Goof Proof® Application Instructions

- *For application on cotton, polyester or poly/cotton blends.*
- *An extra transfer is provided for testing purposes*
- *Before applying, check your transfers for spelling, color placement, etc.*
- If not a Hotronix® heat press, add 10°

100% Cotton & Cotton/Poly Blends

1. Set Your Heat Press
Temperature: 365°F
Time: 4-6 Seconds
Pressure: Med/Firm 6-8 (60-80psi)

2. Preheat Your Apparel
- Place apparel on platen and press for 3-5 seconds

3. Position Your Transfer & Press
- Place the transfer image side down on the apparel
- Close machine and press for 4-6 seconds

4. Peel Transfer Carrier Hot
- Open machine and peel off the paper backing in a smooth, even motion.

100% Polyester

For reduced scorching and max opacity

1. Set Your Heat Press
Temperature: 325-335°F
Time: 10-12 Seconds
Pressure: Med/Firm 6-8 (60-80psi)

2. Preheat Your Apparel
- Place apparel on platen and press for 3-5 seconds

3. Position Your Transfer & Press
- Place the transfer image side down on the apparel
- Close machine and press for 10-12 seconds

4. Peel Transfer Carrier Hot
- Open machine and peel off the paper backing in a smooth, even motion.

Tips:
- Do not use a pillow
- With normal application, no cover sheet is needed. A cover sheet could possibly block heat from reaching the application.
- Can also be pressed for 340°F for 8-10 seconds.
