

ACHIEVE 8,000/HOUR THROUGHPUT WITH SIMPLE, LOW-COST, SEMI-AUTOMATED INDUCTION

Intralox® Activated Roller Belt™ (ARB™) AutoPitch™ Induction delivers over 8,000 packages per hour at a lower cost than full automation. Simple and compact, this semi-automated solution mechanically creates a consistent pitch between manually inducted packages to ensure the minimum gap required by the sorter is delivered. AutoPitch Induction comes integrator ready for fast and easy installation and commissioning.

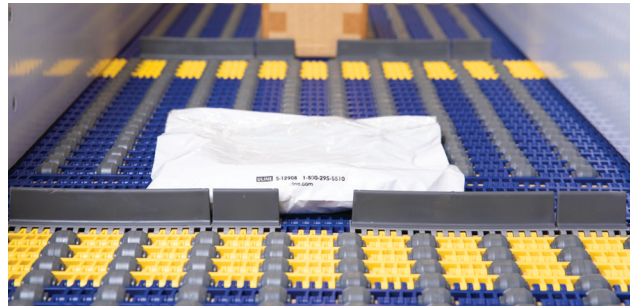

Up to
75%

**GREATER THROUGHPUT
THAN FULLY MANUAL
INDUCTION**

Up to
65%

**LOWER UPFRONT
COSTS COMPARED
TO OTHER FULLY
AUTOMATED SOLUTIONS**

IDEAL SOLUTION FOR:

- Retailers and parcel carriers
- Refining manual induction processes for improved throughput
- Handling full e-commerce package mix

KEY ADVANTAGES:

- Simple, intuitive operator interface has pockets that create pace
- Fewer gap errors compared to fully manual induction
- Less complex than full automation, resulting in low initial investment and easy maintenance
- Easily scale throughput by adding or removing operators

Contact your Intralox representative to discuss how ARB AutoPitch Induction can enhance your automation setup.
