

S9000 FLUSH GRID

CAN WASHER HOLD DOWN MAT

Optimize your can washer application with the Intralox® Series 9000 Flush Grid hold down mat. Developed specifically for the can-making industry, this modular plastic solution combines durable material with a unique belt design to ensure better, more reliable performance.

Featuring robust hold down tabs, the Series 9000 Flush Grid mat's modular construction makes it easy to maintain and repair while reducing your stock inventory needs. It comes backed by enhanced warranties and guarantees when purchased through the Intralox Can Washer Optimization Program.

FEATURES AND BENEFITS:

- Resistant to all washer chemicals
- Will not swell due to oils
- Can be used with cans of all sizes
- Enhanced open area provides for thorough can cleaning
- Careful design ensures zero damage to cans or hold down tabs

INTRALOX CAN WASHER OPTIMIZATION PROGRAM

This solution is available through Intralox's Can Washer Optimization Program. Designed to mitigate potential project risks, this program provides additional performance guarantees, extended belt warranties, expert recommendations, and a single source of responsibility for entire retrofit projects.
