12:00 PM

HYBRID MEETING GUIDELINES, ETTIQUETTE & REMINDERS (Updated 6.12.23)

□ This meeting is a **Brown-Act meeting** and is being recorded.

- The conference room speakers are *extremely* sensitive and will pick up even the slightest of sounds, i.e., whispers. If you prefer that your private or side conversations, <u>not</u> be included in the meeting recording which, is accessible to the public, we respectfully request that you step outside of the room to engage in these conversations.
- Turn off your ringers/notifications on your smart devices so as not to disrupt the meeting.
- Your voice is important, and we want to ensure that it is captured accurately on the record. Please be respectful of one another and minimize crosstalk.
- □ The **meeting packet** can be found on the Commission's website at <u>https://hiv.lacounty.gov/meetings/</u> or accessed via the QR code provided. Hard copies of materials will not be provided in compliance with the County's green initiative to recycle and reduce waste.
- □ Please comply with the **Commission's Code of Conduct** located in the meeting packet
- Public Comment for members of the public can be submitted in person, electronically @ <u>https://www.surveymonkey.com/r/public comments</u> or via email at <u>hivcomm@lachiv.org</u>. For members of the public attending virtually, you may also submit your public comment via the Chat box. Should you wish to speak on the record, please use the "Raised Hand" feature or indicate your request in the Chat Box and staff will call upon and unmute you at the appropriate time. Public comment is limited to 2 minutes per person. Please note that all attendees are muted unless otherwise unmuted by staff.
- For individuals joining in person, to mitigate any potential streaming interference for those joining virtually, we respectfully ask that you not simultaneously log into the virtual option of this meeting via WebEx.
- Committee members invoking AB 2449 for "Just Cause" or "Emergency Circumstances" must communicate their intentions to staff and/or co-chairs no later than the start of the meeting. Members requesting to join pursuant to AB 2449 must have their audio and video on, at all times, and disclose whether there is a person over the age of 18 in the room in order to be counted toward quorum and have voting privileges. For members joining virtually due to "Emergency Circumstances", a vote will be conducted by the Committee/COH for approval.
- Members will be required to explicitly state their agency's Ryan White Program Part A and/or CDC prevention conflicts of interest on the record (versus referring to list in the packet). A list of conflicts can be found in the meeting packet and are recorded on the back of members' name plates, courtesy of staff.

510 S. Vermont Ave 14th Floor • Los Angeles, CA 90020 • TEL (213) 738-2816 • FAX (213) 637-6748 HIVCOMM@LACHIV.ORG • http://hiv.lacounty.gov

CODE OF CONDUCT

The Commission on HIV welcomes commissioners, guests, and the public into a space where people of all opinions and backgrounds are able to contribute. In this space, we challenge ourselves to be self-reflective and committed to an ongoing understanding of each other and the complex intersectionality of the lives we live. We create a safe environment where we celebrate differences while striving for consensus in the fights against our common enemies: HIV and STDs. We build trust in each other by having honest, respectful, and productive conversations. As a result, the Commission has adopted and is consistently committed to implementing the following guidelines for Commission, committee, and associated meetings.

All participants and stakeholders should adhere to the following:

- 1) We approach all our interactions with compassion, respect, and transparency.
- 2) We respect others' time by starting and ending meetings on time, being punctual, and staying present.
- 3) We listen with intent, avoid interrupting others, and elevate each other's voices.
- 4) We encourage all to bring forth ideas for discussion, community planning, and consensus.
- 5) We focus on the issue, not the person raising the issue.
- 6) Be flexible, open-minded, and solution-focused.
- 7) We give and accept respectful and constructive feedback.
- 8) We keep all issues on the table (no "hidden agendas"), avoid monopolizing discussions and minimize side conversations.
- 9) We have no place in our deliberations for racist, sexist, homophobic, transphobic, and other discriminatory statements, and "-isms" including misogyny, ableism, and ageism.
- 10) We give ourselves permission to learn from our mistakes.

In response to violation of the Code of Conduct which results in meeting disruption, Include provisions of SB 1100 which states in part, ". . . authorize the presiding member of the legislative body conducting a meeting or their designee to remove, or cause the removal of, an individual for disrupting the meeting Removal to be preceded by a warning to the individual by the presiding member of the legislative body or their designee that the individual's behavior is disrupting the meeting and that the individual's failure to cease their behavior may result in their removal." Complaints related to internal Commission matters such as alleged violation of the Code of Conduct or other disputes among members are addressed and resolved in adherence to Policy/Procedure #08.3302." (Commission Bylaws, Article VII, Section 4.)

510 S. Vermont Ave. 14th Floor • Los Angeles, CA 90020 • TEL (213) 738-2816 • FAX (213) 637-4748 HIVCOMM@LACHIV.ORG • http://hiv.lacounty.gov • VIRTUAL WEBEX MEETING

Presence at meetings is recorded based on the attendance roll call. Only members of the Commission on HIV are accorded voting privileges and must verbally acknowledge their attendance in order to vote. Approved meeting minutes are available on the Commission's website; meeting recordings are available upon request.

Meeting agenda and materials can be found on the Commission's website at

https://hiv.lacounty.gov/standards-and-best-practices-committee/

CALL TO ORDER-INTRODUCTIONS-CONFLICT OF INTEREST STATEMENTS

The meeting was called to order at 10:08 am. Kevin Stalter led introductions.

I. ADMINISTRATIVE MATTERS

1. APPROVAL OF AGENDA

MOTION #1: Approve the agenda order, as presented (**/** Passed by consensus).

2. APPROVAL OF MEETING MINUTES

MOTION #2: Approve the 10/03/23 SBP Committee meeting minutes, as presented (/ Passed by consensus).

II. PUBLIC COMMENT

3. OPPORTUNITY FOR PUBLIC TO ADDRESS COMMISSION ON ITEMS OF INTEREST WITHIN COMMISSION JURISDICTION: There were no public comments.

III. COMMITTEE NEW BUSINESS ITEMS

4. OPPORTUNITY FOR COMMISSIONERS TO RECOMMEND ITEMS FOR FUTURE AGENDAS, OR ITEMS REQUIRING IMMEDIATE ACTION DUE TO AN EMERGENCY, OR IF NEED FOR ACTION AROSE AFTER POSTING AGENDA: Kevin There were no committee new business items.

IV. REPORTS

5. EXECUTIVE DIRECTOR/STAFF REPORT

• By-Laws Review Taskforce Updates

Cheryl Barrit, Executive Director, shared that they By-Law Review Taskforce (BRT) met on October 18, 2023 and completed their review of the bylaws document. Commission staff is working on incorporating the mark ups and present the revised document to the Executive Committee at their December meeting. C. Barrit assured attendees that once the BRT has completed their review, there will be a public comment period for Commissioners, HIV care and prevention stakeholders, and community members to provide feedback on the proposed changes.

• Commission Training Calendar

C. Barrit reminded attendees that the "Policy Priorities and Legislative Docket Development Process" training will take place on November 15, 2023 from 3:00pm to 4:30pm via WebEx. Additionally, the "Co-chair Roles and Responsibilities" training has been rescheduled to February 13, 2024 from 4:00pm to 5:00pm via WebEx. See the meeting packet for more information.

• Commission Annual Conference

C. Barrit shared that the Commission's Annual Conference will take place on November 9, 2023 starting at 9am at the Vermont Corridor. She named the speakers and presentation topics for the day and encouraged committee members attend and spread the word about the event. She added that the event will have a listen-only livestream component to allow for virtual participation. See the meeting packet for a copy of the event flyer.

6. CO-CHAIR REPORT

• "Getting to know you" activity

The Committee did not complete this activity. K. Stalter announced that for the December meeting, Committee members will talk about a holiday tradition their family practices.

