CODE OF CONDUCT

The Commission on HIV welcomes commissioners, guests, and the public into a space where people of all opinions and backgrounds are able to contribute. In this space, we challenge ourselves to be self-reflective and committed to an ongoing understanding of each other and the complex intersectionality of the lives we live. We create a safe environment where we celebrate differences while striving for consensus in the fights against our common enemies: HIV and STDs. We build trust in each other by having honest, respectful, and productive conversations. As a result, the Commission has adopted and is consistently committed to implementing the following guidelines for Commission, committee, and associated meetings.

All participants and stakeholders should adhere to the following:

- 1) We approach all our interactions with compassion, respect, and transparency.**
- 2) We respect others' time by starting and ending meetings on time, being punctual, and staying present.**
- 3) We listen with intent, avoid interrupting others, and elevate each other's voices.**
- 4) We encourage all to bring forth ideas for discussion, community planning, and consensus.**
- 5) We focus on the issue, not the person raising the issue.**
- 6) Be flexible, open-minded, and solution-focused.**
- 7) We give and accept respectful and constructive feedback.**
- 8) We keep all issues on the table (no "hidden agendas"), avoid monopolizing discussions and minimize side conversations.**
- 9) We have no place in our deliberations for racist, sexist, homophobic, transphobic, and other discriminatory statements, and "-isms" including misogyny, ableism, and ageism.**
- 10) We give ourselves permission to learn from our mistakes.**

In response to violation of the Code of Conduct which results in meeting disruption, Include provisions of SB 1100 which states in part, ". . . authorize the presiding member of the legislative body conducting a meeting or their designee to remove, or cause the removal of, an individual for disrupting the meeting . . . Removal to be preceded by a warning to the individual by the presiding member of the legislative body or their designee that the individual's behavior is disrupting the meeting and that the individual's failure to cease their behavior may result in their removal." Complaints related to internal Commission matters such as alleged violation of the Code of Conduct or other disputes among members are addressed and resolved in adherence to Policy/Procedure #08.3302." - **2025-2026 LEGISLATIVE DOCKET – UPDATES**

K. Nelson provided an overview of the current bills on the 2025-26 Legislative Docket. She reminded the committee of the docket process development process which entails committee members and members of the public submitting bills for consideration to include in the docket. She explained that

the committee then holds deliberations and takes a position on the bills. The available positions are support, oppose, support with amendments, oppose unless amend, and watch. The committee also can submit questions to the legislative offices of the assembly member or state senator's office to clarify and better understand the proposed bills. Once the committee has taken a position, the docket is submitted to LA County CEO's office of Legislative Affairs and Intergovernmental Relations and serves as recommendations to the BOS.

Additionally, she noted that the document contains a table with five columns. The first column includes the bill number and legislator(s) who introduced/authored the bill; the second column includes the bill title; the third column includes a brief description of the bill, a link to the bill text, and any comments the committee has made regarding the bill; the fourth column includes the position the committee recommends; and the fifth column includes the current status of the bill and a date of the last update on that status. A copy of the document is included in the meeting packet.

K. Nelson added that legislators have until February 21, 2025, to submit bills and the committee should come prepared to discuss the docket at the next committee meeting on March 3, 2025. The committee began their deliberations and made the following decisions:

- **AB 4 Covered California Expansion: NEED MORE INFORMATION**

Updated 1/3/25

In accordance with the Ryan White Program (RWP), conflict of interest is defined as any financial interest in, board membership, current or past employment, or contractual agreement with an organization, partnership, or any other entity, whether public or private, that receives funds from the Ryan White Part A program. These provisions also extend to direct ascendants and descendants, siblings, spouses, and domestic partners of Commission members and non-Commission Committee-only members. Based on the RWP legislation, HRSA guidance, and Commission policy, it is mandatory for Commission members to state all conflicts of interest regarding their RWP Part A/B and/or CDC HIV prevention-funded service contracts prior to discussions involving priority-setting, allocation, and other fiscal matters related to the local HIV continuum. Furthermore, Commission members must recuse themselves from voting on any specific RWP Part A service category(ies) for which their organization hold contracts. ***An asterisk next to member's name denotes affiliation with a County subcontracted agency listed on the addendum.**

Learning Objectives

- Gain practical knowledge and skills to make effective public comments (PC) to elected bodies.
- Practice skills with mock meetings and scenarios.

