

WHY CONSULT WITH INTRALOX IN THE EARLY STAGES OF YOUR PROJECT?

EXCLUDING INTRALOX

LIMITED CONSULTATION

You work solely with OEMs, experts in traditional and robotic technologies.

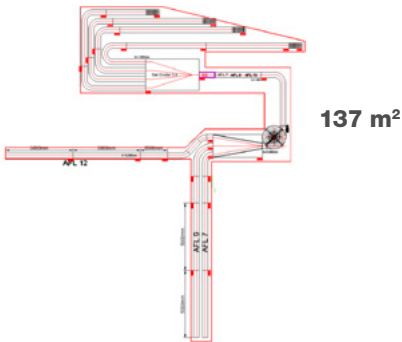

LIMITED OPTIONS

Your layout includes only traditional and/or robotic technology.

COMPLEX LINE LAYOUT AND HIGHER COST

Your line requires more equipment, space, and POTENTIALLY MORE money to meet your goals—if it can.

INCLUDING INTRALOX

COMPREHENSIVE CONSULTATION

You work with OEMs and Intralox, experts in their respective technologies.

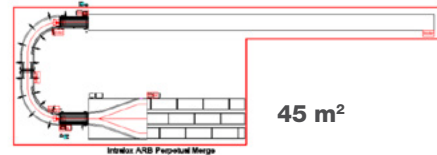

INNOVATIVE OPTIONS

Your layout includes the best mix of traditional, robotic, and Intralox® technologies for your application.

SIMPLIFIED LAYOUT AND HIGHER PROFITABILITY

Your line uses up to 50% less equipment and space to meet or exceed your goals—and potentially reduces project costs by \$100,000 or more.

...WHY NOT?

This simple, informal, and complimentary service from Intralox offers you recommendations that utilize our full range of unique solutions—from layout optimization to specialized applications—with no contract needed.

- Simplify complex line layouts
- Improve productivity
- Increase product flow and throughput
- Minimize risk