• 2023 Workplan Development and Meeting Schedule Review

K. Stalter provided an overview of the 2023 Meeting schedule and workplan. The Committee decided to cancel the January 2nd, 2024 committee meeting. Commission staff will send a meeting cancellation notice.

Co-Chair Nominations

K. Stalter announced that the co-chair nominations for the Committee are now open through December 4th, 2023. The Committee will vote for the 2024 co-chair positions at the December 4th, 2023 Committee meeting. K. Stalter nominated Erika Davies for co-chair.

7. DIVISION ON HIV AND STD PROGRAMS (DHSP) REPORT

K. Stalter asked Wendy Garland, DHSP representative, if she had any updates on a request made to DHSP leadership earlier this year regarding the Emergency Financial Assistance (EFA) program. W. Garland shared that DHSP staff have presented a service utilization report for the EFA program at a meeting of the Planning and Priorities Allocation (PP&A) Committee earlier this year. She added that the EFA utilization report can be shared with SBP Committee members; C. Barrit noted that she will share the document at the end of the meeting. E. Davies recommended that the SBP Committee consider reviewing the EFA standards in 2024 with an emphasis on the \$5,000 limit and the frequency in which clients are maxing out the benefit. Russell Ybarra agreed with the recommendation to review the EFA standards stating that inflation and increases in cost-of-living expenses since the implementation of the EFA standards are not allowing clients to keep up with expenses.

V. DISCUSSION ITEMS

8. Prevention Service Standards Review

William D. King and Miguel Martinez shared updates on the Prevention Planning Workgroup (PPW) and recommendations for the Prevention Service Standards. W. King noted that the PPW will be sunsetting at the end of 2023. He added that the PPW moved the Status Neutral Framework to the PP&A Committee for review and approval.

M. Martinez noted that the Status Neutral Framework and the proposed revisions to the Prevention Standards reflect the work of the PPW and are centered around whole person care not just disease management. M. Martinez provided an overview of the proposed revisions to the Prevention service standards. He noted that the document was edited to mirror the structure of other service standards and streamlined to reduce redundancies and avoid simply listing a series of prevention best practices. The document is now divided into four sections which are "Screening and Assessments," Biomedical Prevention," and "Harm Reduction (drugs, alcohol use, and sexual activity)," and "Non-Biomedical/Behavioral Prevention." Each section includes the core service components and their respective standards and documentation. M. Martinez added that, "Figure 1- Status Neutral HIV and STI Service Delivery System Framework" was used in the development of the revisions and recommendations. See the meeting packet for a copy of the document.

Regarding the Harm Reduction section, K. Stalter asked if the standards include any information to the use of other drugs (e.g. micro dosing) non-traditional methods for managing Meth use. M. Martinez noted that the standards do not include this information however he recommended the addition of contingency management harm reduction strategies. Lauren Gersh noted that there is low promotion of contingency management programs given that they are hard to operationalize. The Committee decided to consider the addition of contingency management as a service component of the Harm Reduction section. The Committee also agreed to change the "Fentanyl Test Strips" service component to "Substance Use Test Strips" to allow for flexibility to add other substance tests in the future. COH staff will draft language to include in the next iteration of the document.

Regarding the Non-Biomedical/Behavioral Prevention section, R. Ybarra asked if there was a way to include Herpes Simplex Virus (HSV) and other ulcerative STIs to the prevention standards. He also noted that there should be an educational component for pharmacies on how to deal with prescribing Pre-Exposure Prophylaxis (PrEP). M. Martinez reminded the committee that the standards should not be prescriptive; the purpose of the document is to offer guidance to agencies providing HIV/STI prevention services with a whole person care framework in mind. He added that the prevention standards document does not include an exhaustive list of all prevention services related to HIV/STI prevention however the core service components included offer a comprehensive approach towards prevention that agencies can utilize as a starting point.

9. Universal Service Standards Review

J. Rangel-Garibay shared an update on the PPW's proposed additions to the Universal Standards regarding the Status Neutral HIV and STI Service Delivery System framework. The Universal Standards now include a description of the framework and a copy of the graphic outlining the service delivery pathways. See the meeting packet for a copy of the document. E. Davies reminded the Committee of the decision to move the Universal Standards and Patient Bill of Rights and Responsibility to a biannual review schedule with the next review of the document taking place in 2025.

MOTION #4 Approve the Universal Standards and Patient Bill of Rights and Responsibilities, as presented or revised and elevate to the Executive Committee. (*Passed; Yes: Cielo, Gersh, Mintline, Patel, Sattah, Davies; No: 0; Abstain: 0*)

VI. NEXT STEPS

10. TASK/ASSIGNMENTS RECAP:

- COH staff will revise the Prevention Standards to reflect recommendations from today's discussions and present an updated version for Committee review at their December 2023 meeting.
- COH staff will revise typos on the Universal Standards and elevate the document to the Executive Committee for review and approval.
- COH staff will send an announcement noting that Co-Chair nominations for the SBP Committee will open today and close on December 5th, 2023. The announcement will include a list of the Committee members eligible for nomination.

11. AGENDA DEVELOPMENT FOR NEXT MEETING:

- Continue review of the Prevention Services standards.
- Review the list of standards pending review.
- Draft workplan and meeting schedule for 2024.

VII. ANNOUNCEMENTS

12. OPPORTUNITY FOR PUBLIC AND COMMITTEE TO MAKE ANNOUNCEMENTS: There were no announcements.

VIII. ADJOURNMENT

13. ADJOURNMENT: The meeting adjourned at 11:00am.

COMMISSION MEMBER "CONFLICTS-OF-INTEREST"

Updated 10/23/23

In accordance with the Ryan White Program (RWP), conflict of interest is defined as any financial interest in, board membership, current or past employment, or contractual agreement with an organization, partnership, or any other entity, whether public or private, that receives funds from the Ryan White Part A program. These provisions also extend to direct ascendants and descendants, siblings, spouses, and domestic partners of Commission members and non-Commission Commission Committee-only members. Based on the RWP legislation, HRSA guidance, and Commission policy, it is mandatory for Commission members to state all conflicts of interest regarding their RWP Part A Band/or CDC HIV prevention-funded service contracts prior to discussions involving priority-setting, allocation, and other fiscal matters related to the local HIV continuum. Furthermore, Commission members must recuse themselves from voting on any specific RWP Part A service category(ies) for which their organization hold contracts.*An asterisk next to member's name denotes affiliation with a County subcontracted agency listed on the addendum.

LOS ANGELES COUNTY COMMISSION ON HIV 2023 STANDARDS AND BEST PRACTICES WORKPLAN (Updates in RED)

Co	Chairs: Erika Davies, Kevin Stalter	r				
Ad	opted on: <mark>03/07/23</mark>					
Purpose of Work Plan: To focus and prioritize key activities for SBP Committee for 2023.						
#	TASK/ACTIVITY	DESCRIPTION	TARGET COMPLETION DATE	STATUS/NOTES/OTHER COMMITTEES INVOLVED		
1	Review and refine 2023 workplan	COH staff to review and update 2023 workplan monthly	Ongoing, as needed	Workplan revised/updated on: 01/03/23, 02/02/23, 02/28/23, 03/21/23, 5/1/23, 7/28/23, 9/29/23, 10/19/23, 11/29/23		
2	Provide feedback on implementation of the Comprehensive HIV Plan (CHP)	Collaborate with the PP&A Committee to support the implementation of the CHP	Ongoing, as needed			
3	Update the Oral Health Care service standards	Continue review initiated in 2022.	Apr 2023	Committee announced public comment period from 01/04/23- 02/05/23. Committee approved and elevated document to Executive Committee. EC approved document on 03/23/23. COH approved the document on 4/13/23.		
4	Update Universal service standards and Consumer Bill of Rights	Annual review of the standards. Revise/update document as needed.	Jun 2023 Jan 2024	Committee announced public comment period starting on 5/2/23. COH staff collected feedback from Consumer Caucus on 7/23/23. The Committee reviewed comments received and approved the document at their 11/7/23 meeting. The document was elevated to the Executive Committee for review and approval on 12/12/23.		
5	Update Nutrition Support Service Standards	Review and revise/update document as needed	Aug 2023	Committee announced public comment period from 06/09/23- 07/10/23. Committee approved and elevated document to Executive Committee. EC approved document on 07/27/23. The COH approved the Nutrition Support Services standards at the 08/10/23 meeting.		
6	Update the Medical Care Coordination (MCC) service standards	Committee received a public comment requesting for a review and update of the MCC services standards.	Oct 2023 Jan 2024	Wendy Garland from DHSP delivered a presentation on the MCC program overview at the March meeting. Members that helped develop the MCC Workforce Survey will present key findings at May meeting. Committee approved the MCC standards and elevated to the Executive Committee. The EC approved the standards on 10/26. The document will be reviewed and voted for approval at the January 2024 COH meeting.		