Why Make Public Comments?

Public input increases transparency and accountability

A form of civic duty and engagement in the political process

Community advocacy and mobilization tool

Key Resources

- **Ralph M. Brown Act** – governs open meetings for local government bodies
- **“Public Testimony:** public may comment on agenda items before or during consideration by the legislative body. Time must be set aside for public to comment on any other matters under the body’s jurisdiction.”

Los Angeles County Board of Supervisors Public Comments Guidelines

- Meeting agendas with PC instructions @ <https://bos.lacounty.gov/>
- Telephonic public comments available
- Limited to a **total** of 6 mins per speaker, per meeting
- 1 minute for one item
- 2 mins for multiple items
- 3 mins for multiple items and general public comment

How to participate: <https://bos.lacounty.gov/board-meeting-agendas/how-to-participate>

Los Angeles County Board of Supervisors Submitting PCs Online (cont'd)

1. To provide written comments on agenda items, use <https://publiccomment.bos.lacounty.gov/>
2. Complete information at the top of the comment page.
 1. **NOTE:** Required fields are First and Last names
3. Choose the agenda items that you wish to address.
4. Select In Favor, Oppose, Other
 1. **Optional:** You may submit comments for each item separately or upload a document with all of your comments. (Attachment limit is 5 documents)
5. Select “Next”
6. Verify the information is correct and select “Acknowledge” when you are ready to submit.
7. All comments submitted are public and viewable online.

Tips – Live Comments

- Always check the public comment procedures on the meeting agenda.
- Agendas are posted 72 hours ahead of a meeting.
- Keep your comments succinct. Adhere to time limits.
- **Testimonies should cover four basic things:**
 1. Who you are
 2. Why this topic matters to you
 3. What specific points you don't support *and what you do support*

Tips – Live Comments (cont'd)

1. **Be mindful of your tone.** Be aware of how your message will be received
 2. Time is limited, so **keep it brief.**
 3. **Be crystal clear.** Keep your words and your message simple to leave no room for confusion or misinterpretation.
 4. **Be bulletproof.** If you make a claim, back it up with data and reputable sources.
 5. Get a second (and third and even fourth) set of eyes to **review your statement.** Have an honest friend read or listen to your testimony to make absolutely sure your message is coming across effectively.
- **Time Limits**
 - 1-minute testimony = 130 words
 - 2-minute testimony = 260 words
 - 3-minute testimony = 390 words

Tips – Live Comments (cont'd)

Prioritize your message: Make sure your most critical point(s) is/are made in the first minute of your testimony. That way if your time gets cut short, it gets cut off at the end after your most important point has been made.

Be flexible: Be ready to adapt with shorter versions of your testimony if needed. If you're comfortable doing so, you can also adjust your testimony based on the comments made before you, such as eliminating a point that has already been covered and discussing something else in its place, or correcting misinformation in a previous testimony.

Practice & Scenarios

- Board item #11: Proclaiming April 2023 as “Fair Housing Month”
- *How would you prepare for a written public comment?*
- *What would you include in your written public comment?*
- *How will you follow-up with your written public comment submission?*

Practice & Scenarios

- General Public Comments (towards end of Board agenda)
- The Chair just announced that public comments will be limited to 1 min per person.
- HIV or STD is not on the Board's agenda but you want to speak about HIV/STDs.

End the Epidemics is a statewide coalition of more than 150 community-based organizations that advocates for anti-racist policies and funding priorities to eliminate health inequities among Black, Indigenous, and People of Color while working collaboratively to end the syndemic of HIV, STIs, viral hepatitis, and overdose in California.

LOS ANGELES LGBT CENTER

FY 2025-2026 LBTQ HEALTH EQUITY INITIATIVE FUNDING PROPOSAL FOR THE STATE OF CALIFORNIA

This Los Angeles LGBT Center proposes a budget request of \$15 million over three years in general funds to continue for the existing Lesbian Queer Bisexual and Transgender (LBTQ) Health Equity Initiative Fund within the California Department of Public Health (CDPH).

