MGMA DATADIVE PROVIDER COMPENSATION

The MGMA DataDive Provider Compensation platform is one of the most comprehensive datasets in the industry, providing both hospital- and physician-owned practice data as well as compensation benchmarks for medical directorship, on-call, academic and starting salaries. The 2023 report based on 2022 data represents nearly 190,000 providers from 6,800 groups spanning 250 specialties. The MGMA DataDive Provider Compensation platform will enable you to:

- **Attract And Retain The Highest-Quality Providers.**
  Determine the right mix of compensation, benefits and incentives to offer to ensure that your recruitment packages are competitive within the market. Retain top talent by utilizing this data to align provider performance with compensation and set realistic goals.

- **Drive more revenue through productivity.**
  Evaluate work RVUs and the median compensation to work RVU ratio to help optimize compensation based on productivity. This data set will also help you understand the effects that teaching and research have on academic faculty compensation and productivity as academic providers report less billable clinical time than non-academic providers.

- **Keep costs contained.**
  Estimate the potential effects of adding physicians and advanced practice providers to help you manage your overall compensation costs.
QUARTILE TOOL

Quartiles Grouped by Work RVUs Family Medicine (without OB)

View compensation and productivity data partitioned by highest/lowest performers and the corresponding values of up to three additional benchmarks. Data is displayed by quartile in a table and interactive graph.

PAY TO PRODUCTION PLOTTER

Cardiology: Noninvasive Compensation and Work RVUs Plotter

Understand the relationship between compensation and productivity per provider specialty on a scatter plot.
CUSTOM REPORTS & TOOLS

For the data gurus, this tool allows you to get into the weeds and search very fine data points, like specialty combinations, state combinations and five-year trends. It also lets you compare your organization’s data side by side with MGMA data!
