

COUNTYWIDE CRIMINAL JUSTICE COORDINATION COMMITTEE

September 11, 2014

TO: Supervisor Don Knabe, Chairman
 Supervisor Gloria Molina
 Supervisor Mark Ridley-Thomas
 Supervisor Zev Yaroslavsky
 Supervisor Michael Antonovich

FROM: Jerry E. Powers, Chief Probation Officer *J.P.*
 Chair, Public Safety Realignment Team
 Mark Delgado, Executive Director *MD*
 Countywide Criminal Justice Coordination Committee

SUBJECT: Public Safety Realignment Implementation – September 2014 Update

The County’s Public Safety Realignment Team (PSRT) continues to coordinate realignment implementation in the County. This PSRT implementation report provides current data reported by departments through July 2014 and discusses:

- I. Post-Release Community Supervision (PRCS) Updates
- II. Split Sentence Law Change
- III. Custody Related Issues
- IV. Criminal Justice Evaluation Efforts
- V. Future Issues

I. POST-RELEASE COMMUNITY SUPERVISION (PRCS) UPDATES

PARTICIPANT NUMBERS AND TERMINATIONS

From October 1, 2011 to July 31, 2014, the County received 23,781 individuals on PRCS. Table 1 summarizes the status of Post-Release Supervised Persons (PSPs) who have been supervised by the Probation Department since the start of realignment.

Table 1 – PRCS Population

	PSP Count
Total Cases Accepted	23,781
Total Cases Closed	12,381
Outstanding Warrants ¹	1,997
Deportation Warrants ²	1,183
Active Cases	8,220

¹ Does not include warrants issued for deported PSPs.

² Warrants issued after PSP is deported.

By law, PSPs are terminated from supervision after 12 consecutive months on supervision if they have not incurred a violation resulting in custody time. In addition, some PSPs are terminated from supervision due to new convictions that result in a state prison commitment and/or a lengthy jail sentence. Table 2 shows a breakdown of the total PRCS terminations since inception of the program.

Table 2 – PRCS Terminations Since Program Inception to July 31, 2014

Successful Termination	7,729
Termination Due to a New Criminal Conviction	3,273
Other Terminations (transfers, fatalities, etc.)	1,379
Total Terminations	12,381

Since late 2012, the termination rate has maintained pace with the rate of prison releases to PRCS. However, PRCS numbers should begin to decline in October, when mandatory three-year supervision terminations commence. PSPs who have been supervised for three years – not including tolled time– are terminated from supervision.

Probation is currently reviewing all remaining cases from the October 2011 PRCS cohort to determine who will be eligible for supervision termination. This review process will be ongoing thereafter. It is critical for Probation to make these determinations and update records in a timely fashion so that law enforcement can access accurate information on the supervision or non-supervision status of individuals. In addition, the Department of Mental Health (DMH), Department of Public Health-Substance Abuse Prevention and Control (DPH-SAPC), and all providers of treatment services to PSPs require advance notification of termination dates, since treatment services provided after supervision ends are not AB 109 reimbursed.

PROPOSITION 36 THIRD STRIKE RE-SENTENCING

Since March 2013, 178 individuals have been placed on PRCS following resentencing pursuant to Proposition 36, the Three Strikes Reform Act of 2012.

Placement on PRCS was initially done on a case-by-case basis for a one-year term through an agreement between the Court, the District Attorney’s Office, and the offices of the Public Defender and Alternate Public Defender. However, on May 27, 2014, the California Court of Appeals ruled that all re-sentenced inmates are subject to PRCS for a period of three years (*People vs. Espinoza*). Since that decision, the Court has placed all re-sentenced offenders on PRCS upon their prison release. Table 3 details the status of the LA County Proposition 36 re-sentenced population.

Table 3 – Prop 36 Cases

Prop 36	
Total Cases Accepted	178
Total Cases Closed	30
Outstanding Warrants	9
Deportation Warrants	1
Active Cases	138

Approximately 540 cases that are pending review for resentencing pursuant to Proposition 36 remain. It is difficult to estimate how many of those will ultimately be resentenced, as they will be reviewed on a case-by-case basis and may be subject to suitability hearings.