Lesbian, bisexual, and queer (LBQ) women, non-binary, and transgender-identified people with uteruses have for far too long been invisible in healthcare settings despite having a disproportionate share of health disparities. This population has historically faced significant barriers to accessing health care, including anti-LGBTQ bias and insufficient access to culturally appropriate care, particularly for preventive services like mammography and other cancer screenings. Further, few funding sources exist that specifically target LBQ women and trans men, and there is currently an alarming lack of medical services and research tailored to the medical needs of LBTQ people with uteruses.

LBTQ Health Equity Initiative

Despite these significant health disparities, LBTQ people with uteruses have largely been invisible within the health field and current state funds from the 2019 LBQ Women's Health Equity Fund to address these health disparities are depleted. To address this gap in care, we urge the legislature to designate \$15 million over three years in general funds for the continuation of the LBTQ Health Equity Initiative Fund to be located within the California Department of Public Health (CDPH). This fund will be used to create a comprehensive grant program that will address LBTQ people with uteruses' health disparities across California.

1. \$8 million for Demonstration Projects that seek to provide navigation assistance to LBTQ people with uteruses in accessing healthcare providers, healthcare coverage, and to provide referrals to culturally appropriate programs and services, including smoking, alcohol and substance use cessation, mental health, and domestic violence programs to increase health care utilization rates and to increase compliance for preventive health screenings.
2. \$2.5 million for Community Education and Outreach efforts, including launching public awareness health campaigns, for LBQ women and allies with an emphasis on targeting LBQ women of color, young adults, and seniors.
3. \$2.5 million to expand the number of low-income LBTQ women who currently lack access to culturally competent health and wellness services to trauma-informed, LBTQ-specific comprehensive medical, health, and psychosocial services, including but not limited to, breast and cervical cancer screenings, and reproductive healthcare. Support ongoing patient retention in care through high-quality case management and patient navigation services, which include emergency assistance for high-risk clients. Provide psychosocial evaluations to new LBQ women, trans and non-binary patients recruited through this initiative to identify their level of need, assist in applying

LOS ANGELES LGBT CENTER

for appropriate safety net services, refer to additional services, and disseminate any necessary emergency assistance funds.

4. \$2 million for administration of the fund.

Los Angeles LGBT Center

Since 1969, the Los Angeles LGBT Center has cared for, championed, and celebrated LGBT individuals and families in Los Angeles and beyond. Today the Center's over 800 employees provide services for more LGBT people than any other organization in the world. The Center is one of the few Federally Qualified Health Centers (FQHC) in the nation with providers who specialize in primary care, HIV/AIDS specialty care, women's care through the Audre Lorde Health Program, and trans specific care through the Trans Wellness Center. In addition, the Center covers a broad range of other services including, but not limited to, mental health, substance abuse, and housing navigation. Across all our programs, we see over 50,000 clients per month; or, over half a million visits each year. In this moment, the need for our services has never been greater.

STIs, Viral Hepatitis & Overdose

April 2, 2025

Dr. Erica Pan
Director, California Department of Public Health
1616 Capitol Ave.
Sacramento, CA 95814

Dear Dr. Pan:

We are writing to request that the California Department of Public Health (CDPH) incorporate into the AIDS Drug Assistance Program (ADAP) 2025-26 May Revision Estimate three investments community-based advocates have prioritized. These investments are:

