD) that provides housing assistance and related support services specifically to low-income individuals living with HIV/AIDS and their families.
- The only federal program dedicated to addressing the housing needs of people living with HIV/AIDS.
- HOPWA is not a Ryan White-funded program.
- Locally administered by the City of Los Angeles.

HOPWA Background

- Staffing is challenged with only 3 staff and with administrative expenses capped at 3%. In comparison, most federal grant programs cap administrative cost at 10%.
- The 3% administrative cap for the HOPWA program impacts staff capacity to respond to fiscal, programmatic, service, and community engagement efforts.
- Approximately \$30 million in funding from the federal Housing and Urban Development (HUD) Department.
- This translates to 18 contracts including housing capital development service agencies, vouchers, and long-term projects to build housing.
- Most of the funding is used to work with local agencies to provide tenant-based rental assistance (TBRA) and other housing support for PLWH.
- All funds are maximized.

Major challenges

- **Need to scale up the number of people served.**
- **Agencies are not fully spending down their grant awards/contracts, possibly to due to high staff turnover rate and difficulty hiring and retaining staff**
- **Need to expand outreach more broadly to other partners.**
- **Duplication of services; e.g., some agencies are targeting the same clients and recruiting from the same hospital.**
- **Most agencies rely on word-of-mouth for promoting services which is not an effective mechanism for scaling up awareness of HOPWA services.**
- **Hiring freeze in the City of Los Angeles hampers the ability to hire staff.**
- **Large caseloads and paper work**

Strategies for Improvement

- **Increase service agreements amount with the Housing Authority of the City of Los Angeles to support housing vouchers for PLWH.**
- **Establish a process for outreach coordination to avoid duplication of services.**
- **Explore targeted social marketing, however, these efforts must demonstrate that outreach and social marketing activities reach people eligible for HOPWA services (not intended for general audience outreach).**
- **Explore leveraging street medicine to get PLWH into housing/HOPWA; currently exploring this opportunity with the USC street medicine program.**

Ryan White Legal Services Provider Insights

The common areas of assistance
provided:

- 1.Housing
- 2.Record clearing
- 3.Citation defense
- 4.Income maintenance
- 5.Credit/debt

*****services are provided regardless of
immigration status*****

Challenges

- **Ryan White-contracted legal services provider is not receiving enough referrals and needs agency support to promote their services and refer clients.**
- **Many Ryan White/ HIV-service agency staff are unaware they exist and that they have a legal services program for PLWH.**
- **Lack of provider awareness about ICLC and their RW-funded legal services may be partly due to confusing messaging when the funding source for the agency's legal services for PLWH moved from HOPWA to Ryan White- some agencies may have misinterpreted this as an end to the program.**

Recommendations

- Expand access to emergency financial assistance (including non-Ryan White-funded programs) to prevent homelessness.
- Explore better payment models to fund the full cost of housing services.
- Dedicate funding for ongoing training for frontline staff
- Establish more formal and frequent community and interagency outreach and coordination.
- Appeal to the federal Housing and Urban Development (HUD) Department to eliminate the burden of showing proof of income; if they are homeless and receive General Relief, SSI, or SSDI, that documentation should suffice. Eliminate the requirement to provide 3 months of bank statements. Eliminate HIV bloodwork requirement.

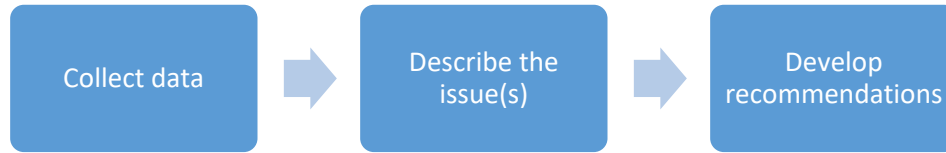

PURPOSE OF THIS DOCUMENT: To identify activities and priorities the Housing Task Force will lead and advance for 2024-2025.

CRITERIA: Select activities that are **specific and realistic and within the scope and capacity of the COH**. The Commission is Los Angeles County’s integrated prevention and care planning council.

Overarching Goal: Develop specific and realistic recommendations and/or response to address the intersection of HIV/STD and housing.

#	HOUSING CHALLENGE/ISSUE	ACTION OR STRATEGY TO ADDRESS ISSUE	TIMELINE/ DUE DATE	ACTION ITEMS+NEXTSTEPS+FOLLOWUP
1	<p>Lack of coordination among housing systems and providers</p>	<ul style="list-style-type: none"> • HTF should look at ways to collaborate with DHSP and other providers – agencies are not aware of what each other are doing; not much communication between HIV and housing providers; conduct a training among housing providers about the Ryan White program • Improve interagency communication; the lack of and often conflicting communication among lead agencies and subcontractor agencies lead to frustration and delays in application process; case closures are done erroneously and the burden of starting over is on the client. Submitted documents are lost when they have been submitted by the client multiple times. No one is talking to the client; often left in limbo. • Ensure Medical Care Coordination teams and benefits specialty services contractors are aware of resources; provide trauma-informed care training.