PRCS WARRANTS AND THE PROVISION OF SERVICES/BENEFITS TO ABSCONDERS

On May 13, 2014, your Board instructed the Chief Probation Officer to address in the next realignment report how the Probation Department coordinates with DMH, DPH, and the Department of Public Social Services (DPSS) as it relates to absconders accessing county services or benefits. Probation coordinates with other county departments as follows:

1. After a warrant is issued and entered into the Trial Court Information System, the warrant information is forwarded to Probation's Pre-Release Center (PRC), where the information is compiled with other Probation data, such as the PSP's last known/reported address.
2. The Pre-Release Center then relays this warrant information via secured e-mail to County departments providing treatment services, including DMH and DPH.
3. Additionally, the Probation Department transmits a list of individuals with outstanding warrants to DPSS for the purposes of terminating any benefits in place. PSPs with an active arrest warrant are ineligible for CalWorks, General Relief (GR), Cash Assistance Program for Immigrants (CAPI), and CalFresh programs.

Upon receiving warrant information from Probation, DPSS processes the information as follows:

1. A DPSS analyst reviews the absconder list against the department's LEADER system to determine the DPSS district of responsibility for each absconder.
2. The case and personal information are sent to the DPSS district of responsibility to discontinue benefits, as applicable.
3. A letter is sent to the person informing him or her of the discontinuance of benefits. (Attachment I provides a sample of a letter of termination of benefits.)

DPSS has indicated that the department is able to provide contact information from their records to Probation upon written request on cases where absconders have been receiving CalWorks, CalFresh, and/or CAPI benefits. Further, DPSS can provide contact information on individuals receiving GR benefits in response to a subpoena. Probation and DPSS will continue to work on a process for effectively sharing this information in allowed cases. It should be noted, however, that contact information pertaining to Medi-Cal records cannot be shared.

While Probation provides DMH and DPH-SAPC warrant information, they do not suspend treatment services for individuals named in a warrant. In addition, because of medical privacy regulations, neither are able to provide Probation with any contact information they may have for absconders who have been in contact with their treatment providers.

However, providing the warrant list can be helpful in clearing warrants for individuals who were unable to report to Probation for supervision because they were receiving services in a locked psychiatric residential treatment facility. This is important because the cash portion of an individual's SSI benefits may be suspended when a warrant is active.

COORDINATION OF SERVICES AND SUPERVISION EFFORTS

Departments continue to coordinate efforts to ensure that the appropriate levels of supervision and reentry support services are provided to PSPs. Departments have provided the following updates on the delivery of effective services:

Department of Mental Health Summary Data

Table 4 – Assessment and Participation

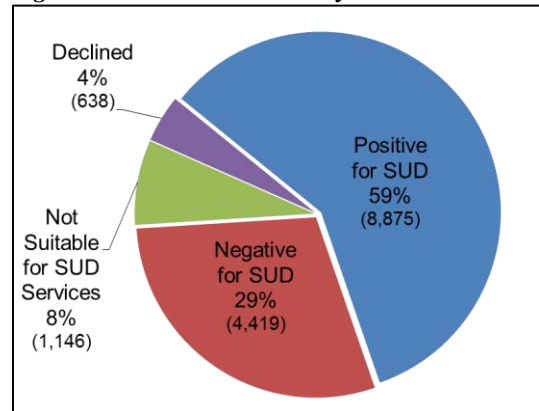

As of July 31, 2014, DMH has:	
Pre-screened	5,484
Assessed at HUBs	8,346
Engaged in services*	4,583
Refused treatment referral	314

* PSPs accepting treatment referrals, including 3,967 for co-occurring disorders and 580 for mental health services only.

It should be noted that the majority of the treatment refusals (309) occurred in the first two years of implementation. Only five individuals refused treatment in the third year of program implementation.

DPH-SAPC Summary Data

Figure 1 – AB 109 Community Assessment Services Centers (CASC) Contacts

Data is current as of 8/7/2014

Of the 8,875 positive substance use disorder (SUD) contacts, 7,922 resulted in referrals to SUD treatment services. One referral can generate multiple contacts and does not reflect unique individuals.