- (1) **Authorize up to \$60 million for sustaining vital HIV-prevention efforts.** While CDC currently funds these efforts, we expect the Trump administration to terminate that funding very soon. The funding streams we anticipate will be impacted include the “High-Impact HIV Prevention and Surveillance Programs for Health Departments” cooperative agreements, as well as funding for the Medical Monitoring Project, National HIV Behavioral Surveillance, and the Epidemiology and Laboratory Capacity Program. The \$60 million backfill we are proposing would include approximately \$30 million that currently goes directly to Los Angeles and San Francisco counties.
- (2) **\$9 million in 2025-26, and \$18 million in 2026-27 and 2027-28, for disease-investigation specialists (DIS).** We intend for these funds to replace rescinded funding from the federal DIS Syndemic Workforce Supplemental Funding Grant for the last four months of 2025-26, then the full year in 2026-27 and 2027-28.
- (3) **\$1 million in 2025-26 and \$1 million in 2026-27 to support the purchase of rapid hepatitis C virus (HCV) testing equipment** by facilities serving highly HCV-impacted populations (e.g., substance use disorder treatment facilities). The recent development of a rapid HCV test offers a high-potential opportunity to test people for HCV and link those who test positive to treatment on the same day. However, the equipment needed to analyze the new rapid test is currently prohibitively expensive for many service providers. This funding would enable service providers to obtain the equipment and link more people living with HCV to care.

Although the Trump administration is destroying the federal public-health infrastructure the country needs to maintain progress against the syndemic of HIV, viral hepatitis, sexually transmitted infections, and drug overdose, we refuse to allow this administration to hamper our progress here in California—and we don't have to. The state has more than \$1 billion in ADAP rebate funds, and it may use these funds for a wide variety of purposes related to HIV, including HIV prevention and HIV-HCV coinfection. Last year, recognizing that these funds had not been fully leveraged to address the HIV epidemic, the California State Legislature directed the Department to submit to lawmakers “a plan for modernization and expansion of ADAP and related programs with a focus on addressing the epidemic of HIV/AIDS in California.” The Legislature specified that the plan “shall be developed in consultation with stakeholders.”

In the ADAP 2025-26 November Estimate, CDPH presented a plan that is “inclusive of, but not limited to” relatively minor improvements to ADAP and the PrEP Assistance Program. The Department also committed to “continue to develop enhancements to ADAP and related programs in consultation with stakeholders,” including through its Monthly Office of AIDS & Sexually Transmitted Diseases/Hepatitis Stakeholder Engagement Calls. During the last such call on March 20, Department staff requested input on enhancements to ADAP and related programs, and several participants expressed support for the investments that are prioritized in this request.

Given stakeholder support for these investments, CDPH's commitment to consulting with stakeholders in developing proposed investments, and the urgency of the investments in the face of impending, devastating federal cuts, we hope that the Department will incorporate our proposals into the ADAP 2025-26 May Revision Estimate. Together, we can protect the incredible work California has done to bring our state's syndemic to an end.

Sincerely,

Jonathan Frochtzvajg, on behalf of the End the Epidemics Coalition
Director, Health Justice Policy

Californians Mobilizing to End HIV,
STIs, Viral Hepatitis & Overdose

End the Epidemics - Summary of AB 102, the Budget Act of 2025

During an extremely difficult budget year, End the Epidemics (ETE) achieved significant success in its budget requests. **This year, we were able to secure \$75 million from the AIDS Drug Assistance Program (ADAP) Rebate Fund and protect \$8.4 million in California Overdose Prevention and Harm Reduction Initiative (COPHRI) funds from being taken away.** This win includes Disease Intervention Specialists, expanding access to hepatitis C virus (HCV) testing equipment, and up to \$65 million on standby should the federal government rescind federal dollars for HIV/AIDS treatment and prevention programs throughout California. This funding was only made possible through your diligent advocacy, compelling stories, and the real-world impact you demonstrated!

On behalf of End the Epidemics, we are grateful for the support we have received from the California State Legislative LGBTQ+ Caucus, especially Caucus Consultants, Jacob Fraker and Natalia Garcia - without their championship this would have been a much more difficult, if not impossible, hill to climb. We are also deeply grateful to State Senator Caroline Menjivar for championing our budget priorities through her dedicated service in the Senate Budget Subcommittee 3 on Health. Her bold and principled stand against rolling back Medi-Cal coverage for undocumented and other populations with “unsatisfactory immigration status” (UIS) sends a powerful message when communities need it most - healthcare is a human right, no matter your immigration status.