LOS ANGELES COUNTY COMMISSION ON HIV 2023 STANDARDS AND BEST PRACTICES WORKPLAN (Updates in RED)

7	Update Prevention Service	Review and revise/update	Nov 2023	Committee forwarded the document to the Prevention Planning
	standards	document as needed	Jan 2024	Workgroup for review at their 07/26/23 meeting. The PPW co- chairs presented the proposed revisions to the Prevention
				Standards on 11/7/23. The Committee will continue their review at their 12/5/23 meeting. If approved, the document will be elevated to the Executive Committee for review and approval on 12/12/23.
8	Update the Transitional Case		Late 2023	The Committee will review their meeting calendar in June to
	Management: Youth service standards		2024	determine next steps for this item.
9	Develop Transitional Case Management: 50+ service standards	Collaborate with the Aging Caucus to develop a TCM service standard that focused on healthcare navigation between the Ryan White Care System, Medi-Cal, and Medi-Care for people living with HIV 50+	Late 2023 2024	The Committee will review their meeting calendar in June to determine next steps for this item.

10am to 12pm	Draft standards review schedule	

LOS ANGELES COUNTY COMMISSION ON HIV PREVENTION SERVICES STANDARDS

Revised 10/25/23

INTRODUCTION

Service standards outline the elements and expectations a service provider follows when implementing a specific service category. Service standards set the minimum level of care agencies should offer to clients. The Standards are intended to help agencies meet the needs of their clients. Providers are encouraged to exceed these standards. The Los Angeles County Commission on HIV developed the Prevention Service Standards to reflect current guidelines from federal and national agencies on HIV and STI prevention, and to establish the minimum standards of service delivery necessary to achieve optimal health among people with increased risk of HIV and STIs, regardless of where services are received in the County. Because there are many different types of organizations that may provide prevention services, not every category of prevention standards described herein will be applicable to all agencies. For example, an agency that provides HIV/STI testing only, will not necessarily be expected to provide adherence services for clients who are accessing pre-exposure prophylaxis (PrEP).

The development of the Standards includes guidance from service providers, the Los Angeles County Department of Public Health, Division of HIV and STD Programs (DHSP), and members of the Los Angeles County Commission on HIV (COH), Standards and Best Practices Committee and the COH Prevention Planning Workgroup (2022-2023).

SERVICE DESCRIPTION

Prevention Services are those services used alone or in combination to prevent the transmission of HIV and STIs. The early diagnosis and treatment of STIs is vital to interrupting of transmission of STIs as well as HIV. Prevention Services include HIV and STI screening, biomedical interventions, non-biomedical/behavioral interventions, social services, harm reduction, and medical interventions.

The Los Angeles County Commission on HIV's Status Neutral HIV and STI Service Delivery System Framework, depicted in Figure 1 below, was used to guide the development of the Prevention Service Standards. The Status Neutral HIV and STI Service Delivery System Framework was developed in 2023 and adapted from the Centers for Disease Control and Prevention Status Neutral HIV Prevention and Care framework. This framework functions to provide an overview of the comprehensive support and care critical to addressing the social determinants of health that create disparities, especially as they relate to HIV and STIs. Continuous preventive, medical care and supportive services are highlighted as part of an ongoing effort by patient and provider to maintain engagement in clinical preventive care or treatment. A status-neutral approach to HIV care and prevention means that all people, regardless of HIV status, are treated in the same way. Engagement in the status neutral HIV and STI service delivery system starts with an HIV and/or STI test. Any result, positive or negative, initiates further engagement with the service delivery system, leading to a common goal, where HIV and STIs are neither acquired nor transmitted. The result is a dynamic trajectory into and through the continuum depending on test results. The figure emphasizes the continuous return of HIV negative persons to HIV/STI testing and linkage and engagement in care of persons diagnosed with HIV or STIs. When done effectively, rapidly linking newly diagnosed people to HIV/STI treatment

and those who test negative to ongoing prevention services will result in the decrease of new HIV and STI infections and support for people with diagnosed HIV (PLWH) to thrive with and beyond HIV and for those with diagnosed STIs to receive treatment and access to prevention strategies.

Figure 1 - Status Neutral HIV and STI Service Delivery System Framework

(Framework adapted from the <u>Centers for Disease Control and Prevention Status Neutral HIV Prevention and Care framework</u>)

The status neutral framework reaches beyond established HIV and STI prevention & care systems and works to create pathways to vital medical and supportive services that meet the needs of individuals regardless of their HIV or STI status and is not centered solely around meeting disease specific needs. The benefits of a status neutral approach include: a reduction in institutionalized stigma for people with HIV (PWH), a reduction in stigma associated with STIs, increased efficiencies that improves resource utilization, and gained knowledge/insight from various service deliveries.

BACKGROUND

PURPOSE: Prevention Service Standards outline the essential elements of service delivery a provider agency must adhere to when implementing HIV and STI prevention services. The purpose of the service standards is to ensure consistent high-quality service delivery throughout Los Angeles County. Service standards establish the minimal level of service delivery. Providers are encouraged to exceed this minimal level if able to, given their capacity and scope.

A multitude of factors at the structural-, environmental-, interpersonal-, and individual-level impact the risk of HIV and STI infection. Therefore, a multitude of strategies (e.g., housing, employment, social marketing, counseling, condom distribution, etc.) may also serve to prevent the acquisition of HIV and STIs. Because it is not feasible to create standards for every potential prevention service, the HIV and STI Prevention Service Standards described in this document focus on ensuring that every individual at risk of acquiring or transmitting HIV infection and/or STIs is successfully connected to and retained in the prevention service(s) that are appropriate for them at any given point in time.

Additionally, because there are many different types of organizations that may provide prevention services, not every category of prevention standards described herein will be applicable to all agencies. For example, an agency that provides HIV/STI testing only, will not necessarily be expected to provide adherence services for clients who are accessing PrEP.

DEFINITION OF HIV AND STI PREVENTION SERVICES: HIV and STI Prevention Services are those services used alone or in combination to prevent the transmission of HIV and STIs. Prevention services may include Biomedical Prevention, Non-biomedical/Behavioral Prevention, and Harm Reduction. *Biomedical* HIV prevention refers to HIV prevention methods that use antiretroviral treatment (ART) to decrease the risk of HIV transmission by reducing the viral load of people living with HIV (PLWH) and/or by reducing the susceptibility of HIV infection among HIV-negative individuals (via PrEP and PEP). Additionally, biomedical STI prevention refers to prevention methods that use antibiotics (DoxyPEP) and vaccination to decrease the risk of STIs. *Non-biomedical* HIV and STI prevention refers to strategies that aim to alter behaviors that make individuals more vulnerable to HIV and/or STI acquisition. *Harm Reduction* refers to a set of strategies that reduce the harms associated with substance use. These strategies can reduce behaviors resulting in elevated risk of HIV infection among injecting and non-injecting drug users.