Table 5 – Admissions and Discharges

Overall Treatment Placement	Number of Treatment Episodes	Percent %
Treatment Admissions	4,714	
Currently in Treatment	763	16.2
Treatment Discharges	3,947	
Positive Treatment Compliance	1,850	46.9
Negative Treatment Compliance	2,097	53.1

Treatment Capacity Expansion

As previously reported, DPH-SAPC added medical detoxification services to the existing AB 109 treatment service continuum in April 2014 to increase the engagement of clients in treatment. From April through July, 99 PSPs accessed detoxification services, accounting for a total of 125 treatment admissions.

In April 2014, DMH completed amendments with 14 AB109 providers to expand community outpatient mental health and co-occurring treatment services for PRCS. Outpatient programs provide a wide array of mental health and co-occurring substance abuse treatment services, including assertive community treatment, field capable clinical services, wellness programs, and traditional outpatient treatment. AB 109 community treatment providers served 2,814 individuals during FY 2013-14.

Expansion of Re-Entry Services

The Community Re-entry and Resource Center (CRRC) was established at Twin Towers Correctional Facility as an extension of the Sheriff's Community Transition Unit (CTU). CRRC serves as a one-stop shop to promote continuity of care and facilitate inmates' transition back into the community. DPH-SAPC has co-located substance use disorder (SUD) assessment and referral services at the center through the Community Assessment Service Center (CASC) system. Co-located services provide: on-site SUD assessments; coordination of referrals to treatment; and referrals to ancillary support services as necessary. As of July 31st, a total of 52 clients had been assessed and/or referred at the CRRC.

Similarly, the DMH Jail Linkage Program is co-located at the CCRC to provide referrals and linkage to community mental health treatment services and supports. This includes release prescriptions for psychiatric medication as prescribed by Jail Mental Health Services.

Specialized Training

DPH-SAPC has instituted criminogenic competency trainings for AB 109 treatment providers to increase their capacity to serve the higher-risk realignment population. The following trainings were delivered:

- June 3, 2014 – *How Being Trauma-Informed Improves Criminal Justice Responses*
The training provided an overview of trauma's effects on behavior among individuals in the criminal justice system and how proper treatment responses among providers can help prevent further trauma.
- July 11, 2014 – *Medical Marijuana: What Behavioral Health Professionals Need To Know*
The lecture provided a review of marijuana's acute and chronic effects and addressed legal questions related to medical marijuana and its use in treatment settings.

Similarly, DMH has instituted a training program for the mental health treatment provider network. Throughout 2014, DMH has provided monthly trainings on evidence-based or promising practices. These included:

- Mental Health Assessment and Treatment of AB 109 Population
- Treatment of Individuals with Co-occurring Mental Health and Substance Abuse Disorders
- High Fidelity Cognitive Behavioral Therapy
- Seeking Safety (Trauma-Informed Treatment)

- Assessment and Treatment of Antisocial Personality Disorders and Psychopathology
- Crisis Oriented Recovery Services

In addition, DMH has provided two “Introduction to Mental Health” trainings to Probation staff. These inter-disciplinary trainings have been highly valuable for informing Probation’s supervision staff of mental health disorders, treatment models, and departmental policies. Such trainings will serve as a model for expanded AB 109 cross-training opportunities.

Process Improvement Pilot to Increase Treatment Engagement and Retention

DPH-SAPC is engaged in the Performance Improvement (PI) project, which aims to increase the number of PSPs presenting for treatment. An important component of this pilot project is to conduct focus groups with PSPs, CASC staff, and treatment providers to learn about their perspectives on the assessment process and how it can be improved. Focus groups for the CASC and treatment providers were completed in July 2014. Client-centered focus groups with PSPs will be completed by October 31, 2014.

Intensive Residential Treatment Services (IMD Step-downs)

In December 2013, DMH expanded intensive residential program capacity by 60 beds in order to serve 85 AB 109 individuals at any given time at this level of care. These programs provide housing with recovery-based intensive and supportive on-site mental health services and augmented supervision. As clients make progress, they transition into outpatient mental health services with an average length of stay of six to nine months. The programs have been fully utilized, serving 90 individuals in Fiscal Year (FY) 2013-14.