Breakdown of ETE Requests

ETE's budget request for Fiscal Year 2025-26 includes three main components:

FUNDED: \$75 million to maintain HIV and STI prevention services through the AIDS Drug Assistance Program Rebate Fund (Section 118 of SB 116);

FUNDED: \$8.4 million maintained in the California Overdose Prevention and Harm Reduction Initiative (COPHRI); and

UNFUNDED, BUT PROTECTED: \$15 million over 3 years into the LGBTQ Health Equity Initiative.

1. The budget request from the ADAP Rebate Fund includes three subcomponents:
 - a. \$65 million for backfill of HIV treatment and prevention services

- b. \$9 million to continue the work of Disease Investigation Specialists
 - c. \$1 million for Hepatitis C point-of-care rapid test machines
- *The Section of text that authorizes this request is [Section 118 of SB 116](#).*

2. Maintaining \$8.4 million in the California Overdose Prevention Harm Reduction Initiative (COPHRI)
 - a. ETE and the CA Syringe Exchange Programs Coalition (CASEP) partnered to secure \$61 million in Opioid Settlement Funds to support syringe services programs (SSPs) throughout the state over the next four years, starting in 2023-24. These programs are responsible for a significant number of opioid reversals—including through Naloxone distribution—critical HIV and hepatitis c prevention services, and other services.
 - b. The Governor’s January budget proposal originally included a transfer of funds to the Naloxone Distribution Project. **The Senate initially rejected this proposal early in the state budget process, the Assembly followed suit, and the Governor ultimately agreed.**
3. \$15 million over three years to fund the LBTQ Health Equity Initiative
 - a. The Los Angeles LGBT Center advocated a general fund request to sustain services. Originally secured in 2019 to support LBQ women and nonbinary and transgender folks with uteruses to access inclusive and culturally competent primary care and support services, the state has been slow to disburse the approximately \$15.5 million housed in the California Department of Public Health. **The request for additional funds was not included in the final budget bill.**
 - b. Importantly, the Governor also proposed a clawback of unspent funds from the LBTQ Health Initiative, among other CDPH funds, in the May Revise. **However, advocates and the legislature successfully pushed back and current LBTQ Women’s Health Equity Initiative funds were protected.**

Additional Budget Items Supported by the Coalition

[Funded] \$20 Million for the Transgender, Gender Nonconforming, and Intersex Wellness and Equity (TGI WE) Fund

[Section 144 & 149 of AB 102](#) authorizes a total of \$20 million to support TGI WE fund programs. Eligible grantees are TGI-led organizations (organizations led by a TGI person, the organization’s clientele is at least 65% TGI). [AB 116 \(Omnibus Health Trailer Bill\)](#) includes \$5 million from the ADAP Rebate Fund to support HIV prevention services offered by TGI-led organizations. This was a component of ETE’s 2024-25 budget request. AB 116 also amended existing statute to allow TGI-led organizations to offer HIV prevention services. Further, Section 45 of AB 116 amends the statute to allow the TGI WE fund to provide grants for “evidence-based therapeutic arts programs.” Finally, we are also tracking [AB 1487 \(Addis\)](#), which, if signed, would add “Two Spirit” to the fund’s name and allow it to fund additional service categories, like workforce development, behavioral health services, asylee services, and reintegration services.

[Funded] \$5 Million for Condom Access in Schools

Another win from 2024-25 was a \$5 million appropriation from the ADAP Rebate Fund to support condom distribution to high school students. SB 116 amendment revises the expiration date for the availability of funds to 2028.

[Funded] \$15 Million to Backfill Title X

Title X is a federally funded program that covers family planning and prevention services, such as breast and cervical cancer and STI screening, HPV vaccine administration, and HIV prevention and treatment. Essential Access Health, a longtime ETE member organization, is [California's Title X grantee that, in turn, subcontracts with 53 providers throughout the state.](#) [Section 137 of AB 102](#) authorizes \$15 million allocation.

[Protected] Hepatitis C/STD Prevention Funds The May Revision proposed a clawback of unspent funds for hepatitis c (HCV) and congenital syphilis surveillance and HCV test kits, upwards of \$2 million. ETE successfully advocated for these funds in prior budget requests. The legislature and the administration rejected this proposal in the final Budget Act.