UNIVERSAL HIV AND STI PREVENTION SERVICE STANDARDS: In order to achieve the goal of reducing new HIV and STI infections, prevention services in Los Angeles County must include the following universal standards:

- Staff members meet the minimum qualifications for their job position and have the knowledge, skills, and ability to effectively fulfill their role and the communities served. If a position requires licensed staff, staff must maintain licensure to provide services.
- Staff participation in trainings appropriate to their job description and program including, but not limited to partnering with LGBTQ+/Transgender community, HIV Navigation Services (HNS), STI transmission and treatment, trauma-informed care, Narcan/naloxone use, fentanyl testing, cultural competence and implicit bias.
- Provide services that are accessible and non-discriminatory to all people with a focus on highly impacted populations.
- Educate staff and clients on the importance of screening, biomedical prevention, nonbiomedical prevention, and harm reduction to reduce the risk of HIV and STI transmission.
- Protect client rights and ensure quality of services.
- Provide client-centered, age appropriate, culturally, and linguistically competent service delivery.
- Provide high quality services through experienced and trained staff.
- Meet federal, state, and county requirements regarding safety, sanitation, access, and public health.
- Guarantee client confidentiality and protect the right of client autonomy.
- Prevent information technology security risks and protect patient information and records.
- Inform clients of services and collect information through an intake process.
- Effectively assess client needs and encourage informed and active participation.
- Address client needs through coordination of care and referrals to needed services.
- Ensure that the quality of service and materials given to patients during telehealth encounter is similar with in-person visits.
- Attend to clients' overall physical health, mental health, and spiritual health, as guided by each individual client.
- Address the social determinants of health such as economic and social conditions that influence the health of individuals and communities.
- Use a strength-based approach to service design and seeks to understand and develop clients' strengths and capabilities that can lead to improved health and quality of life.
- Ensure a sex positive environment and interaction with clients.
- Adopt trauma-informed approaches to interacting with patients.

Summary of Core Prevention Service Components: The HIV and STI Prevention Service Standards seek to ensure the provision of a core set of integrated HIV and STI prevention services aimed at preventing the acquisition and transmission of HIV and STIs. The Core Prevention Service Components are Screening and Assessments, Biomedical Prevention, Harm Reduction (drugs, alcohol use and sexual activity), and Non-biomedical/Behavioral Prevention. These Core Prevention Service Components are complementary and should be used collectively to maximize prevention efforts.

Screening and Assessments

SERVICE COMPONENT	STANDARD	DOCUMENTATION
Intake	Initiate a client record at first clinic visit or client interaction.	 Intake tool in client file to include (at minimum): Documentation of HIV/STI status (if applicable) Proof of LA County residency or Affidavit of Homelessness Verification of program and financial eligibility (if applicable) Date of intake Client name, home address, mailing address and telephone number Emergency and/or next of kin contact name, home address and telephone number Signed and dated Release of Information, Limits of Confidentiality, Consent, Client Rights and Responsibilities
Assessment	Comprehensive assessments are completed in a cooperative process between staff and the client during first visit/appointment. Alternatively, clients may complete online assessments prior to their first visit. Comprehensive assessment is conducted to determine the: • Client's needs for prevention and medical services, and support services including housing and food needs • Client's current capacity to meet those needs/identify barriers that address needs	 Comprehensive assessment on file in client chart to include: Date of assessment Signature and title of staff person conducting assessment Completed assessment form Client strengths, needs and available resources in the following areas: Medical/physical healthcare Medications and Adherence issues Mental health

	1
Client's Medical Home	 Substance use and/or substance use
 Ability of the client's social support network to help 	HCV/HIV dual diagnosis, if applicable
meet client needs	 Nutrition/food
Extent to which other agencies are involved in	Housing and living situation
client's care	Family and dependent care issues
	Gender Affirming Care including access to
	hormone replacement therapy, gender
	affirming surgical procedures, name
	change/gender change clinics and other related services.
	Transportation
	Language/literacy skills
	Religious/spiritual support
	Social support system
	Relationship history
	 Domestic violence/Intimate Partner Violence (IPV)
	History of physical or emotional trauma
	Financial resources
	Employment and Education
	Legal issues/incarceration history
	Knowledge/beliefs about HIV/STIs/Hepatitis
	 Agencies that serve the client and/or
	household
Staff will conduct reassessments with the client as	Date of reassessment
needed.	 Signature and title of staff person conducting reassessment
	Completed reassessment form

	Staff will conduct appropriate HIV and/or STI tests based on sexual health history or client request.	Documentation of HIV/STI testing in client files and data management system.
HIV Testing	HIV/STI testing must be voluntary and free from coercion. Patients/ clients must not be tested without their knowledge/ written consent.	Documentation of patient consent.
	Provide immediate and, if necessary, repeated, linkage services to persons with a preliminary positive HIV test result or a confirmed HIV diagnosis.	Documentation of linkage to care.

BIOMEDICAL PREVENTION

SERVICE COMPONENT	STANDARD	DOCUMENTATION
Treatment as Prevention (for PLWH)	Provide antiretroviral treatment (ART) to persons with diagnosed HIV within 3 days of diagnosis.	Documentation of treatment and prescription orders on file.
	For patients who choose to postpone treatment, periodically reoffer ART after informing them of the benefits and risk of currently recommended regimens.	Documentation of care follow-up and timeline.
	Help persons enroll in health insurance or medical assistance programs that provide HIV care or cover costs of care.	Documentation of referrals or appointments with benefits specialists.
	Offer navigation assistance and support to encourage active participation in care.	Documentation of navigation assistance and/or referral.
	Establish procedures to identify patients at risk for lapses in care or services that support their continued care.	Documentation of chart reviews and internal procedures for maintaining engagement in care.
	Assess patients risk for STI acquisition.	STI risk assessments on file.
	Provide treatment for patients to test positive for an STI.	Documentation of STI treatment plan and medication prescriptions.
Testing and Treatment of STIs	Ensure client is linked to services that cover the cost of treatment.	Documentation of linkage to services.
	Conduct follow up testing 3 months after positive test to ensure STI has been treated appropriately.	Documentation of follow-up.
	Provide vaccination for HPV and HCV, as recommended.	Vaccination record.
PrEP/PEP	Assess a client's risk of HIV acquisition.	Risk assessments on file.
	Provide clients with a PrEP/PEP Navigator/ Navigation Services	Documentation of service in client files.
	Provide PrEP prescription that addresses the specific needs of the client.	Documentation of service in client files.

	Assess a client's risk of STI acquisition.	STI risk assessments on file.
DoxyPEP	Provide DoxyPEP prescription to clients at risk of STI acquisition.	Documentation of STI treatment plan and medication prescriptions.
	Identify client's recent sexual and/or injection drug use partner(s).	Documentation of partner services offer.
	Notify partner(s) of potential exposure to HIV and/or STI.	Documentation of partner notification.
Partner Services	Offer appropriate HIV and/or STI treatment and care plan to partner(s).	Documentation of treatment provided to partners.
	Conduct follow up to ensure partner(s) adherence to treatment/care.	Documentation of follow-up.
	Refer clients to expedited partner services, as needed.	Documentation of referral.