Sheriff’s Department and Municipal Law Enforcement Coordination

To support Probation’s supervision efforts and promote public safety, the Sheriff’s Parole Compliance Team (PCT), Los Angeles Police Department, and regional teams established by the County Police Chiefs Association coordinate enforcement operations, locate absconders, and conduct compliance checks.

The PCT and the Probation Department have continued to concentrate their efforts on locating absconders. Each absconder arrest averages approximately 95 man hours of work. This includes intelligence gathering, the use of investigative resources, and review of social media to obtain possible addresses and leads to locate the absconders.

Many of the absconders no longer reside within Los Angeles County. PCT has located and arrested absconders in San Bernardino, Riverside, Kern, and Orange counties, as well as outside California. The Sheriff’s Department actively works with the District Attorney’s office to extradite absconders who are located in other states.

“Smart Justice” Statewide PRCS Database

The California State Department of Justice has completed the first phase of the “Smart Justice” database. This database combines information from CDCR, Department of Justice, LARCIS, COPLINK and the County’s Adult Probation System (APS). Current users from Los Angeles County include members of the Sheriff’s Parole Compliance Team (PCT) and patrol station personnel within the Los Angeles County Sheriff’s Department, Los Angeles County Probation Department, LAPD and LA IMPACT.

Feedback from the current users has been very positive, as the database is meeting all of the users' expectations. Additional agencies within Los Angeles County will have access to the system when they implement a Global Federated Identity and Privilege Management process, which will allow users to log on to the Smart Justice system.

The second phase of Smart Justice will include an investigative module. However, DOJ has not yet set a date for implementation.

Ongoing Service Delivery Challenges and Efforts

The following areas have been identified by PSRT as continued focus areas.

- DMH continues to work with CDCR and other stakeholders to request and receive information on individuals being released from custody as early as possible. The coordination of release information in a timely fashion improves continuity of care efforts.
- Over the past year, the AB109 population being released from prisons is presenting with more complex medical needs including neurological trauma and medical conditions requiring skilled and custodial nursing home care. In addition, increasing numbers of individuals with criminogenic thinking and behaviors who may be less amenable to mental health treatment are being released. Some of these individuals have violent histories that make placement difficult and may present risks to treatment staff as well as the community.
- Availability of stable housing resources for this population is critical to successful community re-entry and treatment. Lack of community housing options continues to be a challenge.
- Probation continues to seek solutions to address office space needs for AB 109 programming. As previously reported to your Board, three of the seven requested offices had opened for services earlier this year. A fourth office opened on June 30th in the South Bay (Carson). The South Bay Regional Office houses a total of 56 employees, including sworn and clerical support staff. The opening of the San Fernando Valley Regional Office is expected in October 2014.

Probation continues to work with the CEO Real Estate Division to identify additional office locations in the East and West San Gabriel Valley for AB 109 operations.

II. SPLIT SENTENCE LAW CHANGE

Previous reports to your Board have discussed the relatively low use of split sentences in the County. Sentences are the result of negotiated plea agreements between the prosecution and defense approximately 95 percent of the time, and over 60 percent of felony cases – cases that largely would be eligible for a local prison sentence under realignment – result in placement on probation.

With passage of the Fiscal Year 2014-15 State budget, the legislature passed AB 1468, which includes modifications to split sentencing statutes. Effective January 1, 2015, split sentences are the presumed sentence for defendants convicted and sentenced under PC 1170 (h). That is, unless the Court finds that it is not in the interest of justice in a particular case, a defendant sentenced to county jail under realignment shall be given a split sentence in which a concluding portion of his/her local prison sentence is served on community supervision in lieu of custody.

Impacted agencies are preparing for an expected increase in the number of split sentences due to the pending law change. While it is difficult to quantify what the new law's impact will be, several factors will need to be monitored:

