

Smithfield Foods Commemorates Football's Biggest Game of the Year with Donations to Kansas City, Tampa Bay Food Banks

80,000-pound protein donation will support Feeding America's mission to end food insecurity in America

SMITHFIELD, Va., Feb. 16, 2021 /PRNewswire/ -- This week, [Smithfield Foods, Inc.](#) will donate a total of 80,000 pounds of protein, the equivalent of 240,000 servings, to [Feeding America](#) food banks [Harvesters—The Community Food Network](#) of Kansas City, Missouri and [Feeding Tampa Bay](#) of Tampa Bay, Florida. The donations are part of Smithfield's #BetterWithBacon campaign, which was shared during this year's Big Game, to support Feeding America's mission to end hunger in America.

"Football is a beloved American pastime and this is its biggest day of the year. Good food is a central part of the celebration. This year, Smithfield was inspired by the big game to do something special to aid our fellow Americans struggling with food insecurity," said Jonathan Toms, charitable initiatives manager at Smithfield Foods. "To maximize our impact, Smithfield amplified its commitment of pledged protein servings to nourish the Kansas City and Tampa Bay communities. We thank our partners, and food banks across the nation, for their selfless efforts to keep America fed during this time of tremendous need."

The #BetterWithBacon campaign is part of Smithfield's [Helping Hungry Homes](#) initiative, the company's signature hunger-relief program focused on alleviating hunger through nutritious, high-quality protein donations to food banks, school nutrition programs, disaster relief efforts and community outreach programs. Since 2008, Smithfield has provided more than 212 million servings of protein in all 50 states across the country.

In March 2020 Smithfield launched the "[Good Food Challenge](#)", a public call-to-action to aid Feeding America's network of food banks in response to COVID-19. To join Smithfield in support of Feeding America, visit: <http://www.smithfieldfoods.com/goodfoodchallenge>.