HARM REDUCTION (drugs, alcohol use and sexual activity)

SERVICE COMPONENT	STANDARD	DOCUMENTATION
Narcan/Naloxone	Partner with agencies/ organizations to provide training to clients on how to use nasal Narcan and/or injectable naloxone.	Documentation of training.
	Partner with agencies/ organizations to provide free or low-cost Narcan and/or naloxone to clients.	Documentation of Narcan/naloxone distributed.
Substance Test Kits	Partner with agencies/ organizations to provide training to clients on how to use fentanyl test strips, and other drug/substance testing kits.	Documentation of training.
Drug Test Kits	Partner with agencies/ organizations to provide free or low-cost fentanyl test strips and other drug/substance testing kits	Documentation of test strips distributed.
Syringe Services Programs	 Partner with agencies/ organizations to provide syringe services that include: Needle exchange Safe disposal Nasal spray Narcan Injectable Naloxone Condoms Wound care kit Safer smoking supplies (pipes, mouthpieces, cleaning supplies) 	Documentation of items collected and/or distributed.
Peer Support	Provide referrals and assist with linkage to peer support as related to substance use disorder.	Documentation of referral.
Contingency	Provide referrals and assist with linkage to Contingency	Documentation of referral.
Management	Management programs for stimulant use disorder.	
Mobile/Street	Provide mobile and/or street medicine to clients, where	Documentation of schedules, services provided/used,
Medicine	feasible.	etc.

Medication for Addiction Therapy (MAT)	Provide medication for addiction therapy for clients identified with substance use disorder.	Documentation of treatment provided.
NON-BIOMEDICAL/E	SEHAVIORAL PREVENTION	

NON-BIOMEDICAL/BEHAVIORAL PREVENTION

SERVICE COMPONENT	STANDARD	DOCUMENTATION
Education/Counseling	 Provide HIV and STI education. Sessions will focus on Health Education/Risk Reduction Prevention, Behavior Change Skills Building and increasing knowledge of access to care services based on the client's risk assessment. Sessions can be provided on a one-to-one basis or group setting depending on the client's preference, need and/or environment. Sessions can be conducted on an ongoing basis, depending on need, and can be from 1 to 3 weekly or 	Documentation of program manuals and curricula.
	semi-monthly sessions. Provide PrEP/PEP education and counseling for clients at risk of HIV acquisition.	Documentation of program manuals and curricula.
	Provide DoxyPEP education and counseling for clients at risk of STI acquisition.	Documentation of program manuals and curricula.
	Provide education for PLWDH on the importance of maintaining an undetectable viral load, the importance of adhering to care, and increase their capacity to engage their own care.	Documentation of program manuals and curricula.
	Offer free or low cost internal and external condoms and dental dams.	Documentation of safer sex supplies provided client.
Supportive Services	Assess the client's need for supportive services.	Completed assessment on file.

	Provide referrals and assist with linkage to supportive	Documentation of referrals.
	services. Services may include:	
	 syringe exchange 	
	 housing services 	
	mental health services	
	substance abuse services	
	 food and nutrition support 	
	 employment services 	
	 unemployment financial assistance 	
	 drug assistance programs 	
	 health insurance navigation 	
	childcare	
	 legal assistance 	
	 other services, as identified and needed 	
	 health literacy education 	
	 peer support 	
	Referrals should be to local facilities, clinics, and service	
	providers in the area of the client minimizing	
	transportation barriers.	
Social Marketing and	Outreach to potential clients/families and providers.	Outreach plan on file.
Outreach	Collaborate with community partners and health care	Documentation of partnerships.
Outreach	providers to promote services.	
	Provide navigation assistance for linkage to supportive	Documentation of services offered.
	services.	
Navigation Services	Health Navigators will canvas the target areas to identify	Activity logs on file.
	and document all available service providers that can be	
	used as referral sources for clients.	
	Health Navigators will become familiar with the access,	Training or resources identified by staff on file.
	referral, and intake process to educate clients of this	
	process when providing referral for services.	

Follow up session should be conducted to re-access	Documentation of reassessment.
clients' current situation and, if needed, additional	
services.

IMPORTANT: Service standards must adhere to requirements and restrictions from the federal agency, Health Resources and Services Administration (HRSA). The key documents used in developing standards are as follows:

- Ryan White HIV/AIDS Program Services: Eligible Individuals & Allowable Uses of Funds Policy Clarification Notice (PCN) #16-02 (Revised 10/22/18)
- <u>HIV/AIDS Bureau</u>, Division of Metropolitan <u>HIV/AIDS Programs National Monitoring</u> <u>Standards for Ryan</u> <u>White Part A Grantees: Program – Part A</u>
- <u>Service Standards: Ryan White HIV/AIDS Programs</u>

Introduction

Standards of Care outline the elements and expectations a Ryan White service provider follows when implementing a specific service category. Standards of Care are available for each service category to set the minimum level of care Ryan White funded agencies should offer to clients. The Standards are intended to help Ryan White Part A funded agencies meet the needs of their clients. Providers are encouraged to exceed these standards.

The Los Angeles County Commission on HIV (COH) developed the Universal Standards of Care to reflect current guidelines from federal and national agencies on HIV care and treatment, and to establish the minimum standards of care necessary to achieve optimal health among people living with HIV (PLWH), regardless of where services are received in Los Angeles County (LAC). The development of the standards includes guidance from service providers, consumers, members of the COH and the Standards and Best Practices (SBP) Committee.

Additionally, providers are encouraged to adopt the "Status Neutral HIV and STI Service Delivery System Framework," that addresses both HIV care and prevention and is responsive to the unique needs of their clients (see **Figure 1**). The framework functions to provide comprehensive support and care to address the social determinants of health that create HIV and STI disparities. A status-neutral approach means that all people are treated in the same way and are linked to preventive care, medical care, and supportive services, regardless of HIV or STI status. When done effectively, rapidly linking newly diagnosed people to HIV treatment and those who test negative to ongoing prevention services will decrease new HIV infections, support positive people to thrive with and beyond HIV, and works to reduce health disparities.

Los Angeles County Commission on HIV

Universal Standards Overview

The objectives of the Universal Standards are to ensure agencies:

- Provide services that are accessible and non-discriminatory to all PLWH in LAC.
- Educate staff and clients on the importance of receiving care, treatment as prevention, and how maintaining an undetectable viral load will result in little to no risk of HIV transmission.
- Protect client rights and ensure quality of care.
- Provide client-centered, age appropriate, culturally, and linguistically competent care.
- Provide high quality services through experienced and trained staff.
- Meet federal, state, and county requirements and guidelines regarding safety, sanitation, access, and public health.
- Guarantee client confidentiality, protect client autonomy, and ensure a fair process of addressing grievances.
- Prevent information technology security risks and protect patient information and records.
- Inform clients of services, establish eligibility, and collect information through an intake process.
- Effectively assess client needs and encourage informed and active participation.
- Address client needs through coordination of care and referrals to needed services.
- Ensure that the quality of service and materials given to patients during telehealth encounter is similar with in-person visits.

Section 1.0—General Agency Policies

All agencies offering Ryan White services must have written policies that address client confidentiality, release of information, client grievance procedures, and eligibility. Agency policies and procedures facilitate service delivery as well as ensure safety and well-being of clients and staff. Agencies are encouraged to build their telehealth technology infrastructure and capacity to include videoconferencing to facilitate patient-provider connectivity and relationships.