- *Public Safety and Recidivism* – The utilization of split sentences offers additional opportunity for providing and funding rehabilitative services to individuals leaving custody. It can also provide more supervision and monitoring of individuals in the immediate term following incarceration. As previously noted, however, the community supervision portion of a split sentence is in lieu of custody time that an individual would otherwise have received. Furthermore, the imposition of supervision conditions – including treatment participation to support reentry or search and seizure conditions that support monitoring – are not standard as they are in PRCS but are imposed on a case by case basis. Monitoring the impact of split sentencing on the provision of treatment services, supervision, and, ultimately, recidivism will be a PSRT priority.
- *Community Supervision and Treatment Needs* – Probation, DMH, DPH, and treatment providers will monitor the impact on resource and staffing allocations to ensure supervision and community treatment needs are met.
- *Coordination with Law Enforcement* – An increase in the number of individuals on split sentences amplifies the importance of policies and procedures that ensure law enforcement can obtain accurate information on the supervision status and conditions of released individuals.
- *Court Hearings* – Increased use of split sentencing will result in additional court hearings to address violations that occur when an individual is on supervision. The impact of additional hearings on resource needs of the Court, District Attorney's Office, Public Defender's Office, and Alternate Public Defender's Office will be monitored.
- *Jail Population* – The impact of additional split sentencing on the jail population will be measured. Whether split sentencing reduces or increases the demand for jail bed space will be determined by the manner in which split sentences impact overall custody terms, as well as the rate at which individuals on supervision violate.

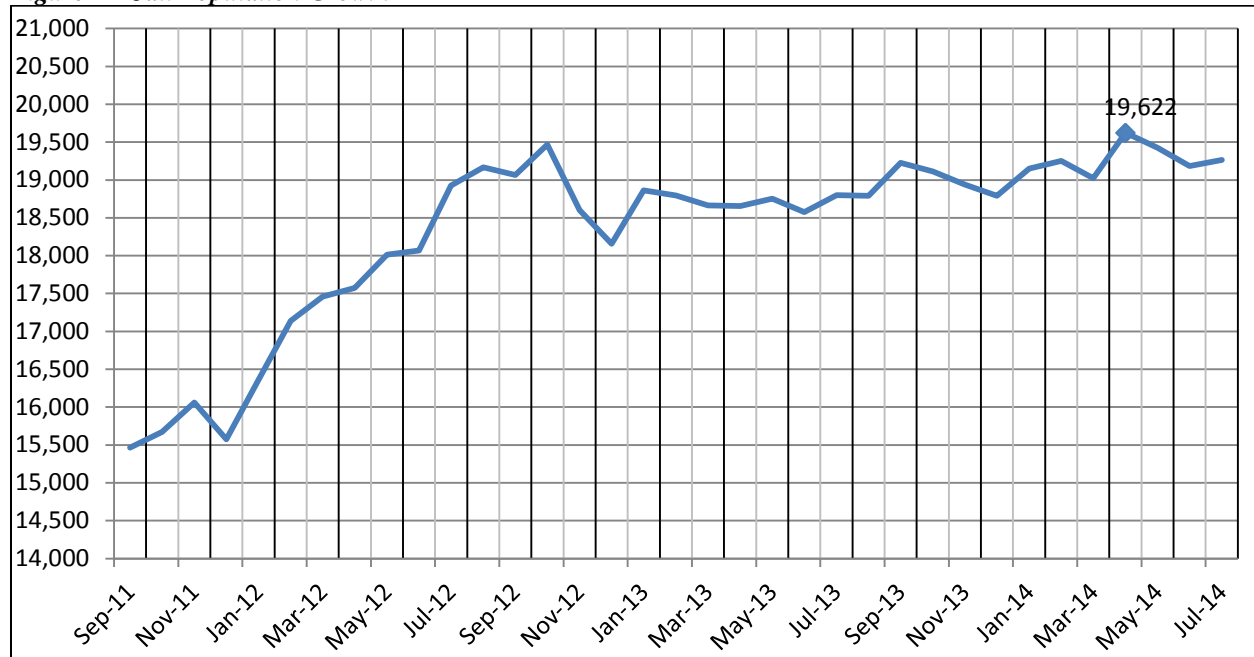

In advance of the pending law change, the District Attorney issued a split sentence policy directive within the office supporting the use of split sentences in appropriate cases and providing implementation guidelines. In addition, the Court and defense agencies have continued training on the law's application.

III. CUSTODY RELATED ISSUES

In September 2011, just prior to the implementation of AB 109, the Los Angeles County jail's daily population was approximately 15,500 inmates. At the end of July 2014, the jail population was 19,264 and included 5,806 individuals sentenced to a local prison term pursuant to AB 109.

