COST AND REVENUE

The MGMA DataDive Cost and Revenue platform is a unique and unrivaled data set that allows you to perform thorough cost reduction analyses and helps you recognize practice traits that enhance cost-efficiency and overall profitability. In 2023, over 4,000 healthcare organizations across the industry were represented in this data set.

The MGMA DataDive Cost and Revenue platform will enable you to:

- **Drive more revenue through productivity.**
  Staff appropriately by evaluating ratios between productivity levels and the number of support staff and providers. In addition, analyze your full-time-equivalent (FTE) staffing levels via key performance indicators to drive more revenue through productivity.

- **Keep operating expenses contained and within budget.**
  Keep your operating expenses and costs contained by performing a thorough cost-reduction analysis that takes into account your productivity levels, staffing and expenses, and compares them against your revenue.

- **Demonstrate the effectiveness of your management processes to your physicians or board of directors.**
  Determine how your payer mix affects your organization’s bottom line, and benchmark accounts receivable and collections to identify areas for improvement to increase your overall profitability.

- **Maintain a healthy bottom line.**
  Understand all the factors that influence your bottom line, including information technology (IT) costs; liability insurance costs; building and occupancy expenses; support staff (front-office, clinical support, business operations and ancillary support staff); investment per physician; payer mix; and the association between productivity levels and the ratio of support staff to providers.
PRO TOOLS

PRO REPORT BUILDER
For the data gurus, this tool allows you to get into the weeds and search very fine data points, like five-year data trends, and roll up specialties. It also lets you compare your organization's data side by side with MGMA data!

QUARTILE TOOL
View data partitioned by highest/lowest performers and the corresponding values of up to three additional benchmarks, like staffing, revenue and expenses. Data is displayed by quartile in a table and interactive graph.