1.0 G	1.0 GENERAL AGENCY POLICIES		
	STANDARD	DOCUMENTATION	
1.1	Agency develops or utilizes an existing client confidentiality policy in accordance with state and federal laws to assure protection of client HIV status, behavioral risk factors, and/or use of services.	Written client confidentiality policy on file with specific information technology safeguards for confidentiality and patient information if using telehealth service modality.	
1.2	Agency is responsible for informing the patient that they have the right to obtain copies of their medical and other health records maintained by the agency.	Written policy for informing the patient of their rights to receive a copy of their medical records. The policy should contain a description of the process for obtaining records, such as a verbal or written request and a reasonable timeframe for patients to receive the information.	
1.3	Client determines what information of theirs can be released and with whom it can be	Completed <i>Release of Information Form</i> on file including: Name of agency/individual 	

Los Angeles County Commission on HIV

	shanad Osmilara (1997) 199	
	shared. Services using telehealth modality are subject to consent by the patient.	 with whom information will be shared Information to be shared Duration of the release consent Client signature For agencies and information covered by the Health Insurance Portability and Accountability Act (HIPAA), form must be HIPAA disclosure authorization compliant. The form must also be compliant with the CA Medi-Cal telehealth policy.¹
1.4	Agency develops or utilizes an existing grievance procedure to ensure clients have recourse if they feel they are being treated in an unfair manner or feel they are not receiving quality services.	 Written grievance procedure on file that includes, at minimum: Client process to file a grievance Information on the Los Angeles County Department of Public Health, Division of HIV & STD Programs (DHSP) Customer Support Program<u>2</u> 1-800-260-8787.
		DHSP Customer Support Program information is posted in a visible location on site or provided to the patient at the beginning of a telehealth encounter.
1.5	Agency provides eligibility requirements for services available upon request. Eligibility requirements must follow guidance from Division of HIV & STD Programs (DHSP) and HRSA under <u>Policy Clarification Notice #16- 023</u>	Written eligibility requirements on file.
1.6	All client files are stored in a secure and confidential location, and electronic client files are protected from unauthorized use. Protection of client files and information must cover use of electronic medical records, phones, text messages, email, and telehealth modalities.	Client files must be locked and/or password protected with access provided only to appropriate personnel. Agencies must establish written procedures and IT policies for message encryption and restrictions on staff access to protect client information.
1.7	Agency maintains progress notes of all communication between provider and client.	 Legible progress notes maintained in individual client files that include, at minimum: Date of communication or service Service(s) provided Recommended referrals linking clients to needed services (See Section 6: Referrals and Case Closure)
1.8	Agency develops or utilizes an existing crisis management policy.	 Written crisis management policy on file that includes, at minimum: Mental health crises Dangerous behavior by clients or staff

Page 6

Los Angeles County Commission on HIV

1.9	Agency develops a policy on utilization of Universal Precaution Procedures <u>4.5</u> . Staff members are trained in universal precautions.	Written policy or procedure on file. Documentation of staff training in personnel file.
1.10	Agency ensures compliance with Americans with Disabilities Act <u>6</u> (ADA) criteria for programmatic accessibility (e.g. building and design accessibility, parking, etc.). For agencies with multiple sites, all sites must comply with the ADA requirements.	ADA criteria on file at all sites.
1.11	Agency complies with all applicable state and federal workplace and safety laws and regulations, including fire safety.	Signed confirmation of compliance with applicable regulations on file.

Section 2.0—Client Rights and Responsibilities

A key component of HIV/AIDS service delivery is the historic and continued involvement of people living with HIV in the design and evaluation of services. The quality of care and quality of life for people living with HIV/AIDS is maximized when people living with HIV are active participants in their own health care decisions with their providers. This can be facilitated by ensuring that clients are aware of and understand the importance of their input in the development of HIV programming.

2.0 CI	2.0 CLIENT RIGHTS AND RESPONSIBILITIES		
	STANDARD	DOCUMENTATION	
2.1	Agency ensures services are available to any individual who meets the eligibility requirements for the specific service category.	Written eligibility requirements on file. Client utilization data made available to funder.	
2.2	Agency includes input from people living with HIV/AIDS in the design and evaluation of services to ensure care is client centered.	 Written documentation of how input was received to inform service planning and evaluation in regular reports. Lists may include: Consumer Advisory Board meetings Participation of people living with HIV in HIV program committees or other planning bodies Needs assessments Anonymous patient satisfaction surveys. Discreet drop off boxes should be available in various sites throughout the agency and/or anonymous electronic follow-up surveys emailed to patients after their appointment. 	
2.3	Agency ensures that clients receive information technology support and training on how to use telehealth services.	Written checklists and/or "how to" guides are provided to patients prior to their telehealth appointment. Materials may be	

Los Angeles County Commission on HIV

		 emailed to patient and/or posted on the agency website. The document should contain at least the following information: Instructions on how to use telehealth tools (i.e., phone, laptop, tablets, etc.) in plain language and available in the patient's preferred language. Telephone number for technical support or trouble shooting available before, during and after the telehealth appointment.
2.4	Agency ensures that clients retain the right to accept or decline a telehealth visit. The ultimate decision on the mode of service delivery, whether in- person or telehealth, must be determined by the client first before an appointment is made.	Written procedures and telehealth acceptance or denial form completed by patients prior to the appointment.
2.5	 Agency provides each client a copy of the Patient & Client Bill of Rights & Responsibilities (Appendix B) document that informs them of the following: Confidentiality policy Expectations and responsibilities of the client when seeking services Client right to file a grievance Client right to access their file (if psychotherapy notes cannot be released per clinician guidance, agency should provide a summary to client within 30 days) Reasons for which a client may be removed from services and the process that occurs during involuntary removal 	Patient and Client Bill of Rights document is signed by client and kept on file.

Section 3.0—Staff Requirements and Qualifications

Staff must be well qualified and, if necessary, hold all required licenses, registration, and/or degrees in accordance with applicable State and federal regulations as well as requirements of the Los Angeles County Department of Public Health, Division of HIV & STD Programs. At minimum, all staff will be able to provide timely, linguistically, and culturally competent care to people living with HIV. Staff will complete orientation through their respective hiring agency, including a review of established

Page

Los Angeles County Commission on HIV

programmatic guidelines, and supplemental trainings as required by the Los Angeles County Department of Public Health, Division of HIV and STD Programs. The AIDS Education Training Center (AETC)7 offers a variety of training for the HIV workforce.

3.0 S	3.0 STAFF REQUIREMENTS AND QUALIFICATIONS	
	STANDARD	DOCUMENTATION
3.1	Staff members meet the minimum qualifications for their job position and have the knowledge, skills, and ability to effectively fulfill their role and the communities served. Employment is an essential part of leading an independent, self-directed life for all people, including those living with HIV/AIDS. Agencies should develop policies that strive to hire PLWH in all facets of service delivery, whenever appropriate.	Hiring policy and staff resumes on file.
3.2	If a position requires licensed staff, staff must be licensed to provide services.	Copy of current license on file.
3.3	 Staff will participate in trainings appropriate to their job description and program a. Required education on how a client achieving and maintaining an undetectable viral load for a minimum of six months will not sexually transmit HIV. Continuing to take HIV medications as directed is imperative to stay undetectable. b. Staff should have experience in or participate in trainings on: LGBTQ+/Transgender community and HIV Navigation Services (HNS)⁸ provided by Centers for Disease Control and Prevention (CDC). Trauma informed care Providing care for older adults 	Documentation of completed trainings on file
3.4	 New staff will participate in trainings to increase capacity for fulfilling the responsibilities of their position. a. Required completion of an agency-level orientation within 6 weeks of hire b. Training within 3 months of being hired appropriate to the 	Documentation of completed trainings on file

Page **9**

Los Angeles County Commission on HIV

	job description. c. Additional trainings appropriate to the job description and Ryan White service category.	
3.5	Staff are required to coordinate across Ryan White funded and non-funded programs to ensure clients' needs are met.	Documentation of staff efforts of coordinating across systems for the client on file (e.g. housing case management services, etc.).

Section 4.0—Cultural and Linguistic Competence

Ryan White funded agencies must provide services that are culturally and linguistically competent based on the National Standards for Culturally and Linguistically Appropriate Services9 (CLAS) in Health and Health Care. As noted in the CLAS Standards10, ensuring culturally and linguistically appropriate services advances health equity, improves quality, and helps eliminate health care disparities by establishing a blueprint for health and health care organizations. For the purpose of these standards, culture is defined as the integrated pattern of thoughts, communications, actions, customs, beliefs, values, and institutions associated, wholly or partially, with racial, ethnic, or linguistic groups, as well as with religious, spiritual, biological, geographical, or sociological characteristics. The standards below are adapted directly from the National CLAS Standards.