The jail population reached its highest peak in April 2014 with a population of 19,622, as illustrated in Figure 2.

Figure 2 – Jail Population Growth

Community Re-Entry Resource Center

On Thursday, May 22nd, the Sheriff’s Department opened the Community Re-entry Resource Center (CRRC) adjacent to the Inmate Reception Center at Twin Towers Correctional Facility. The CRRC offers a continuity of care to those inmates who have received jail in-reach services and initial assistance for those who are seeking transitional services for the first time. Partnering with the Sheriff’s Department at the CRRC are the Probation Department, DMH, DPH-SAPC, DPSS, helathRIGHT 360, and Volunteers of America.

Population Management Strategies

Complementing the County’s work on the jail master plan, justice stakeholders continue to develop population management strategies that utilize jail beds effectively, maintain public safety, and promote rehabilitation among offenders with treatment needs.

Reports to your Board on the criminal justice mental health initiative led by the District Attorney and on jail population management strategies developed by the Sheriff’s Department are scheduled for your October 7th Board meeting.

IV. CRIMINAL JUSTICE EVALUATION EFFORTS

CCJCC remains on schedule to return to your Board in October to seek approval of Master Agreements with qualified vendors to provide criminal justice research and evaluation services to the County. Initial submissions from interested vendors have been received and are currently being reviewed for qualifications. Once Master Agreements are established, departments will be able to initiate evaluation projects related to realignment implementation or any other criminal justice initiative. CCJCC has solicited input from departments on proposed research/evaluation projects to conduct and is working with departments to establish priorities once the Master Agreements are in place.

V. FUTURE ISSUES

As PSRT continues to coordinate implementation of realignment in the County, certain issues will be monitored and/or should be noted for your Board:

- *Split Sentencing* – As previously discussed, law changes are expected to increase split sentencing in the County. PSRT will continue to coordinate responses to the change and monitor the impact additional split sentences have on the system.
- *Recidivism Reduction Grant* – The 2014-15 State budget allocated \$8 million to counties to implement recidivism reduction strategies. Funding allocations are based on county population, and L.A County is eligible for \$1.6 million. To receive the funds, your Board must approve a recommendation to accept the grant by September 30th. A Board letter recommending this action is targeted for your September 23rd meeting.
- *Proposition 47* – Proposition 47, which has qualified for the November 2014 ballot, proposes significant changes to the criminal justice system. If passed, it would reduce certain felonies to misdemeanors and allow individuals previously convicted of those felonies to be resentenced as misdemeanants.

The CEO's Office is working with affected departments to prepare an analysis of the initiative for your Board, including potential impact on realignment implementation.

NOTICE OF ACTION

COUNTY OF LOS ANGELES

STATE OF CALIFORNIA
HEALTH AND WELFARE AGENCY
CALIFORNIA DEPARTMENT OF SOCIAL SERVICES

Notice Date :
Case Name :
Number :
Worker Name :
Number :
Telephone :
Address :

(ADDRESSEE)

Questions? Ask your Worker.

State Hearing: If you think this action is wrong, you can ask for a hearing. The back of this page tells how. Your benefits may not be changed if you ask for a hearing before this action takes place.

As of _____, the County is changing your monthly cash aid from \$ _____ to \$ _____.

Here's why:

_____ cannot get cash aid because:

- he/she is avoiding or running from the law for a felony or attempted felony. The rules say that a person is thought to be avoiding or running from the law when there is a warrant issued in his/her name. The warrant was issued by _____ Agency on the date of _____. Cash aid may be started again if he/she can prove that they were not fleeing law enforcement to avoid prosecution or confinement, or for violating a condition of parole or probation.
- he/she has violated the terms of parole or probation.

Your new cash aid amount is figured on the next page.

EBT: Keep your plastic Golden State Advantage card if you use Electronic Benefit Transfer (EBT), even if your aid is terminated. **Please do not throw it away.**

Medi-Cal: This notice DOES NOT change or stop Medi-Cal benefits. **Keep using your plastic Benefits Identification Card(s).** You will get another notice telling you about any changes to your health benefits.

Food Stamps: This notice DOES NOT stop or change your food stamp benefits. You will get a separate notice telling you about any changes to your food stamp benefits.

