

ACHIEVE 8,000/HOUR THROUGHPUT WITH SIMPLE, LOW-COST, SEMI-AUTOMATED INDUCTION

Intralox® Activated Roller Belt™ (ARB™) AutoPitch™ Induction delivers over 8,000 packages per hour at a lower cost than full automation. Simple and compact, this semiautomated solution mechanically creates the spacing between packages required by the downstream sorter. AutoPitch Induction comes integrator ready for fast, easy installation and commissioning.

up to

LESS LABOR TO
ACHIEVE 8,000
PACKAGES PER HOUR

up to
65%

LOWER UPFRONT
COSTS THAN OTHER
FULLY AUTOMATED
SOLUTIONS

IDEAL SOLUTION FOR:

- Retailers and parcel carriers
- Handling full e-commerce package mix
- Refining manual induction processes for improved throughput

KEY ADVANTAGES:

- Simple, intuitive operator interface has pockets that create pace
- Fewer gap errors compared to fully manual induction
- Easily scale throughput by adding or removing operators
- Less complex than full automation, resulting in low initial investment and easy maintenance

Contact your Intralox representative to discuss how ARB AutoPitch Induction can enhance your automation setup.