Agencies should also strive towards acknowledging implicit bias, how it plays a role in service delivery, and how it can be addressed and countered. Agencies must provide services that align with strategies to reduce implicit bias by the Institute for Healthcare Improvement. For the purpose of the standards, implicit bias refers to the attitudes or stereotypes that affect our understanding, actions, and decisions in an unconscious manner. These biases, which encompass both favorable and unfavorable assessments, are activated involuntarily and without an individual's awareness or intentional control. Residing deep in the subconscious, these biases are different from known biases that individuals may choose to conceal for the purposes of social and/or political correctness.

Cultural competence and acknowledging implicit bias rely on behaviors, attitudes, and policies that come together in a system, agency, or among individuals that reduces stigma and enables effective delivery of services. Linguistic competence is the ability to communicate effectively with clients, including those whose preferred language is not the same as the provider's, those who have low literacy skills, and/or those with disabilities. Cultural and linguistic competence is a goal toward which all service providers must aspire, but one that may never be completely achieved given the diversity of languages and cultures throughout our communities, and understanding that culture is dynamic in nature, and individuals may identify with multiple cultures over the course of their lifetime. However, agencies should ensure staff are involved in a continual process of learning, personal growth, and training that increases cultural and linguistic competence, addresses implicit bias, decreases stigma, and enhances the ability to provide appropriate services to all individuals living with HIV/AIDS.

Federal and State language access laws require health care facilities that receive federal or state funding to provide competent interpretation services to limited English proficiency patients at no cost, to ensure equal and meaningful access to health care services. Interpretation refers to verbal

Los Angeles County Commission on HIV

communication where speech is translated from a speaker to a receiver in a language that the receiver can understand. Translation refers to the conversion of written material from one language to another.

4.0 C	4.0 CULTURAL AND LINGUISTIC COMPETENCE		
	STANDARD	DOCUMENTATION	
4.1	Recruit, promote, and support a culturally and linguistically diverse workforce that are responsive to the population served.	Documentation of how staff demographics reflect the demographics of clients served on file (e.g. race, gender identity, age, sexual orientation, lived experience etc.)	
4.2	Agency develops or utilizes existing culturally and linguistically appropriate policies and practices. Agency educates and trains workforce on culturally and linguistically appropriate practices on an ongoing basis.	Written policy and practices on file Documentation of completed trainings on file.	
4.3	Provide resources onsite to facilitate communication for individuals who experience impairment due to a challenging medical condition or status (e.g. augmentative and alternative communication resources or auxiliary aids and services).	 Resources on file a. Checklist of resources onsite that are available for client use. b. Type of accommodations provided documented in client file. 	
4.4	Inform all individuals of the availability of language assistance services clearly and in their preferred language, verbally and in writing.	Signed Patient & Client Bill of Rights and Responsibilities document on file that includes notice of right to obtain no-cost interpreter services.	
4.5	Ensure the competence of individuals providing language assistance a. Use of untrained individuals and/or minors as interpreters should be avoided b. Ensure quality of language skills of self-reported bilingual staff who use their non-English language skills during client encounters	Staff resumes and language certifications, if available, on file.	
4.6	Provide easy-to-understand print and multimedia materials and signage in the languages commonly used by the populations in the service area in clinic points of entry (e.g. registration desks, front desks, reception, waiting rooms, etc.) and areas where work with client is performed (e.g. clinic rooms, meeting rooms, etc.).	Materials and signage in a visible location and/or on file for reference.	

Section 5.0—Intake and Eligibility

All clients who request or are referred to HIV services will participate in an intake process conducted by appropriately trained staff. The intake worker will review client rights and responsibilities, explain

Los Angeles County Commission on HIV

available services, the confidentiality and grievance policy, assess immediate service needs, and secure permission to release information.

5.0 IN	5.0 INTAKE AND ELIGIBILITY		
	STANDARD	DOCUMENTATION	
5.1	Intake process begins within 5 days of initial contact and is completed within 30 days of initial contact with client.	 Completed intake on file that includes, at minimum: Client's legal name, name if different than legal name, and pronouns Address, phone, and email (if available). A signed affidavit declaring homelessness should be kept on file for clients without an address. Preferred method of communication (e.g., phone, email, or mail) Emergency contact information Preferred language of communication Enrollment in other HIV/AIDS services. Primary reason and need for seeking services at agency If client chooses not to complete the intake within 30 days of initial contact, document attempts to contact client and mode of communication in client file. 	
5.2	Agency determines client eligibility.	 Documentation includes: Los Angeles County resident Income equal to or below the required Federal Poverty Level (FPL) as determined by Division of HIV & STD Programs Verification of HIV diagnosis 	

Section 6.0—Referrals and Case Closure

A client case may be closed through a systematic process that includes case closure justification and a transition plan to other services or other provider agencies, if applicable. Agencies should maintain a list of resources available for the client for referral purposes. If the client does not agree with the reason for case closure, they should follow the grievance policy at the provider agency and/or be referred to the Department of Public Health, Division of HIV and STD Programs Customer Support Program.

6.0 REFERRALS AND CASE CLOSURE

Draft as of 11/29/23 for Executive Committee review on 12/12/23.

Los Angeles County Commission on HIV

	STANDARD	DOCUMENTATION
6.1	Agency will maintain a comprehensive list of providers for full spectrum HIV- related and other service referrals a. Staff will provide referrals to link clients to services based on assessments and reassessments	Identified resources for referrals at provider agency (e.g. lists on file, access to websites) Written documentation of recommended referrals in client file
6.2	If needed, staff will engage additional providers for specific support services (e.g. behavioral health, substance use, housing).	Agency establishes partnerships with agencies for referrals as needed. Memoranda of Understanding (MOU) on file.
6.3	 For clients with missed appointments or pending case closure, staff will attempt to contact client. a. Cases may be closed if the client: Relocates out of the service area Is no longer eligible for the service Discontinues the service No longer needs the service Puts the agency, service provider, or other clients at risk Uses the service improperly or has not complied with the services agreement Is deceased Has had no direct agency contact, after repeated attempts, for a period of 12 months. 	Attempts to contact client and mode of communication documented in file. Justification for case closure documented in client file
6.4	Agency has a transition procedure in place that is implemented for clients leaving services to ensure a smooth transition.	Completed transition summary in file, signed by client and supervisor (if possible). Summary should include reason for case closure; and a plan for transition to other services, if applicable, with confirmation of communication between referring and referral agencies, or between client and agency.
6.5	Agency develops or utilizes existing due process policy for involuntary removal of clients from services; policy includes a series of verbal and written warnings before final notice and case closure.	Due process policy on file as part of transition, and case closure policy described in the <i>Patient & Client Bill of Rights and</i> <i>Responsibilities</i> document. (Refer to Appendix B).

Los Angeles County Commission on HIV

APPENDIX A—Ryan White Part A Service Categories

The Ryan White HIV/AIDS Program Part A provides assistance to communities that are most severely impacted by the HIV epidemic. Part A funds must be used to provide core medical and support services for people living with HIV.

CORE MEDICAL SERVICES	DESCRIPTION
Ambulatory Outpatient Medical (AOM)	HIV medical care access through a medical provider.
Services	
Home-based Case Management	Specialized home care for homebound clients.
Medical Care Coordination (MCC)	HIV care coordination through a team of health providers to improve quality of life.
Medical Specialty Services	Medical care referrals for complex and specialized
	cases.
Mental Health Services	Psychiatry, psychotherapy, and specialized cases.
Oral Health Services (General & Specialty)	General and specialty dental care services.