Receiving Medi-Cal and/or food stamps only DOES NOT count against your cash aid time limits.

Rules: These rules apply. You may review them at your welfare office: MPP 82-832.20, W & I Code 11486.5

YOUR HEARING RIGHTS

You have the right to ask for a hearing if you disagree with any county action. You have only 90 days to ask for a hearing. The 90 days started the day after the county gave or mailed you this notice.

If you ask for a hearing before an action on Cash Aid, Medi-Cal, Food Stamps, or Child Care takes place:

- Your Cash Aid or Medi-Cal will stay the same while you wait for a hearing.
- Your Child Care Services may stay the same while you wait for a hearing.
- Your Food Stamps will stay the same until the hearing or the end of your certification period, whichever is earlier.

If the hearing decision says we are right, you will owe us for any extra Cash Aid, Food Stamps or Child Care Services you got.

To let us lower or stop your benefits before the hearing, check below:

Yes, lower or stop: Cash Aid Food Stamps Child Care

While You Wait for a Hearing Decision for:

Welfare to Work:

You do not have to take part in the activities.

You may receive child care payments for employment and for activities approved by the county before this notice.

If we told you your other supportive services payments will stop, you will not get any more payments, even if you go to your activity.

If we told you we will pay your other supportive services, they will be paid in the amount and in the way we told you in this notice.

- To get those supportive services, you must go to the activity the county told you to attend.
- If the amount of supportive services the county pays while you wait for a hearing decision is not enough to allow you to participate, you can stop going to the activity.

Cal-Learn:

- You cannot participate in the Cal-Learn Program if we told you we cannot serve you.
- We will only pay for Cal-Learn supportive services for an approved activity.

OTHER INFORMATION

Medi-Cal Managed Care Plan Members: The action on this notice may stop you from getting services from your managed care health plan. You may wish to contact your health plan membership services if you have questions.

Child and/or Medical Support: The local child support agency will help collect support at no cost even if you are not on cash aid. If they now collect support for you, they will keep doing so unless you tell them in writing to stop. They will send you current support money collected but will keep past due money collected that is owed to the county.

Family Planning: Your welfare office will give you information when you ask for it.

Hearing File: If you ask for a hearing, the State Hearing Division will set up a file. You have the right to see this file before your hearing and to get a copy of the county's written position on your case at least two days before the hearing. The state may give your hearing file to the Welfare Department and the U.S. Departments of Health and Human Services and Agriculture. (W&I Code Sections 10850 and 10950.)

TO ASK FOR A HEARING:

- Fill out this page.
- Make a copy of the front and back of this page for your records. If you ask, your worker will get you a copy of this page.
- Send or take this page to:

Appeals & State Hearing Section
P.O. Box 18890
Los Angeles, CA 90018

OR

- Call toll free: 1-800-952-5253 or for hearing or speech impaired who use TDD, 1-800-952-8349.

To Get Help: You can ask about your hearing rights or for a legal aid referral at the toll-free state phone numbers listed above. You may get free legal help at your local legal aid or welfare rights office.

If you do not want to go to the hearing alone, you can bring a friend or someone with you.

HEARING REQUEST

I want a hearing due to an action by the Welfare Department of _____ County about my:

- Cash Aid Food Stamps Medi-Cal
 Other (list) _____

Here's Why: _____

- If you need more space, check here and add a page.
 I need the state to provide me with an interpreter at no cost to me. (A relative or friend cannot interpret for you at the hearing.)

My language or dialect is: _____

NAME OF PERSON WHOSE BENEFITS WERE DENIED, CHANGED OR STOPPED _____

BIRTH DATE _____ PHONE NUMBER _____

STREET ADDRESS _____

CITY _____ STATE _____ ZIP CODE _____

SIGNATURE _____ DATE _____

NAME OF PERSON COMPLETING THIS FORM _____ PHONE NUMBER _____

- I want the person named below to represent me at this hearing. I give my permission for this person to see my records or go to the hearing for me. (This person can be a friend or relative but cannot interpret for you.)

NAME _____ PHONE NUMBER _____

STREET ADDRESS _____

CITY _____ STATE _____ ZIP CODE _____