[Unfunded] The Health Care Contingency Fund, which would backfill \$100 million in federal cuts for gender-affirming care, abortion care, and other sensitive services, was not included in the final Budget Act.

Medi-Cal

Medi-Cal, California's version of the Medicaid program, provides health care coverage for approximately 15 million income-eligible residents, regardless of immigration status. Medi-Cal is covered significantly by federal dollars and state general funds, and represents a huge portion of the state's budget. The federal Medicaid program requires every state to provide certain [mandatory benefits, but states have significant leeway in deciding which "optional" benefits](#) they will include, such as prescription outpatient drugs, dental services, and others. Many of the large solutions to the state budget deficit came from rolling back safety net programs, including the largest in California - Medi-Cal - particularly for beneficiaries with UIS. After negotiations between the Legislature and the Governor, the final budget and trailer bills contained the following provisions:

- Restores the [asset limit test](#) to \$130,000 for an individual and \$195,000 for a couple, effective January 1, 2026.
- Enrollment freeze for people with unsatisfactory immigration status (UIS) for purposes of Medi-Cal for people 19 to 59, effective January 1, 2026.
 - The UIS population includes undocumented Californians and people with other immigration statuses. As of this writing (7/1/25), the Department of Health Care Services (DHCS) has not clarified which immigration statuses are included in UIS.
 - Clarifies that people will not age out of Medi-Cal once they turn 19.
 - Maintains a re-enrollment "grace period" of 3 months if people fail to re-certify their enrollment.

- Maintains long-term care and in-home supportive services for the UIS population.
- Eliminates dental coverage for UIS population effective July 1, 2026.
- Eliminates the Prospective Payment Services (PPS) rate on the UIS population effective July 1, 2026. The PPS is a state and federally funded payment to health centers that is mandated by federal law, but the PPS rate used to cover the UIS population is only covered by state dollars.

State Fiscal Snapshot

On Friday, July 27, 2025, Governor Gavin Newsom signed AB 102, the Budget Act of 2025, and several trailer bills, authorizing the state budget for 2025-26. Trailer bills enact the statutory changes needed to implement the funding allocations in the Budget Act. In general, each trailer bill pertains to the different budget subcommittees, such as health, public safety, human services, education, and housing. For ETE's purposes, the State Budget Bill and AB 116 (the Health Omnibus Trailer Bill) are the most relevant.

California ultimately solved for a \$12 billion budget deficit. To be clear, solving includes funding cuts, funding clawbacks, and other fiscal maneuvers that affect programs. Although revenue projections were better than expected in the months leading up to the May Revision, the administration and the Legislative Analyst's Office alike attributed to three things: 1) tariff policies introduced by the new federal administration; 2) an underestimate on Medi-Cal spending (more on Medi-Cal below); and 3) the Palisades and Eaton Canyon fires that devastated Los Angeles County, which has had a huge and complex fiscal impact, including delaying the tax filing deadline for residents until October 15, 2025.

A Look Ahead

- While we should breathe a sigh of relief that we were able to maintain the status quo on some of our most important safety net programs, this budget is "temporary" in the sense that, once the federal government completes its federal reconciliation bill, the state legislature and the Governor may reconvene a special legislative session to revise the state budget. Everyone is bracing for cuts, especially to Medicaid and food assistance programs.
- Senator Monique Limon has been chosen by the legislature to become the next Senate President Pro Tempore. The first woman of color and Latina to hold this office, she will be responsible for leading budget negotiations and appointing several members of the Senate to key budget and policy committees. Limon's district represents a large swath of the Central Coast. She is anticipated to take the reins in early 2026.

Take Action

- Continue supporting ETE's priority legislation by circulating action alerts, submitting letters of support, sharing relevant policy and political information.
- Analyze two-year bills that may begin to move through the legislative process in the second year (January 2026) of this two-year session.

Thanks again to everyone for your incredible work this year. If you have any questions, please feel free to reach out!

Sincerely,

Sebastian Perez
Policy Committee Co-Chair, End the Epidemics coalition