SUPPORTIVE SERVICES	DESCRIPTION
Benefits Specialty Services	Assistance navigating public and/or private benefits
	and programs (health, disability, etc.).
Language Translation Services	Translation services for non-English speakers and
	deaf and/or hard of hearing individuals.
Legal Services	Legal information, advice, and services.
Nutrition Support Services	Home-delivered meals, food banks, and pantry
	services.
Residential Care Facility for the Chronically III	Home-like housing that provides 24-hour care.
(RCFCI)	
Substance Use Disorder Transitional Housing	Housing services for clients in recovery form drug or
(SUDTH)	alcohol use disorders.
Transitional Case Management	Support for incarcerated individuals transitioning
	from County jails back to the community.
Transitional Residential Care Facility (TRCF)	Short-term housing that provides 24-hour
	assistance to clients with independent living skills.
Transportation Services	Ride services to medical and social services
	appointments.

APPENDIX B—Patient and Client Bill of Rights and Responsibilities

It is the provider's responsibility to provide clients a copy of the Patient & Client Bill of Rights and Responsibilities in all service settings, including telehealth. The purpose of this Patient and Client Bill of Rights is to help enable clients to act on their own behalf and in partnership with their providers to obtain the best possible HIV/AIDS care and treatment. This Bill of Rights and Responsibilities comes from the hearts of people living with HIV/AIDS in the diverse communities of Los Angeles County. As

Los Angeles County Commission on HIV

someone newly entering or currently accessing care, treatment, or support services for HIV/AIDS, you have the right to:

A. Respectful Treatment and Preventative Services

- 1. Receive considerate, respectful, professional, confidential, and timely care and preventative services (such as screenings and vaccinations) in a safe client-centered, trauma-informed environment without bias.
- 2. Receive equal and unbiased care according to your age and needs in accordance with federal and State laws.
- 3. Receive information about the qualifications of your providers, particularly about their experience managing and treating HIV/AIDS or related services.
- 4. Be informed of the names and work phone numbers of the physicians, nurses, and other staff members responsible for your care.
- 5. Receive safe accommodations for protection of personal property while receiving care services.
- 6. Receive services that are culturally and linguistically appropriate, including having a full explanation of all services and treatment options provided clearly in your own language and dialect.
- 7. Review your medical records and receive copies of them upon your request (reasonable agency policies including reasonable fee for photocopying may apply).

B. Competent, High-Quality Care

- 1. Have your care provided by competent, qualified professionals who follow HIV treatment standards as set forth by the U.S. Department of Health and Human Services12 (HHS), the Centers for Disease Control and Prevention13 (CDC), the California Department of Health Services14, and the County of Los Angeles Department of Public Health15.
- 2. Have access to these professionals at convenient times and locations.
- 3. Receive appropriate referrals to other medical, mental health or care services.
- 4. Have their phone calls and/or emails answered with 1-5 business days based on the urgency of the matter.

C. Participate in the Decision-making Treatment Process

- 1. Receive complete and up-to-date information in words you understand about your diagnosis, treatment options, medications (including common side effects and complications) and prognosis that can reasonably be expected.
- 2. Participate actively with your provider(s) in discussions about choices and options available for your treatment.
- 3. Make the final decision about which treatment option is best for you after you have been given all relevant information about these choices and the clear recommendation of your provider.
- 4. Have access to patient-specific education resources and reliable information and training about patient self-management.
- 5. Refuse any and all treatments recommended and be told of the effect that not taking the treatment may have on your health, be told of any other potential consequences of your refusal and be assured that you have the right to change your mind later.

Los Angeles County Commission on HIV

- 6. Be informed about and afforded the opportunity to participate in any appropriate clinical research studies for which you are eligible.
- 7. Refuse to participate in research without prejudice or penalty of any sort.
- 8. Refuse any offered services or end participation in any program without bias or impact on your care.
- 9. Be informed of the procedures at the agency for resolving misunderstandings, making complaints, or filing grievances.
- 10. Receive a response to a complaint or grievance within 30-45 days of filing it.
- 11. Be informed of independent ombudsman or advocacy services outside the agency to help you resolve problems or grievances (see number at bottom of this form), including how to access a federal complaint center within the Center for Medicare and Medicaid Services16 (CMS).

D. Confidentiality and Privacy

- 1. Receive a copy of your agency's Notice of Privacy Policies and Procedures. (Your agency will ask you to acknowledge receipt of this document.)
- 2. Keep your HIV status confidential. Have information explained to you about confidentiality policies and under what conditions, if any, information about HIV care services may be released.
- 3. Request restricted access to specific sections of your medical records.
- 4. Authorize or withdraw requests for your medical record from anyone else besides your health care providers and for billing purposes.
- 5. Question information in your medical chart and make a written request to change specific documented information. (Your physician has the right to accept or refuse your request with an explanation.)

E. Billing Information and Assistance

- 1. Receive complete information and explanation in advance of all charges that may be incurred for receiving care, treatment, and services as well as payment policies of your provider.
- 2. Receive information on any programs to help you pay and assistance in accessing such assistance and any other benefits for which you may be eligible.

F. Patient/Client Responsibilities

In order to help your provider give you the care to which you are entitled, you also have the responsibility to:

- 1. Participate in the development and implementation of your individual treatment or service plan to the extent that you are able.
- 2. Provide your providers, to the best of your knowledge, accurate and complete information about your current and past health and illness, medications and other treatment and services you are receiving, since all of these may affect your care. Communicate promptly any changes or new developments.
- 3. Communicate to your provider whenever you do not understand information you are provided.
- 4. Follow the treatment plan you have agreed to and understand the consequences of failing to adhere to the recommended course of treatment or of using alternative treatments.

Los Angeles County Commission on HIV

- 5. Understand that cases may be closed if the client:
 - i. Relocates out of the service area
 - ii. Is no longer eligible for the service(s)
 - iii. Discontinues the service(s)
 - iv. No longer needs the service(s)
 - v. Puts the agency, service provider, or other clients at risk
 - vi. Uses the service(s) improperly or has not complied with the services agreement
 - vii. Is deceased
 - viii. Has had no direct agency contact, after repeated attempts, for a period of 12 months
- 6. Keep your appointments and commitments at this agency or inform the agency promptly if you cannot do so.
- 7. Keep your provider or main contact informed about how to reach you confidentially by phone, mail, or other means.
- 8. Follow the agency's rules and regulations concerning patient/client care and conduct.
- 9. Be considerate of your providers and fellow clients/patients and treat them with the respect you yourself expect.
- 10. Refrain from the use of profanity or abusive or hostile language; threats, violence, or intimidations; carrying weapons of any sort; theft or vandalism; sexual harassment and misconduct.
- 11. If you are a person living with a Substance Use Disorder, please be open and honest with your provider about your substance use so that any issues can be properly addressed.

For More Help or Information

Your first step in getting more information involving any complaints or grievances is to speak with your provider or a designated client services representative or patient or treatment advocate at the agency. If this does not resolve the problem in a reasonable time span, or if serious concerns or issues arise and you would like to speak with someone outside the agency, you may call the number below for confidential, independent information and assistance.

Division of HIV and STD Programs | Customer Support Program (800) 260-8787 | 8:00 am - 5:00 Monday - Friday

APPENDIX C—Division on HIV/STD Programs Customer Support Program

The Division of HIV and STD Programs' (DHSP) Customer Support Program aims to assist consumers of HIV and STD services who have experienced difficulty accessing services from DHSP-funded providers throughout Los Angeles County. If you or someone you know is a consumer of HIV and STD services who have experienced difficulty accessing services from DHSP-funded providers throughout Los Angeles County, the Customer Support Program can assist with accessing HIV or STD services and addressing concerns about the quality of services received.

Please contact the Customer Support Program via email <u>dhspsupport@ph.lacounty.gov</u>, online <u>http://publichealth.lacounty.gov/dhsp/QuestionServices.htm</u> or by telephone at (800) 260-8787. By

Los Angeles County Commission on HIV

contacting the Customer Support Program, you will <u>**not**</u> be denied services. Your name and personal information can be kept confidential.
